3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<i>Voting Policy Rationale: Although incentive programs were primarily based on pre-set objective measures and the committee introduced a long-term equity award in FY24, there are significant concerns regarding pay decisions, program structure, and the magnitude of awards provided to NEOs. PSU awards utilize a relatively short one-year performance period, and concerns are magnified as the company made modifications to these awards, which resulted in a significant incremental fair value disclosure of more than \$11 million for the CEO. Furthermore, while the company introduced longer term performance-based awards that utilized milestone goals, it resulted in outsized equity award values to all NEOs. In addition, while the aggregate performance of corporate performance measures in the STI were achieved below target, some concerns are raised as NEOs received above-target payouts following the committee's assessment of individual performance. On balance of these factors, a vote AGAINST this proposal is warranted.</i>

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted. The CEO's payout of a five-year special long-term cash incentive significantly elevated his pay in FY23; however, the award was tied to a rigorous performance condition and was capped at target payout. In addition, regular annual and long-term incentives were substantially based on clearly disclosed, objective performance criteria, and both programs capped payouts at target. Some concern exists that compensation may increase beginning in FY24 given the introduction of above-target payout opportunities under the incentive programs. However, a pay-for-performance misalignment for the year under review is mitigated.</i>

	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. While the annual incentive was based primarily on financial metrics, and the committee utilized discretion to reduce annual incentive payouts, there are noted design, disclosure, and magnitude concerns in the long-term incentive program. The CEO's total equity award value was large, driving relatively large total pay for the year in review, on the backdrop of TSR underperformance. Concerns surrounding these awards are magnified, as the majority of performance awards utilize a relatively short two-year period and forward-looking goals are not disclosed. Moreover, the majority of equity awards granted to NEOs other than the CEO were primarily time-based.</i>

1a	Elect Director James Murdoch	Mgmt	For	Against	Against
1b	Elect Director Kimbal Musk	Mgmt	For	Against	Against

*Voting Policy Rationale: A vote AGAINST audit committee member James Murdoch is warranted given concerns about the risk oversight function of the board, in light of the pledging of a significant amount of the company's stock by certain directors and executives. A vote AGAINST incumbent nominating committee member James Murdoch is further warranted for lack of diversity on the board. A vote AGAINST non-independent nominee Kimbal Musk is warranted given the significant concerns the board may suffer from conflicts of interest in scrutinizing individual and corporate performance with executive compensation. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST James Murdoch and Kimbal Musk are further warranted for the following reasons: * Given that board chair, Robyn Denholm, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders, is not up for election at this year's annual meeting, all board members should be held accountable for poor board and management oversight of ESG risk exposures at the firm.*

A vote AGAINST non-independent nominee Kimbal Musk is warranted given the significant concerns the board may suffer from conflicts of interest in scrutinizing individual and corporate performance with executive compensation. Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST James Murdoch and Kimbal Musk are further warranted for the following reasons: * Given that board chair, Robyn Denholm, who shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders, is not up for election at this year's annual meeting, all board members should be held accountable for poor board and management oversight of ESG risk exposures at the firm.*

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. While most NEOs received modest or no compensation for FY23, one executive was granted an outsized, time-based stock option award upon his promotion, the magnitude and design for which are not adequately explained. The grant does not require the achievement of pre-set performance criteria in order to vest and the value is considered to be excessive.</i>				
3	Change State of Incorporation from Delaware to Texas	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. The process undertaken by the board to reach a decision to reincorporate does leave something to be desired, and there is some acknowledged risk given that Texas business courts are new and have no robust body of legal case law precedents or track record. However, while the board could have provided for a more definitive improvement to the rights of shareholders in conjunction with the proposed reincorporation, it is overall not readily apparent that the rights of shareholders would be materially harmed as a result of the proposed reincorporation.</i>				
4	Ratify Performance Based Stock Options to Elon Musk	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this proposal is considered warranted. In re-ratifying the 2018 performance option grant, shareholders have been given a unique opportunity to opine on a granted pay package for a second time, with the full benefit of hindsight in determining if the award was closely aligned with shareholders' interests and if it accomplished the goals the board set out to achieve. Some investors may find the board's argument compelling, that it would be unfair for CEO Musk not to receive the full award, which was previously approved by shareholders, and after achieving the high performance hurdles. However, the concerns raised, both back in 2018 and in the interim, have not been sufficiently mitigated, particularly given that the board has effectively only offered shareholders an "all or nothing" option in this vote. Although the structure of the grant's performance hurdles arguably contributed to, as well as reflect, the company's significant financial growth during the performance period, the total award value remains excessive, even given the company's success. In addition, the grant, in many ways, failed to achieve the board's other original objectives of focusing CEO Musk on the interests of Tesla shareholders, as opposed to other business endeavors, and aligning his financial interests more closely with those of Tesla stockholders. Lastly, there are go-forward concerns that remain unaddressed, including a lack of clarity on the board's plan for Musk's future compensation program and the potential for significant economic dilution.</i>

8	Report on Harassment and Discrimination Prevention Efforts	SH	Against	For	For
	<i>Voting Policy Rationale: A vote FOR this resolution is warranted, as the company has faced recent attention for allegations of harassment and discrimination in the workplace, and increased transparency would help shareholders assess how the company is managing associated risks.</i>				
9	Adopt a Non-Interference Policy Respecting Freedom of Association	SH	Against	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted. In light of the numerous controversies around the topic, and the high profile and increasingly contentious nature of the issue, additional clarity regarding the company's freedom of association policies would better position shareholders to evaluate the company's position.</i>

11	Assess Feasibility of Including Sustainability as a Performance Measure for Senior Executive Compensation	SH	Against	For	For
<p><i>Voting Policy Rationale: A vote FOR this proposal is warranted. Incorporating sustainability performance measures as a broader component of executive compensation would serve to further incentivize executives to ensure that company performance on sustainability considerations, alongside financial factors, is appropriately aligned with management's interests, the firm's stated commitments to social responsibility, and long-term corporate strategy.</i></p>

<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. After last year's say-on-pay proposal received low support, the compensation committee demonstrated only a limited degree of responsiveness to shareholders' concerns. In addition, an unmitigated pay-for-performance misalignment persisted in FY24. The company continues to grant special retention bonuses which lack pre-set performance criteria and vest after just one year. Additionally, the company granted supplemental grants to executives to "make-whole" declines in stock price from the original grant, including multiple awards related to last year's front-loaded "refresh awards," effectively shielding executives from a loss in equity grant value, though the company did make certain positive changes to the pay program going forward.</i></p>

More detailed information on KPIs, applied targets with weights, minimum and maximum thresholds is valuable in order to help investors comprehend the reward for performance and would furthermore be in line with the European Commission draft guidelines on standardized presentation of the remuneration report and general investor sentiment on minimum disclosure expectations; * The supervisory board is vested with discretionary powers to set performance conditions of the STI, evaluate their levels of achievement, and allocate variable remuneration to the company's executives</i></p>

<p><i>Voting Policy Rationale: A vote FOR this shareholder proposal is recommended because: * Toyota doubled the number of industry organizations reviewed in the 2023 climate lobbying report, which is positive. However, although Toyota Motor this year retained a third-party appraiser, unlike in 2022 when the company itself conducted a review, the identity of the appraiser is not disclosed. * Particularly in light of the compliance concerns at Toyota group companies, the proposal would help restore trust through transparent disclosures aligned with the Paris Agreement. * An evaluation of how the company's lobbying activities align with the Paris Agreement goals would provide information that would allow shareholders to better evaluate the company's risk related to its lobbying activities.</i></p>

1a	Elect Director Aneel Bhusri	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST incumbent director nominees Aneel Bhusri, Thomas (Tom) Bogan and Lynne Doughtie is warranted for lack of diversity on the board. As no governance committee members are on the ballot, votes AGAINST incumbent directors Aneel Bhusri, Thomas (Tom) Bogan, and Lynne Doughtie are additionally warranted for maintaining a dual-class capital structure with disparate voting rights that is not subject to a reasonable time-based sunset provision. A vote AGAINST Aneel Bhusri is further warranted as his ownership of the supervoting shares provides him with voting power control of the company.</i>

