5	SP 2: Approve Incentive Compensation for All Employees Based on ESG Targets	SH	Against	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this shareholder proposal is warranted at this time. The company argues that ESG objectives based on its ESG strategy are a specific category that form part of the Named Executive Officers' overall annual compensation-related objectives. Power Corporation is a holding company with no operations and a workforce of approximately 100 employees. In 2023, it engages with its employees regarding a wide array of ESG matters, including sustainability and community involvement; diversity, equity and inclusion; comprehensive benefits, including benefits to support health and well-being; and Indigenous reconciliation. Based on the company's ESG disclosure and compensation structure, employee interests appear to be sufficiently aligned with company performance. In addition, some employees may have limited influence over certain ESG metrics and performance due to the nature of their specific roles and responsibilities, making it difficult to link and track compensation with ESG metrics for all employees. In light of the above, the proponent's request appears to be overly prescriptive and unnecessary. As such, a vote AGAINST this shareholder proposal is warranted at this time.</i></p>					
6	SP 3: Hold Annual Meetings of the Company in Person with Virtual Meetings as Complements	SH	Against	For	For
<p><i>Voting Policy Rationale: Vote FOR this shareholder proposal. After four years of holding its annual meeting virtually, the company will be holding its 2024 annual shareholder meeting in person. However, in its response, the board insists that the company must maintain flexibility in its ability to determine the format for the annual shareholder meeting, including the ability to hold future annual shareholder meetings in virtual or hybrid formats. Compelling investor feedback indicates that a significant majority of shareholders want to retain the ability to attend shareholder meetings in person, even if in a given year they elect to participate only virtually. While shareholders agree with the purported benefits of virtual meetings as highlighted by the board, they believe those benefits should be combined with the option to participate in person, as such "hybrid" meetings would mitigate corporate governance concerns related to virtual-only meetings, while also maximizing attendance and participation. In the absence of any other extenuating circumstances preventing the company from holding an in-person meeting, a vote FOR the proponent's request is warranted at this time.</i></p>

<p><i>Voting Policy Rationale: A vote AGAINST this shareholder proposal is warranted at this time. The company complies with language laws and regulations applicable in Quebec. All Power Corporation shareholder materials are made available in French and English, including materials prepared for the annual meetings of shareholders. The company's President and CEO, Chairman, and Deputy Chairman are all bilingual. Considering the above and the fact that company is already complying with all laws and regulations applicable to doing business in Quebec, the request of the proponent pertaining to disclosing the languages mastered by the executives in the skills and expertise matrix of the circular appears to be overly prescriptive.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. The compensation committee demonstrated sufficient responsiveness to last year's failed say-on-pay vote. In addition, several changes to the pay program for FY24, made in response to shareholder concerns, mitigate a pay-for-performance misalignment for the year under review. These changes include a simplified LTI program, elimination of one outperformance program and a smaller pool for the other, increased LTI goal rigor and a meaningful cap on total reported compensation for the current CEO. Continued monitoring of pay outcomes is warranted as the company implements the changes going forward.</i>

4	SP 1: Approve Incentive Compensation Relating to ESG Goals	SH	Against	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this shareholder proposal is warranted at this time. The proponent is asking the company to consider linking a portion of all employee compensation to the performance of the organization on its ESG goals. The company argues that it has made contributions to a range of ESG related initiatives over decades, and it is not feasible or appropriate to linking incentive compensation of all employees to ESG goals at this time. In addition, the HRCG committee will conduct a review for executive compensation to consider including ESG criteria in their compensation in the future. In its annual CSR Report, the company has disclosed its ESG related goals and progress made towards them. In addition, the company has a clear oversight structure for ESG governance. While tying a portion of all employees compensation to ESG goals may further enhance the company's focus on ESG goals, the employee interests appear to be sufficiently aligned with company performance by evaluating individual performance objectives against their roles. In addition, some employees may have limited influence over ESG metrics and performance due to the nature of their specific roles and responsibilities, making it difficult to link and track compensation with ESG metrics for all employees. In light of the above, the proponent's request appears to be overly prescriptive.</i></p>					
5	SP 2: Hold Annual Meetings of the Company in Person with Virtual Meetings as Complements	SH	Against	For	For
<p><i>Voting Policy Rationale: Vote FOR this shareholder proposal. The board has highlighted in its response that the benefits of virtual meetings include increased accessibility of shareholders situated globally as well as carbon footprint and cost reduction. While many investors recognize the potential benefits of enabling participation at shareholder meetings via electronic means as a potential enhancement to shareholder rights, they also raise concerns about moves to eliminate physical shareholder meetings, arguing that virtual-only meetings may hinder meaningful exchanges between management and shareholders, enable management to avoid uncomfortable questions, increase the likelihood of marginalizing certain shareholders, and contribute to an erosion of shareholder rights. In addition, compelling investor feedback indicates that a significant majority of shareholders want to retain the ability to attend shareholder meetings in person, even if in a given year they elect to participate only virtually. While shareholders agree with the purported benefits of virtual meetings as highlighted by the board, they believe those benefits should be combined with the option to participate in person, as such "hybrid" meetings would mitigate corporate governance concerns related to virtual-only meetings, while also maximizing attendance and participation. In light of the fact that the COVID-19 public health emergency was declared to have ended in May 2023, the company has not provided compelling reasons for continuing to hold virtual-only shareholder meetings. In the absence of any other extenuating circumstances preventing the company from holding an in-person meeting, a vote FOR the proponent's request is warranted at this time.</i></p>

	<i>Voting Policy Rationale: A vote AGAINST the proposal is warranted. A majority of regular incentive pay is performance-conditioned, and below-target outcomes reflects the company's underperformance. However, structural and disclosure concerns are identified, including that the company has not clearly disclosed most of the quantitative performance targets. Further, the LTI program has an annual share banking feature, which diminishes the program's long-term focus. Additionally, the company granted a problematic one-time award to the former CEO upon his transition to executive chairman that lacks performance criteria and vests after only one year of service. Lastly, the company provided sizeable cash severance to a departing NEO despite without clear proxy disclosure that the separation was a qualifying termination.</i>

	<i>Voting Policy Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factor(s): * The plan cost is excessive * The three-year average burn rate is excessive * The plan allows broad discretion to accelerate vesting</i>				
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted. Some concerns continue to be noted about the annual goals utilized by a portion of the equity awards, and the partial metric and goal overlap with the STIP. However, the annual incentive is primarily based on pre-set financial metrics and half of the