2	Ratify Ernst & Young LLP as Auditors	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR this item is warranted because only 3.39 percent of the fees paid to the auditor are for non-audit purposes.</i>					
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<i>Voting Policy Rationale: The STI program was primarily based on pre-set objective metrics and the company improved goal disclosure in FY24, though remaining incomplete. However, there are significant concerns regarding the magnitude and structure of pay programs. Co-CEO Bhusri and CFO Rowe received sizable time-based RSU awards in FY24 that were relatively large and lacked performance vesting criteria. Furthermore, while the company disclosed threshold and target goals in the STI program, maximum goals were not disclosed, and individual performance objectives and assessments were vaguely disclosed. On balance of these factors, a vote AGAINST this proposal is warranted.</i>					
4	Amend Certificate of Incorporation to Reflect New Delaware Law Provisions Regarding Officer Exculpation	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted, as the decisions regarding the company's response to shareholder litigation would be made by a board that lacks accountability to public shareholders.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: The pay-for-performance misalignment is underscored by concerns regarding STI goal rigor and disclosure, and by regular LTI goal rigor and overall equity award magnitude. The STIP target goals were set below prior year's achievement levels, without a commensurate reduction in target pay opportunity. Further, the company does not disclose specific individual performance goals/results. Additional concerns are raised regarding the magnitude of the CEO's equity awards, which propel his total pay to more than four times the median of CEO peers. While majority performance-based, the relative TSR metric targets merely median performance, and the size of the CEO's regular equity awards are relatively large, which is more concerning in the context of him receiving a large one-time award. In light of these issues, a vote AGAINST this proposal is not warranted.</i>

1c	Elect Director William J. Ruh	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST incumbent nominees Pierre Naude, Pamela (Pam) Kilday, and William Ruh is warranted for lack of diversity on the board. In the absence of governance committee members on ballot, a vote AGAINST incumbent director nominees Pierre Naude, Pamela (Pam) Kilday, and William Ruh is further warranted given the board's failure to remove, or subject to a sunset requirement, the classified board and supermajority vote requirement to enact certain changes to the governing documents, each of which adversely impacts shareholder rights.</i>				
2	Ratify Ernst & Young LLP as Auditors	Mgmt	For	For	For

	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. The STI program is entirely based on financial goals, and payouts were capped below target when a hurdle goal was not achieved. 2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. Pay programs were primarily performance-based with disclosed STI goals and PSUs utilize a multi-year performance period. However, the maximum goal for the most heavily-weighted STI metric was set below the prior year's actual performance without a corresponding pay reduction or rationale for the specific goal-setting, and the metric was achieved above target. Additionally, the proxy does not disclose any forward-looking LTI goals, the maximum PSU vesting opportunity is high and the CEO's equity grant value is relatively large, particularly in the context of negative three-year TSR.</i>				
3	Ratify KPMG LLP as Auditors	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST the ratification of the company's auditor is warranted given that non-audit fees represent 29.14 percent of the total fees received by the auditor during the fiscal year, raising substantial doubts over the independence of the auditor.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. In addition to ongoing concerns regarding STI and LTI goal disclosure, the company made significant one-time equity grants to two NEOs. These grants were, however, entirely performance-based and the design appears reasonably rigorous. Further, short-term incentives were primarily based on a pre-set, growth-based financial metric, and long-term incentives were entirely performance-conditioned with a multi-year measurement period. Lastly, CEO pay and company performance are reasonably aligned for the year in review.</i>

2	Approve Authorization to Increase Share Capital up to 70 percent of Authorized Capital by Various Means and Amend Article 7 of the Articles of Association	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR is warranted because: * The proposed capital authorization is specifically purposed to finance the company's updated Capex programme for the next five years (2024-2028); * The company has provided compelling background and planning on investments as part of its strategy update as explained on the capital markets day on Dec. 8, 2023; * The planned Capex expenditure is largely part of regulated development plans and as such subject to further regulatory approvals; * The company has also provided further details on expected returns (ROE of 7-8 percent) in the coming years, and market reaction to the updated capex programme was positive. However, this is not without some level of concern for the extensive time horizon on this specific capital authorization and that it might be done with exclusion of preemptive rights for up to 20 percent of current issued capital.</i>

13	Approve Remuneration Policy	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this item is warranted, but is not without concern: * The maximum LTIP award level will increase from 325% of salary to 400% of salary. The main reasons for support are: * The increased award level is supported by the increase in the Group's size and complexity, * The larger opportunity is not unreasonable against UK peers, and remains referenced against UK companies, as opposed to the typically higher-paying US market; * The LTIP is based mainly on financial performance, targets are quantifiable, and there are no recent concerns with the stretch of targets; * The increase is proposed against the backdrop of strong performance, making it more palatable; and * There are no overriding concerns in terms of the overall structure of the remuneration policy.</i>

NIPPON STEEL CORP.

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Voting Policy Rec	Vote Instruction
6	Amend Articles to Set and Disclose Greenhouse Gas Emission Reduction Targets Aligned with Goals of Paris Agreement	SH	Against	For	For
<p><i>Voting Policy Rationale: A vote FOR this shareholder proposal is recommended because: * The proponents have raised valid concerns regarding the company's disclosure and insufficiently aligned strategy with Paris goals. The company's 2030 and 2050 targets only cover scope 1 and 2 emissions, and additional gaps for its decarbonization strategy and lack of third-party assurance raises concern on reaching company goals of carbon neutrality by 2050. Target setting in connection with the company's efforts to reduce its carbon footprint and align operations with Paris Agreement goals would allow shareholders to better understand how the company is managing its transition to a low carbon economy and climate change-related risks.</i></p>					
7	Amend Articles to Introduce Executive Compensation System Linked to Greenhouse Gas Emission Reduction Target and Disclose How Compensation Policy Contributes to Achievement of the Target	SH	Against	For	For
<p><i>Voting Policy Rationale: A vote FOR this shareholder proposal is recommended because: * In spite of its leading role in Japan's steel industry and its influence on the global warming, NIPPON STEEL currently does not have executive compensation system in place, which explicitly factors in the company's environmental performance in determining compensation for executives.</i></p>					
8	Amend Articles to Report on Corporate Climate Lobbying	SH	Against	For	For
<p><i>Voting Policy Rationale: A vote FOR this shareholder proposal is recommended because: * The company provides insufficient information about its lobbying activities and how the company assesses its trade association partners' lobbying activities vis-a-vis Paris Agreement goals and steps it would take when significant misalignment is found. This information could help reduce the risk of the company supporting organizations at cross purposes to its goals.</i></p>

1.1	Elect Director Tokura, Masakazu	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this director nominee is warranted because: * Top management is responsible for the company's unfavorable ROE performance. * Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Given that the chair of the board ultimately shoulders the most responsibility amongst all board members for failing to effectively supervise the management of risks to the company and its shareholders, and should therefore be held the most accountable for poor board oversight of ESG risk exposures at the firm.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted because: * The company has not disclosed any short- and long-term E&S performance incentives; and * The company has not disclosed any risk mitigators, such as a clawback policy, CEO stock ownership guidelines, or stock holding period requirements. Additionally, a pay-for-performance misalignment exists for the year under consideration, and certain positive factors identified in annual incentive program do not sufficiently mitigate the misalignment. CEO McJannet's total compensation nearly doubled year-over-year due to a relatively large equity award that was entirely time-vesting and was not accompanied by a compelling rationale.</i>

<i>Voting Policy Rationale: A vote FOR this resolution is warranted because the company's remuneration report is broadly in line with market practice and no significant concerns were identified.</i>					
6	Approve Remuneration Policy	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The policy contains significant discretionary scope via special bonuses and sign-on payments for new executives. * The LTI is defined in vague terms and payouts are not subject to an explicit cap beyond the overall maximum remuneration cap.</i>

5	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST the proposal is warranted. Some positive features are noted in the short- and long-term programs: the STI is largely based on rigorous financial metrics, while a majority of the LTI program is in multi-year equity which also utilizes rigorous target goals. However, these positive features do not mitigate concerns regarding equity grant magnitude, which continues to increase. The company granted the CEO a second, larger "annual" equity grant at the end of FY24, intended to increase the annual equity grant value for the year. Additionally, performance equity moved away from a true multi-year performance period, with a portion now based on one-year goals. Lastly, one NEO continues to receive sizeable, guaranteed time-vested equity grants and cash bonus payments for multiple years in connection with a previous agreement with the company.</i>

2	Ratify Deloitte & Touche LLP as Auditors	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR this item is warranted because only 24.76 percent of the fees paid to the auditor are for non-audit purposes.</i>					
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. Though annual incentives were largely based on pre-set financial metrics and PSUs were introduced to the equity mix, concerns exist regarding the short- and long-term incentive programs. Committee considerations in determining the achievement of strategic objectives are not disclosed. Further, equity awards were predominantly time-based and PSUs were based on a one-year performance period with no disclosed goals. The value of the CEO's equity award was relatively large. In addition, high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels.</i>

3	Approve Updated Compensation Policy for the Directors and Officers of the Company	Mgmt	For	For	
	<i>Voting Policy Rationale: A vote FOR this item is warranted because the company discloses sufficient information and rationale on its amended compensation policy. However, qualified support is warranted because: * The amended cap on equity awards is substantially increased and raises some level of concern. The proposal entails a 33 percent increase to the maximum cap of up to ca. USD 26 million in annual RSU grants. * The potential of a USD 26 million RSU grants is substantially above market. Although median value of LTI grants of company-selected peers approximates USD 20 million, we note that median LTI grant value of ISS-selected peers for the company-selected peers is ca. USD 10 million. However, these concerns are somewhat mitigated by: * The proposal entails a theoretical cap whereas actual company practice is not concerning with a ca. USD 8 million annual grant value, being aligned with common market practice; * Any RSU grant to the CEO is subject to separate shareholder approval and hence the maximum cap is symbolic and shareholders can separately assess the merits of the separate RSU grants; and * We acknowledge the company is in the market for a new CEO.</i>				
4	Approve CEO Equity Award	Mgmt	For	Against	
	<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The company failed to disclose sufficient information regarding the value of the CEO's proposed compensation, preventing shareholders to assess the level of the payout opportunity; * The proposed vesting period is shorter in duration than the recommended guidelines and the possibility to accelerate the vesting within a short period is not in line with the pay-for-performance principle and Israeli market practice; * Despite the CEO's impending departure within the following year and the short vesting period of the equity awards, the terms provide only limited guidance on the performance criteria used to determine the PSUs, thus leaving excessive room for board discretion and preventing shareholder to assess the rigor of the plan.</i>

2	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR the remuneration report is warranted although this is not concern without because: * Pay within the sector as a whole is controversial , given the focus on river pollution. In Severn Trent's case, a GBP 2 million fine was imposed this year, due to a pollution incident in 2019-2020, with reputational consequences. However, the issues besetting the Company are not unique to it. In fact, Severn Trent is the only company in the sector to consistently attain 4 star EA status. There have been no serious pollution incidents during the year, and the proportion of pay geared towards river health has increased, with the occurrence of a serious pollution incident serving as an underpin to automatically reduce outcomes, going forward. See Material Company Updates for further context.</i>

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. While the LTIP's relative TSR metric only targets median performance, the metric now has a payout cap at target if absolute TSR is negative. Further, equity awards are now half performance-conditioned and based on two quantifiable metrics measured over a multi-year period. Annual incentives remain based on pre-set and objective financial metrics.</i>

7	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concern because: * The EPS targets linked to the LTIP awards that vested during the year were adjusted upwards, resulting in the payout of this element, which would otherwise be nil. The main reasons for support are: * The adjustment was made to reflect the increased corporation tax rate, ensuring performance targets remain on a like-for-like basis. * Pay outcomes are congruent with the Company's overall performance.</i>				
8	Approve Remuneration Policy	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concerns because: * The Company is proposing to increase the maximum bonus and LTIP opportunities, adding an additional 50% of salary to each. Taken together, an additional 1x salary to the variable package is considerable. The revised bonus award level, in particular, is quite high for a company of this size and in this sector. The main reasons for support are: * The revised total pay package remains around the median of FTSE 100 UK retailers, and the new LTIP limit is not considered out of line. There is also no immediate intention to use the headroom for the CFO. The general remuneration framework adheres to current UK market norms.</i>

	<i>Voting Policy Rationale: Vote AGAINST incumbent nominating committee members Glenn Stevens, Rebecca McGrath, and Michael (Mike) Roche for lack of diversity on the board.</i>				
3	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A qualified vote FOR the remuneration report is warranted. * Executive remuneration outcomes were lower in FY24, in line with the decrease in financial results. * The total profit share paid to current KMP executives was \$80.2 million, down 46 percent from FY23 (compared to a 22 percent increase from FY22 to FY23). * The CEO's awarded profit share was \$23.7 million (of which \$16.6 million is retained), down 26 percent on the prior year. * Upon resignation of the former Head of CGM disclosure indicates that all unvested retained profit share and PSUs were forfeited, noting that the value of the retained profit share is approximately \$123.0 million. The qualification is to highlight persisting concerns regarding the following: * Quantitative Pay for Performance analysis continues to indicate a high degree of concern for misalignment of pay, performance and shareholder outcomes. * There is continued absence of any disclosure of pre-set target and maximum incentive opportunities, metric weightings, and transparent pre-set threshold, target and maximum goals. * Individual profit share award determinations and by extension, a majority of executive remuneration outcomes, while having some regard to financial and non-financial factors, are discretionary. * Despite the decrease in the CEO's FY24 profit share allocation, her total remuneration remains excessive when compared to the top 25 Australian companies and certain selected local market industry peers, and when compared to the company's global selected peer group.</i>				
4	Approve Participation of Shemara Wikramanayake in the Macquarie Group Employee Retained Equity Plan	Mgmt	For	For	For
	<i>Voting Policy Rationale: A qualified vote FOR this resolution is warranted, primarily on the basis that the structure and quantum of the PSUs are sufficiently consistent with the local market and improved shareholder interests. The deferral of the RSUs and the PSUs are consistent with local market regulatory requirements and shareholder expectations noting the significant quantum of total CEO and executive remuneration, with a five-year deferral period for RSUs and a four-year performance period for the PSUs (plus a one-year holding lock for the CEO from FY24). This is combined with two unchanged financial performance measures - relative ROE and EPS CAGR, and malus provisions. Concerns that justify the qualified nature of the vote recommendation include * The high quantum of the RSU awards, which are well in excess of similar sized companies in the ASX 1-25 and a local market industry peer group, as well as certain global financial institution peers cited by the company, and * The false choice, that if the resolution is not passed by shareholders, the company will consider an alternative form of payment.</i>

1	Elect Annie Steel as Director	Mgmt	For	For	For
	<i>Voting Policy Rationale: Items 1 and 2 A vote FOR the election of Independent Non-Executive Directors Annie Steel and Hayley Buckley is warranted. Their presence supports the continued composition of a majority-independent board structure, and there are no corporate governance concerns identified in relation to their candidacy as directors. Item 3 A qualified vote FOR the re-election of Bruce Plested is warranted. The qualification is to highlight that he is the chairman the remuneration committee and governance concerns regarding transparency of remuneration disclosure are observed, specifically in regard to the lagging disclosure of bonuses which appears discretionary, the absence of information of any specific KPIs on which the bonus was based, and the Managing Director's significant fixed remuneration compared to similar sized companies.</i>

<p><i>Voting Policy Rationale: Vote FOR this non-binding advisory resolution at this time. The quantitative pay-for-performance screen has identified a high concern, driven by the company's relative degree of pay-and-performance alignment (RDA). The high RDA score is driven by the large option award to the now former CEO in 2022. For fiscal 2024, the reappointed founder/CEO did not receive any grants for annual long-term incentive compensation. He voluntarily assumed a base salary of \$1 to help facilitate the company's long term profitable growth strategy. Given the nominal compensation, the pay-for-performance concern level is low at this stage. In addition, the founder/CEO is a significant shareholder, and his long-term interests in the company seem to be in alignment with those of long-term shareholders. As such, a vote FOR the say-on-pay resolution is warranted.</i></p>

	<i>Voting Policy Rationale: A vote FOR this item is warranted, but is not without concern for shareholders: * The policy incorporates changes to the proportion of fixed and variable remuneration, in light of new regulations. While fixed pay is reduced, bonus and LTI awards as % of fixed pay are increased. * The Remuneration Committee has discretion to increase time pro-ratio on outstanding share awards in good leaver scenarios. The main reasons for support are: * The impact of the changes to total pay quantum is minimised. * The default treatment is for outstanding awards to be pro-rated to time served.</i>

Large fees paid for such work may undermine NED independence. The main reasons for support are: * Similar proposals have been approved previously, and there is no evidence of the NEDs having provided consultancy work at a level which would potentially impact their independence in previous years. * The overall level and structure of NED fees do not appear excessive for a bank of this size.</i>

3	Approve Remuneration Report	Mgmt	For	Against	Against
	<p><i>Voting Policy Rationale: A vote AGAINST is warranted because: * The quantum of total pay package remains high, particularly the vested value of LTI awards with a portion not subject to performance conditions. * The exit arrangement with former CEO Bob van Dijk is in deviation of market practice, particularly as his pay package continued for 6 months post-mandate under an advisory capacity, including STI and LTI. * The SAR plan is not sufficiently transparent and share options are not tied to separate performance conditions. * The quantum of the overall realized package for FY 2023/2024 is considered excessive (USD 19.9 million) and represents 12.8x lead executive peer median pay package. * A substantial part of the LTI awards vest before the third anniversary in deviation of best practice recommendations. * The quantum of discount linked short term incentive awarded is considered excessive. The CEO received a USD 3.4 million bonus for reducing the perceived valuation discount to NAV, but which appears to be mainly resolved by selling off Tencent shares and repurchasing company stock, without it necessarily being linked to company performance.</i></p>

	<p><i>Voting Policy Rationale: A vote FOR is warranted because of the absence of concern with the company's audit procedures or its auditors.</i></p>				
5	Approve Allocation of Income	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A vote FOR the allocation of income proposal is warranted. Although the company proposes to grant less than 30 percent of the earnings per share, the company gives adequate explanation why this is consistent with the company's dividend policy. Furthermore, the proposed capital repayments should be considered in the context of the company's updated capital return policy and no particular concerns were identified.</i></p>				
6	Approve Discharge of Executive Directors	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A vote FOR the discharge of executive directors is warranted because of the absence of any information about significant and compelling controversies that the board is not fulfilling its fiduciary duties. A vote AGAINST the discharge of the non-executive directors is warranted as an accountability measures in light of the company's unequal voting structure. 8	Approve Remuneration Policy	Mgmt	For	Against	Against
	<p><i>Voting Policy Rationale: A vote AGAINST is warranted because: * The proposed policy remains largely unchanged and continued concern is raised with the design of the policy and the lack of responsiveness to address concerns raised by shareholders; * Although one of the amendments aims to remove discretion under the STI, the board continues to use its discretion under the LTI scheme (moonshot bonus of USD 100 million granted for incoming CEO). * It is proposed to remove the shareholding requirements for the CEO, without the company giving a compelling justification. * Continued concerns relate the (i) high quantum of the total pay package and considered to be excessive (total value of entire package for entire appointment term is valued at ca. USD 163 million), (ii) significant proportion of long-term incentives that are not performance-related, (iii) absence of clear award levels under the LTI, and (iv) a substantial portion of the LTI vests before the third anniversary and start vesting after the first anniversary of the grant.</i></p>				
9	Approve Remuneration of Non-Executive Directors	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A qualified vote FOR is warranted in the absence of major concerns regarding the proposed fees and the fees are not increased in this year. However, this is not without noting that the fees are relatively high.</i></p>

2	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR the remuneration report is considered warranted, although it is not without concerns for shareholders: * Shareholders may reasonably question whether the significant increase in LTIP award opportunity for FY2025 has been met by a commensurate increase in the stretch of performance targets. * The bonus opportunities for both EDs are being materially increased for FY2025, primarily driven by benchmarking. * The NED fee levels have been increased at a rate above the workforce's average increase, and no explanation has been provided by the Company in the meeting materials. The main reasons for support are: * Concerns with the LTIP are reflected in the vote recommendation attributed to the remuneration policy resolution. * The increased bonus maximums continue to fall within the approved policy limit. * The resulting NED fee levels are not considered out of line with Company peers.</i>

	<i>Voting Policy Rationale: A vote FOR this transaction is warranted. Although the offer represents a discount to the stock's one-year high, the unaffected price appears to be a more appropriate anchor for value than the stock's historical trade range, and there has been no public opposition to the proposed deal terms. Further, the value of the merger consideration represents a premium to the unaffected price, the cash form of consideration provides liquidity and certainty of value, and there is potential downside risk of non-approval.</i>

4	Advisory Vote on Executive Compensation Approach	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this non-binding advisory resolution is warranted. In the prior three years, the company received 78 percent, 45 percent and 29.5 percent shareholder support for its say-on-pay proposals at its 2021 AGM, 2022 AGM and 2023 AGM, respectively. The CEO did not receive any special one-time awards in Fiscal 2024 and CEO's total pay decreased by 37 percent compared to Fiscal 2023 and 7 percent compared to Fiscal 2022. However, the quantitative pay-for-performance screen has continued to identify a high concern. Excluding Fiscal 2023's special bonus and one-time performance stock options, CEO total compensation increased slightly by 5 percent year over year. The company's TSR underperformed its 4-digit GICS peer group median and the S&P/TSX Composite Index on a one-year and five-year basis. The company has significantly underperformed its self-disclosed peer group on a one-, three-, and five-year timeframe, while the CEO's 2024 compensation appears to be near the peer median. The company has failed its say-on-pay vote two years in a row. While the company has engaged with its shareholders since the last AGM and made some positive changes to CEO pay to address certain shareholder concerns over CEO compensation design, the CEO pay-for-performance misalignment continues to exist compared to its self-disclosed peers as well as Social Advisory Services Canadian peers. As such, shareholders are advised to vote AGAINST the say-on-pay resolution.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: The compensation committee demonstrated sufficient responsiveness to last year's low say-on-pay vote. However, a vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. Concerns are raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels. Furthermore, while the STI and LTI programs were based primarily on clearly disclosed objective goals, and the company made certain commitments and structural improvements in response to shareholder feedback, concerns are raised surrounding off-cycle awards provided to the CEO and CFO. FY24 marks the second consecutive year in which off-cycle awards were granted to these executives and neither forward-looking goals nor metric weightings are disclosed in the proxy.</i>

3	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR the remuneration report is considered warranted, although it is not without concern because: * The Company has given its EDs substantial salary increases between 11.7% to 19.5%. The main reason for support is: * The salary increases and the increased headroom to the normal PSP opportunity would bring the EDs' total remuneration opportunities between the lower quartile and median versus the Company's peer group. Given the Company's positioning in the mid-FTSE 100 this is not considered egregious. * It is noted that the Company has a recent history of below workforce salary increases for its EDs, with no evidence of regular benchmarking exercises. * Variable pay opportunities, taking account of the amplified PSP opportunity, are not excessive and have not been regularly increased.</i>

1.3	Elect Director KR Sridhar	Mgmt	For	Withhold	Withhold
	<i>Voting Policy Rationale: WITHHOLD votes are warranted for incumbent nominees Thomas Siebel and K. R. Sridhar for lack of diversity on the board. WITHHOLD votes are further warranted for director nominees Thomas Siebel and K. R. Sridhar given the board's failure to remove, or subject to a sunset requirement, the classified board, the supermajority vote requirement to enact certain changes to the governing documents, and the multi-class capital structure, each of which adversely impacts shareholder rights. WITHHOLD votes are also warranted for Thomas Siebel as his ownership of the supervoting shares provides him with voting power control of the company. Votes FOR the remaining director nominee, Alan Murray, are warranted.</i>

5	Approve Increase in Non-Executive Director Fee Pool	Mgmt	None	For	For
<p><i>Voting Policy Rationale: A vote FOR the increase in the non-executive director fee pool is warranted. The company disclosed that the rationale for the proposed increase is to provide the necessary flexibility to continue to facilitate board renewal and board and committee composition changes in an orderly manner. There does not appear to be sufficient headroom to appoint an additional director under the current fee pool. Some concerns are raised for the level of Chair and director fees paid in FY24, noting that they continue to be in excess of the median of similar-sized companies in the ASX 26-50 peer group. In mitigating concerns somewhat, there are no proposed changes to board fees in FY25.</i></p>					
6	Approve Renewal of Proportional Takeover Provisions in the Constitution	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A vote FOR this resolution is warranted on the basis that the passing of this resolution will ensure that shareholders will have an ability to vote to accept or reject a proportional takeover bid. This is superior to any potential disadvantages that may arise from such a constitutional inclusion.</i></p>					
7	Approve Remuneration Report	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A vote FOR the remuneration report is warranted. There is a low concern for misalignment in quantitative pay for performance analysis. There was no fixed remuneration increase to the CEO, STI bonuses appear to be aligned with performance, successive years of share price appreciation and the sale of the Bank business to ANZ, and LTI vesting was not subject to additional board discretion.</i></p>					
8	Approve Grant of Performance Rights to Steven Johnston	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A qualified vote FOR the FY25 LTI grant is warranted. * The company has increased the performance period to four years, being consistent with better market practice and other APRA-regulated entities; * There is a 70 percent majority weighting to relative TSR, being sufficiently aligned with shareholder outcomes and market practice; and * The remaining 30 percent of the LTI is based on non-financial measures as required by APRA Prudential Standard CPS 511, with increased deferral of vesting out to six years (equally over years four, five, and six). The qualification is to highlight concern and potential misalignment with shareholders. There is a 30 percent weighting to a "customer satisfaction" measure and "trust and reputation" measure which are not considered to be well aligned with non-financial targets which more closely related to risk and prudential matters being the subject of APRA's oversight, or in addressing the issues and risks identified in the 2018 Royal Commission.</i></p>

However, the proposed base salary for Tom Adams is 44.93 higher than the current CTO and is granted a sign-on bonus without the company providing any compelling rationale nor how the size of the bonus has been determined and whether it is in line with the value of forfeited awards at previous employer. <p><i>Voting Policy Rationale: A vote FOR this resolution is warranted. * No material misalignment is observed between pay, performance and shareholder outcomes for the period under review. * There were no STI bonuses for FY24. * The LTI is in line with shareholder interests and nil LTI vesting in FY24 is sufficiently aligned with weak company and shareholder outcomes. The primary concern is for re-testing of the LTI being materially inconsistent with accepted market practice. The July 2021 LTI did not meet the minimum threshold performance and is now in the 12-month re-test period.</i></p>

<p><i>Voting Policy Rationale: Items 1 and 3 A qualified vote FOR the re-election of Independent Non-Executive Directors Mark Cairns and Fiona Oliver is warranted. The qualification is to highlight that they are members of Freightways' remuneration committee and problematic pay practices are observed. The re-election of Mr Cairns is also qualified to highlight that he is the board chair and the company failed to meet the NZX Code requirement to lodge its notice of meeting at least 20 working days prior to the AGM. This matter represents inconsistency with many NZX-listed entities and shareholders' corporate governance expectations. Item 2 A vote FOR the re-election of Abigail Foote is warranted. This is mitigated by the fact that as this election is proposed during an EGM which is held between the 2024 and 2025 AGMs, it is common practice in Netherlands to start counting the term of the nominee as of the next AGM, which is the 2025 AGM.</i>

3	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A qualified vote FOR the remuneration report is warranted. * STI bonuses appear sufficiently aligned with the company's FY24 performance, and LTI vesting is in line with shareholder-approved performance targets. * The company introduced changes to the ROIC performance metric for LTI grants from FY24 onwards which are now better aligned with accepted market practice, and the company has returned to disclosing the specific and quantified targets of the financial measures in the STI. The key concerns to be highlighted include: * The quantum of the CEO's full year total remuneration is well above Australian market medians and leading to a high concern in quantitative pay for performance analysis. * The STI bonus continues to be subject to achievement of non-financial performance measures representing 40 percent of the STI scorecard, with many of these objectives appearing to be 'day job' responsibilities of executives. * The granting of excessive sign-on bonuses to new senior executives persists and erodes the value of STIs and LTIs if they are so readily replaced with sign-on payments from a new employer. * The Chairman's fees remain well above market median.</i>				
4	Approve Grant of Performance Share Units to Paul McKenzie	Mgmt	For	For	For
	<i>Voting Policy Rationale: A qualified vote FOR the grant of PSUs to the CEO is warranted. Apart from the introduction of a one-year holding lock, the structure of the grant is essentially the same as in the prior year with ROIC and EPS growth targets over a three year performance period. The qualification is raised to highlight the following persisting concerns: * The quantum of the CEO's FY25 LTI grant is excessive, given it is well above the median of both Australian market capitalisation (ASX1-25) and industry peers, being 3.3x and 4.4x the median, respectively. * The EPS growth and ROIC performance hurdles being set a less challenging levels compared to the prior year: * EPS growth: threshold level commences at a growth rate of 12.4 percent p.a. (FY24: 15.6 percent) and maximum vesting at a targeted growth rate of 13.8 percent p.a. or above (FY24: 17.3 percent). * ROIC: maximum vesting at 12.3 percent average ROIC (previous grant was 12.8 percent) * A three-year performance period may be considered by shareholders as inferior to similar-sized companies in the ASX 1-25 peer group.</i>

2	Approve Remuneration Report	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A vote FOR the remuneration report is warranted. Support is in the basis of the following: * No fixed pay increases for the outgoing CEO in FY24; * STI bonuses were well below maximum reflecting the company's financial performance and external scrutiny on the company, and there was no LTI vesting; and * In response to the 'first strike', the company has made appropriate changes to how Safety performance is assessed. Concerns are raised to highlight the following: * A high level of concern for misalignment is identified in the quantitative Pay for Performance analysis – this is mitigated by the nil LTI vesting in FY24 and lower levels of LTI vesting in two prior years. * Given the significant public and political scrutiny on the company as well as the ACCC legal action, shareholders may rightly expect for further adjustments to FY24 STI bonuses to be made once the outcomes of the legal action and regulatory findings are known. * The emphasis on non-financial measures in the STI scorecard continues to be overly high. * The structure of the FY24 and FY25 LTI grants continue to be inconsistent with best market practice given the inclusion of the non-financial performance measure regarding reputation. Shareholders may see reputation metrics in incentive plans as fundamentally impacting the entire business, and more appropriately used as a "gateway" to the payment of substantial STI and LTI bonuses.</i></p>				
3a	Elect Maxine Brenner as Director	Mgmt	For	Against	Against
	<p><i>Voting Policy Rationale: A vote AGAINST incumbent nominating committee members Maxine Brenner and Philip (Phil) Chronican is warranted for lack of diversity on the board. A vote AGAINST the re-election of Maxine Brenner is further warranted on the basis of corporate governance concerns being identified at Qantas Airways Limited through an independent Corporate Governance Review, and Ms Brenner served as a long-standing director.</i></p>

4	Approve Grant of Performance Share Rights to Amanda Bardwell	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A qualified vote FOR the grant of rights to the CEO is warranted. While the award structure is broadly consistent with prior year grants (including relative TSR, ROFE and "Reputation" performance measures over a 3-year performance period) and has been pro-rated for the periods served as CEO Elect and CEO in FY25, concerns that warrant qualification and ongoing scrutiny including: * Provision for dividends on unvested shareholders, * Performance targets for the two internal performance measures representing 60 percent of the award are not disclosed and lack transparency, * The relative TSR performance measure does not have a positive TSR gateway to ensure bonuses are aligned with a positive return to shareholders, * The non-financial Reputation performance measure may be problematic and result in misalignment with performance and shareholder returns, and * A three-year performance period is now considered inferior when compared with other large-listed companies in the ASX100.</i></p>				
5	Approve Conditional Spill Resolution	Mgmt	Against	Against	Against
	<p><i>Voting Policy Rationale: A vote AGAINST the spill resolution is warranted. A spill of the entire board is presently not considered to be in the best interests of investors. The company has addressed shareholder concerns and made appropriate changes to how Safety performance is assessed in FY24, with additional changes forecast for FY25. In addition, the board will consider whether any further adjustment to FY23 STI outcomes is appropriate once all relevant regulatory investigations are complete. Some shareholders may have regard for the significant public and political scrutiny on the company as well as the ACCC legal action which alleges that the company breached Australian Consumer Law, and may choose to hold directors accountable once the results of these findings are determined.</i></p>

6a	Approve the Amendments to the Company's Constitution	SH	Against	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this resolution is warranted, as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals. The Board has confirmed its willingness to consult with the shareholder proponents with a view to addressing shareholder requirements, and to disclose the proxy's at the AGM and publicly discuss the resolutions at the AGM.</i>				
6b	Approve Farmed Seafood Reporting	SH	Against	For	For
	<i>Voting Policy Rationale: A vote FOR the approval of Farmed Salmon Reporting is warranted. The requested reporting on the impacts of farmed seafood the company procures for its Own Brand products on endangered species, at reasonable cost and omitting confidential information does not appear to be unreasonable, excessively onerous, and is in-line with the company's own sustainability reporting practices. There is no reference in the 2024 Sustainability Report to salmon production in Macquarie Harbour, which may indicate an additional uplift in the company's disclosure is required as contemplated by this resolution. Some shareholders may also have regard to the shareholder proponents' assertion that the company is ranked the worst of Australia's 20 largest food companies on assessing and disclosing nature risk, and that additional reporting on its farmed salmon supply chain may be reasonable at this time.</i>				
6c	Approve Farmed Salmon Sourcing	SH	Against	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST his resolution warranted. The request of the shareholder proponents for the company to cease procuring farmed salmon from Macquarie Harbour in Tasmania by no later than 30 April 2025 appears to be overly prescriptive at this time.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A vote FOR this proposal is warranted. A pay-for-performance misalignment exists for the year in review, though mitigating factors have been identified. The CEO's total pay decreased year-over-year. Short-term incentives were based entirely on financial metrics, and the CEO did not receive an annual incentive payout for the year in review. Further, equity awards are half-performance-conditioned and relative TSR targets above-median performance, though continued monitoring is warranted, as above-target vesting occurred for the relative TSR PSUs despite what appears to be negative absolute TSR performance over that same time period.</i></p>

9	Approve Compensation of Alexandre Ricard, Chairman and CEO	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A vote FOR this remuneration report is warranted, although the following concerns are raised: * The bonus structure allows a compensation effect between criteria at max level. * As in past years, it remains difficult to ascertain that non-financial criteria are stringent enough without the disclosure of a full vesting scale. * The performance criteria attached to the granted LTI awards are not considered stringent enough. * The level of disclosure under the LTI instruments may be considered as misleading. The main reasons for support are: * The risk of compensation effect between bonus' criteria did not materialize this year. * The 2024/2025 remuneration policy will amend the vesting scale under the LTI's relative TSR criterion, deleting the possible vesting below median. * The absence of any other significant concern.</i></p>

	<p><i>Voting Policy Rationale: A vote AGAINST this remuneration policy is warranted, despite the removal of compensation effects in the bonus structure and the strengthening of the relative TSR and CSR criteria attached to the LTI plan, because: * The company provides no disclosure as to how the LTI grant will be adjusted within the new cap during the mandate, conveying the impression that it is reviewable every year at the sole board discretion and that systematic grant at cap level could become the rule after the current FY. * The company does not specify where the executive's global remuneration package would rank compared to peers, following the approval of such increase by the AGM. * The PRO-relative condition under the LTI plan remains not stringent enough as its vesting would start below budget; and * The policy enables exceptional remunerations without specifying a cap for such payments.</i></p>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. While total CEO pay declined for the year in review, certain structural concerns were identified in the pay program. Specifically, there are ongoing concerns surrounding high base salaries and relatively large payout opportunities. Additionally, the majority of annual equity awards granted to NEOs continue to lack performance-vesting criteria. Finally, concerns are noted surrounding the limited disclosure of quantified performance targets for a portion of the CEO's annual incentive that was at risk. In light of these concerns, the quantitative pay-for-performance misalignment is not mitigated. Finally, concerns are raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST the proposal is warranted. While CEO pay and company performance were reasonably aligned for the year in review, there are concerns noted within the pay program. Most notably, annual equity grants to certain NEOs do not utilize performance-conditioned equity, which is inconsistent with prevailing market practices as well as contrary to recent shareholder feedback. Additionally, though disclosure surrounding security fees to Chairman Ellison improved in FY24, continued monitoring is warranted, as the value of this perquisite remains outsized.</i></p>

2	Approve the Increase in Maximum Aggregate Remuneration of Directors	Mgmt	For	For	For
<i>Voting Policy Rationale: A qualified vote FOR the proposed increase in the maximum aggregate remuneration of non-executive directors is warranted: * Disclosure indicates that the proposed increase in the NED fee cap is primarily intended to provide the board with sufficient flexibility to remunerate directors for any additional committee fees or ad-hoc SKY Network responsibilities. * There is no proposed increase in individual director fees other than the chair fee. * The NED fee pool has not been increased since October 2015. The proposed change in fee pool presents modest year-on-year increase of approximately 2 percent since that period. * The proposed increase in directors' fee pool is reasonable and not inconsistent with the company's financial performance over the year. The qualification is to highlight that the proposed increase to the chairman and NED's fees will move them to materially exceed the average of market capitalisation peers. Some shareholders may wish to engage with the company in this regard.</i>

<p><i>Voting Policy Rationale: A qualified vote FOR this proposal is warranted. The increase in fee cap of \$200,000 is reasonable and director fees are comparable to the median at market capitalisation peers. The qualification relates to the following: * The company did not specify whether the increase is necessary for any additional board appointments; * There appears to be sufficient headroom available for increases to board/committee fees; and * Increases to director fees were relatively large in FY22 and FY23.</i></p>

<p><i>Voting Policy Rationale: A qualified vote FOR the grant of performance rights and restricted rights to the CEO is warranted. The terms and conditions of the performance rights are sufficiently consistent with the prior years' grants and shareholder interests. Concerns that warrant the qualification include: * Quantum is relatively high; * Granting half the award in restricted rights with ongoing tenure conditions is not well aligned with better market practice. The mitigating feature is that a positive TSR gateway will ensure a degree of alignment with shareholder returns, such that this is not just a completely service-based award. * Provision of dividend equalization payment for vested rights is inconsistent with good governance where there is no entitlement to dividends until the award has been achieved on vesting.</i></p>

<p><i>Voting Policy Rationale: A qualified vote FOR the proposed grant of performance rights to the CEO David Bortolussi is warranted. * No material concerns are identified regarding the grant, which is consistent with shareholder interests; * There is a three-year performance period which is at the minimum accepted for companies in the local market; and * No retesting is allowed. The qualification is raised to highlight concerns that the grant uses absolute performance targets only. There is currently no hurdle linked to outperformance relative to peers for the LTI, which raises the possibility that executives are rewarded for factors resulting from market movements.</i></p>

Voting Policy Rationale: A vote FOR this proposal is warranted as the underlying board rationale appears reasonable and shareholder rights would not be materially diminished as a result of the Swiss tax residency.

1	Approve Plan of Arrangement (Reorganization)	Mgmt	For	Against	Against

Voting Policy Rationale: Vote AGAINST this resolution. While the strategic rationale makes sense and shareholders will retain ownership in an economically equivalent security, the proposed articles of New Corporation contain a number of provisions offside Canadian market best practices. Importantly, the New Corporation articles have an amended quorum requirement for shareholders' meetings such that Brookfield (as a holder of both Class A and Class B shares) may constitute a quorum for shareholders' meetings with votes that do not require a separate vote by a class or series. On balance, given the foregoing governance considerations, this resolution is not supportable.

	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although the STIP had rigorous goals based on two financial metrics, concerns remain regarding the LTIP. The majority of PSUs in the LTIP are still based on a one-year performance period and the newly introduced relative TSR metric targets only median performance. Additionally, compelling rationale was not identified regarding the CEO's outsized annual equity award, especially considering that the company's TSR was negative and significantly underperformed during the year in review.</i>

Voting Policy Rationale: A vote FOR this proposal is warranted. Although pay-and-performance were misaligned for the year in review, concerns are sufficiently mitigated for the year. Annual incentives are largely based on objective financial metrics, and below-target payout was commensurate with financial performance. Further, the LTI are majority performance-based with relative TSR targeting outperformance, and prior-cycle PSUs paid out below target consistent with share price performance. Nevertheless, continued monitoring of pay outcomes and award opportunities is warranted.

D'Ieteren Group

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Voting Policy Rec	Vote Instruction
	<p><i>Voting Policy Rationale: A vote AGAINST is warranted because: * The proposed exceptional dividend is not supported by a compelling strategic rationale for the company, particularly in light of the substantial increase in debt and consequently adjusted risk profile of the company. * The dividend and related (opportunity) costs appear particularly designed to enable an intra-family shareholding transaction, whereby the D'Ieteren family holding is consolidated into one family branch, without there being clear and obvious benefits for all shareholders. * Significant concerns are raised with regard to the changing leverage profile of D'Ieteren and subsidiary Belron, without there being a clear investment case to leverage up and diminish investment opportunities on the short to medium term for D'Ieteren. * The negative market reaction (one-day minus 6.9 percent and by 12.21 percent as per Nov. 15, 2024).</i></p>

3.2	Approve Change-of-Control Clause Re: Potential Transfer of Pledged Assets	Mgmt	For	Against	Against
	<p><i>Voting Policy Rationale: A vote AGAINST is warranted because the proposed resolution is to approve change-of-control provisions that includes the pledging of company's assets under financing agreement that aim to finance the extraordinary dividend of EUR 74.00 per share (see Item 1), which does not warrant shareholder support. The extraordinary dividend appears designed for the purpose of financing an intra-family transaction in D'Ieteren shares whereas shareholders are faced with the related financing costs, riskier leverage profile, and reduced investment capacity.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted as pay and performance are aligned for the year in review. Annual incentives were primarily based on objective criteria and the CEO's long-term awards were entirely performance-conditioned. The cash incentive payout was reduced at the CEO's request this year. However, the CEO's base salary and STI payout opportunities remained relatively large and long-term incentives rely primarily on annual performance periods.</i>

4	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: Some pay program concerns warrant continued monitoring, including the value of the CEO's annual equity grant and LTI structure, though pay and performance are reasonably aligned for the year in review. Nevertheless, a vote AGAINST the proposal is warranted due to the compensation committee's limited responsiveness to last year's failed say-on-pay vote result. The committee made certain pay program improvements in response to shareholder concerns, including a reduction in perquisites and the maximum LTI vesting opportunity, improved STI disclosure, and a firmer commitment regarding one-time awards. However, it is unclear whether the reduction in the maximum LTI vesting opportunity adequately addresses expressed concerns, as the new maximum remains a significant outlier. Further, it is unclear whether the committee adequately addressed concerns surrounding "certain components of CEO compensation" considered too high, in part due to vague disclosure regarding this point of feedback.</i></p>

	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although concerns regarding the CEO's sizeable cash retention bonus are partially mitigated due to the legacy nature of the agreement and the reasonable annualized value of the award and that pay programs are entirely performance-based, significant concerns are noted regarding the structure and disclosure of pay programs. Specifically, an NEO received an outsized bonus payment without compelling rationale and target goals and results tied to the bonus were not disclosed. In addition, the LTI program is designed such that all above-target vesting is based on one-year performance periods and there continues to be a lack of clear disclosure regarding prior equity grant payouts. Furthermore, a vote AGAINST to this proposal is further warranted as the company has not disclosed any short- and long-term E&S performance incentives and the company maintains an auto-accelerated equity vesting change-in-control provision.</i>

	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. In the context of a quantitative pay-for-performance misalignment, significant concerns are raised regarding a sizable one-time retention grant to the CEO as well as ongoing structural and design concerns surrounding incentive programs. Although the CEO's retention grant is entirely performance-based, disclosure of certain goal targets is lacking. Large magnitude special awards with significant upside potential are expected to be accompanied by transparent and robust disclosure surrounding goals. In addition, although the annual incentive program is substantially tied to pre-set objective metrics, disclosure of goal targets and actual performance for the financial goals continues to be lacking. Further, two-thirds of the PRSUs under the annual LTI program may be earned based on relatively short-term TSR goals, the targets for which are not considered particularly rigorous at merely median performance, and the company does not disclose a cap on payouts if absolute TSR is negative.</i>

2	Approve Remuneration Report	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A qualified vote FOR the remuneration report is warranted. Quantitative Pay for Performance analysis indicates a low degree of concern. * The new CEO's fixed pay is in line with the CEOs of the other 'Big Four' banks. * FY24 STI bonuses are lower year-on-year in line with financial results. * Vesting of the FY19 LTI grant at maximum is aligned with shareholder returns over the performance period. The qualification is raised to highlight the following inconsistencies with accepted market practice: * A grant of a 'one-off' equity incentive to the Group Executive, Technology & Enterprise was made in addition to substantial STI and LTI opportunities, resulting in his total LTI equity grant in FY24 being excessive and significantly above the quantum of LTI grants to 'Big Four' Bank CEOs. * STI deferral has been reduced to 40 percent, being materially inconsistent with practices and expectations for companies in the ASX20 and other large APRA-regulated entities. * The LTEA rights comprising 50 percent of the total LTI grant involve significant and sole board discretion in the determining achievement and a commensurate high probability of vesting. This appears somewhat inferior to peers such as Westpac and ANZ which provide some quantitative performance measures for equivalent awards. The company's practices are inferior in the lack of specificity.</i></p>				
3a	Approve Grant of Deferred Rights to Andrew Irvine	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A qualified vote FOR the grant of deferred rights to the CEO is warranted. This represents deferral of the FY24 Annual VR (STI) Award. The qualification is to highlight the reduction of the deferral requirement to 40 percent. Despite the company's attestation that the changes were made to meet CPS 511, the company's STI deferral practices are inconsistent with accepted market practice and the other Big 4 banks, financial and large insurers which are also regulated by APRA. The market standard amongst these companies remains at 50 percent for STI deferral and NAB is now materially inconsistent with this level.</i></p>				
3b	Approve Grant of Performance Rights to Andrew Irvine	Mgmt	For	For	For
	<p><i>Voting Policy Rationale: A qualified vote FOR the grant of FY25 LTI (LTVR & LTEA) performance rights is warranted. The LTVR for 50 percent of the LTI has a relative TSR performance measure over a four-year performance period with increased deferral. The following concerns are highlighted regarding the LTEA which represents the remaining 50 percent portion of the LTI: * The continued inclusion of non-financial measures, to meet the requirements of CPS 511, with a significant 50 percent weighting of the LTI may result in misalignment of remuneration with shareholder returns. * The LTEA rights involve a significant and potentially excessive board discretion in the determination of vesting based on an assessment of risk culture that lacks sufficient transparency. * The qualitative assessment by the board of 'risk expectations' and 'risk exposure' pre-vesting of the FY25 LTEA appears to be subject to board discretion given a complete absence of sufficient disclosure of any quantifiable and specific targets.</i></p>

3	Approve Remuneration Report	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A qualified vote FOR the remuneration report (Item 3) is warranted. * There were no changes to the CEO's fixed remuneration. * The board responded to governance and risk matters in the Markets business and ongoing investigations by regulators through reduction of FY24 STVR bonuses to well below maximum and reduction of the number of FY25 restricted rights in the LTI grant to 90 percent in the pre-grant assessment. * Forecast changes to the FY25 STVR with a commitment to disclose specific and quantified hurdles for performance measures, and financial measures to increase to a 50 percent weighting. * There was no LTI vesting. The qualification is raised to highlight: * Quantitative Pay for Performance analysis indicates a median degree of concern. * Inconsistencies in the structure of the FY24 STVR with accepted market practice. * The FY24 STVR has a low and inferior weighting of 40 percent towards financial performance. * There continues to be poor, inferior and absent disclosure in the FY24 STVR of any specific or quantified threshold, target and stretch hurdles for any of the performance measures, which prevents any assessment of target rigor, performance and bonuses. * Despite the reduction in bonuses, given the poor level of disclosure, appropriateness of the quantum of STVR bonuses is nevertheless questioned in the context of material risk failures identified in FY24. * The terms of the FY24 LTVR restricted rights include a high probability of vesting given the non-financial performance measures appear in the nature of 'day job' responsibilities of bank executives, resulting in an increased risk of misalignment.</i></p>					

ANZ Group Holdings Limited

4	Approve Grant of Restricted Rights and Performance Rights to Shayne Elliott	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A qualified vote FOR the grant of FY25 LTVR performance rights and restricted rights to the CEO is warranted. * The structure of the grant remains broadly unchanged from the grant made in FY24 and is similar to the structure that has now been adopted by all the big four banking peers. * The quantum of the restricted rights has been reduced by 10 percent due to the application of the pre-grant assessment in response to the risk matters identified in FY24, with specific reference to the ongoing ASIC investigation into the Markets business. The qualification is to highlight the following inconsistencies with better market practice and shareholder interests: * Shareholders may question the appropriateness of a five percent reduction to the CEO's LTVR opportunity given the significant risk failures in FY24. * The terms of the restricted rights include a high probability of vesting being subject to four, five and six-year ongoing service conditions and additional board assessment pre-grant and pre-vesting. These board assessments appear to involve significant board discretion and primarily included to meet the requirement of APRA's Prudential Standard CPS511. * There is increased risk of misalignment with company performance and shareholder outcomes through the use of a substantial portion of non-financial performance measures in the LTI. The risk of misalignment is in the use of board discretion, especially if it does not exercise sufficient downward discretion as required under CPS511. * Some shareholders may consider CEO performance to mitigate risk in the business and ensure operational resilience as essential or mandatory in fulfilling his core "day job" duties. * The extent to which the board has overriding discretion in relation to amending the TSR growth hurdles. * The absence of a positive TSR gateway for the relative TSR tranche of the award given the curated and small number of companies in the relative TSR peer group. * Provision for dividends on unvested shares is inconsistent with good governance given the shares are not owned and there is no present entitlement to dividends paid on them during the performance period.</i></p>					
5	Approve the Amendments to the Company's Constitution	SH	Against	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this resolution is warranted, as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals. 6	Approve Transition Plan Assessments	SH	Against	For	For
<p><i>Voting Policy Rationale: A vote FOR this resolution is warranted as enhanced disclosure would give shareholders better understanding on how the company is managing climate change related risks regarding its lending activities. Shareholders would also benefit from a stronger alignment between the company's stated goals and its actions regarding corporate responsibility.</i></p>

<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. The compensation committee failed to demonstrate sufficient responsiveness to last year's low say-on-pay vote for the second successive year. In addition, there is an unmitigated pay-for-performance misalignment for the year in review. While LTI awards introduced performance equity for FY23, the performance periods were merely one year, or less, in some cases. Additional concerns regarding the rigor and appropriateness of selected metrics were underscored by the above-target vesting of FY23 LTI awards during a period in which shareholder returns continued to decline. Finally, the proxy provided insufficient justification for the payment of an excessive cash severance to former CEO Robbiati upon a resignation that does not appear to have been involuntary.</i></p>

4	Amend Omnibus Stock Plan	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors: * The plan permits repricing and/or exchange of grants without shareholder approval (overriding factor); * The plan permits cash buyout of awards without shareholder approval (overriding factor); * The equity program is estimated to be excessively dilutive (overriding factor); * The plan contains an evergreen feature (overriding factor); * The plan provides for the transferability of awards without shareholder approval (overriding factor); * The plan cost is excessive; * The estimated duration of available and proposed shares exceeds six years; * The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary); * The plan permits liberal recycling of shares; and * The plan allows broad discretion to accelerate vesting.</i>

<i>Voting Policy Rationale: No vote is required for this item.</i>					
2	Elect Simon Hunt as Executive Director	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR the election of Simon Hunt as CEO is warranted because: * The nominee is elected for a period not exceeding four years; * The candidate appears to possess the necessary qualifications for board membership; and * There is no known controversy concerning the candidate However, it is noted that the board lacks gender diversity with only 25 percent of women represented within the board, which is not in line with general European market practice. We raise some concerns as the company did not provide any compelling rationale for a EUR 600,000 one-off payment for the incoming CEO. Furthermore, we raise concerns regarding the proposed severance terms in case of termination of the relationship without cause by the company, or by mutual agreement, within one year from the effective appointment date, for a gross amount of EUR 4,670,000. This appears to be a deviation of the company's remuneration policy, and we raise concerns as the company did not provide any compelling rationale for this excessive severance package. We will further raise these concerns in the upcoming AGM and vote on the remuneration report.</i>

	<i>Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concern because: * For the second consecutive year, the CEO was granted a significant salary increase which was above that received by the wider workforce. The main reasons for support are: * The Company has grown considerably in size and complexity in the last two years, having entered the FTSE 100 and completed several acquisitions since 2023; * The increase is against the background of strong performance; and * The total salary is not out of line with companies of similar size.</i>				
14	Approve Remuneration Policy	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR is considered warranted, although it is not without concern for shareholders because: * The Company is proposing to increase the maximum bonus opportunity from 125% to 200%, which is on top of a significant salary increase granted to the CEO for FY2024/25. The main reasons for support are: * The increase is accompanied by a detailed rationale stating the significant growth and strong financial results delivered by the Company; * The majority of the annual bonus awards are based on financial metrics which have historically been set at progressively more stretching targets; and * The increased bonus opportunity is in line with the market median for a company of this size.</i>

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted. While some concerns are noted regarding the use of a simple majority vote standard in light of the CEO and founder's controlling voting stake in the company, the board appears to have run a thorough sale process, the merger consideration represents a premium to historical trading levels, and the cash form of consideration provides liquidity and certainty of value.</i>

	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although there are performance-based programs and reasonable outcomes in the annual and long-term incentives, concerns are raised surrounding the introduction of a supplemental executive retirement plan. The use of SERPs, as well as crediting for prior years of service, are inconsistent with market practice, as many companies have frozen or eliminated this type of benefit, given that it can substantially increase the cost of benefits to shareholders. The company has also not provided a compelling rationale to justify the need for supplemental retirement benefits.</i>

2	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this resolution is considered warranted, although it is not without concern for shareholders: * EDs' salaries are scheduled to be increased by c.30% over the next two years and follow a significant increase made in FY2023/24. Alongside the increases in the LTIP opportunity, this contributes towards material increases in both fixed and total pay opportunity, which may not receive universal support. The main reasons for support are: * The Company's rationale for the increases is acknowledged; * Pay arrangements are not out of line with market peers; * No other material concerns regarding remuneration arrangements have been identified for the year under review.</i>

3	Approve Remuneration Policy	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this item is considered warranted as material concerns are identified with the quantum and nature of the recruitment award. Under the proposed policy, new joiners may be granted an enhanced LTI award capped at 650% of base salary which may be made as a combination of performance and restricted shares. Separately, the maximum LTIP award opportunity will increase from 300% to 400% of salary under the proposed policy. The increase to total pay opportunity achieved through the increase in salary and LTIP opportunities are considerable and may not receive universal support. However, the Company's rationale is acknowledged and these have not contributed to the negative vote recommendation on this occasion.</i>

6	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this resolution is warranted because the company's remuneration practices exceed in many respects best practice standards in Germany, and pay and performance appear reasonably aligned at this time. However, it is not not without some concern: * Pension contributions remain at a relatively high level in the context of market practice. * Total target compensation was increased for all management board members for the third consecutive year. This is mitigated by relatively modest increase levels as well as the fact that the company has consistently been performing well against peers over the period in question.</i>

9	Approve Virtual-Only Shareholder Meetings Until 2027	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST the proposed article amendments in regard to virtual-only shareholder meetings is warranted because: * The new proposal appears to be a blanket authorization to continue holding AGMs in the virtual format only. * The rationale regarding why it was considered necessary to hold a virtual-only meeting in the past three years, or why the company chose the virtual-only format again for the 2025 AGM, is not considered compelling. * The company has not given shareholders the option to attend the AGM in-person since prior to the pandemic, and there is no commitment by the boards to giving shareholders an in-person attendance option in the near future. In this vein, the company only vaguely addresses the circumstances under which in-person meetings might be held in the future.</i>

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. Cash and equity incentive award values are ultimately discretionarily determined; many investors prefer an annual incentive program structure that emphasizes objective and transparent determinations. 	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, as pay and performance are reasonably aligned at this time. Although the target annual equity award for CEO Cook increased relatively significantly, the overall structure of CEO pay did not fundamentally change in FY24. Annual cash incentives continued to be based entirely on pre-set financial metrics with clearly disclosed targets and performance-based equity utilizes a multi-year performance period with relatively rigorous, forward-looking target goals clearly disclosed. <i>Voting Policy Rationale: This item warrants a vote FOR because the underlying transaction is supported by a valid rationale. This is not without highlighting that: * This EGM has been called with a notice period of only 15 days. Furthermore, full information on the tender offer has yet to be published at this stage. * Part of the expected benefits hinges on confirmation of the applicability of the so-called Danish Compromise. * This happens against the backdrop of UniCredit's hostile approach. However, UniCredit's nil premium bid does not raise concerns at this point that facilitating the Anima deal would potentially block an attractive offer for Banco BPM. Moreover, the overall additional disbursement of approx. EUR 200 million is unlikely to prevent future adjustments to UniCredit's offer.</i>

1c	Elect Director Beth Ford	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST Beth Ford, the incumbent chair of the most responsible committee for managing ESG-related risks, are warranted for the following reasons: - The board chair, Brian Niccol, who normally shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders, has served as the board chair and CEO for less than a year. - Additionally, the lead director, Jorgen Knudstorp, who has been appointed lead independent director of the board (effective upon the completion of this annual meeting), has not served in that role for the duration of the severe controversies. - Therefore, the incumbent chair of the committee most responsible for managing ESG-related risks should be held accountable for poor board and management oversight of ESG risk exposures at the firm. Votes FOR the remaining director nominees are warranted at this time.</i></p>

2	Advisory Vote on Golden Parachutes	Mgmt	For	Against	Against

Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although cash severance and equity acceleration are double trigger for the non-CEO NEOs, and no excise tax gross-ups are payable, the CEO's employment arrangement with the acquirer will result in a large payout equivalent to all change-in-control severance entitlements due to him despite the fact that he will remain employed following the merger. As an inducement payment, the large magnitude and lack of any vesting or performance conditions raises significant concern.

<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted due to the following concerns: - The company has not disclosed any short- and long-term E&S performance incentives; and - The provision for automatic accelerated vesting of equity awards upon a change in control. A vote AGAINST this proposal is further warranted due to the following concerns: - The majority of equity awards to the CEO are not tied to performance-contingent pay elements; and - Excessive differentials between CEO pay and the pay of other named executive officers at the firm.</i>

3.2	Elect Moon Yeon-woo as Non-Independent Non-Executive Director	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST Yeon-woo Moon (Item 3.2) is warranted, as his records of inaction to discharge directors from the board who have demonstrated a material failure of governance is in itself indicative of a material failure of governance and oversight at the company. A vote FOR the remaining nominees is warranted.</i>

5	Authorize Board to Fix Remuneration of Internal Auditor(s)	Mgmt	For	Against	Against

Voting Policy Rationale: A vote AGAINST this resolution is warranted. The company is not proposing an increase in the internal auditor's remuneration limit. However, based on Social Advisory Services' updated market data, the level of the internal auditor's remuneration cap is excessive compared to that of the market norm, and the company has not provided any reasonable justification for the excessive remuneration limit.

2.1	Approve Remuneration Report	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: - There is insufficient ex-post disclosure to explain the evolution of variable payouts versus company performance. - The remuneration committee uses discretion when setting the weightings of performance criteria and in the allocation of bonus payouts under STI. - LTI awards are allocated on a discretionary basis and the awards are not subject to any performance conditions. - The CEO compensation package has not been well explained, and the base salary appears to significantly exceed the Social Advisory Services' selected peer median level. Moreover, there are concerns related to the pay for performance alignment with respect to realized CEO pay versus TSR performance relative to peers. - The board chair continues to receive pension benefits in the year under review.</i></p>

<i>Voting Policy Rationale: Fixed compensation (Item 5.3) A vote FOR this resolution is warranted because the proposal is broadly in line with market practice. However, it is not without concern: - Two members of the board of directors continue receiving additional fees for consulting services. Variable compensation (Item 5.1) A vote AGAINST this proposal is warranted because there are concerns regarding the company's variable compensation practices and the company failed to put the compensation report up for a separate vote.</i>

<p><i>Voting Policy Rationale: A vote AGAINST this item is warranted because: * The proposed board's level of independence fails to meet the expectations of institutional investors; and * The company has bundled the election of directors under a single item, preventing shareholders from voting individually on each nominee.</i></p>					
6	In Case There is Any Change to the Board Slate Composition, May Your Votes Still be Counted for the Proposed Slate?	Mgmt	None	Against	Against

Voting Policy Rationale: A vote AGAINST this request is warranted because potential changes in the board slate composition can impact the board's independence level in a way that cannot be anticipated by shareholders at this time. As such, due to the lack of timely disclosure, international institutional investors are prevented from making an informed voting decision.

3	Approve Deep Discount Stock Option Plan	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted because: * Total dilution from this plan and the company's other equity compensation plans reaches 5.6 percent, which appears excessive. * No specific performance hurdles are specified, and the stock options could become exercisable in less than three years after this shareholder meeting by non-retiring recipients.</i>

2.2	Amend Articles of Incorporation (Differentiated Cumulative Voting for Directors)	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST Item 2.1 is warranted, as the dissident came short of building a compelling case that cumulative voting would indeed improve governance for the company. A vote AGAINST Item 2.2 is warranted as Item 2.2 (selective cumulative voting) is automatically discarded upon rejection of Item 2.1 (cumulative voting). We recommend voting FOR Items 2.2 and 2.4 as the proposed amendments are not contentious or problematic in nature.</i></p>
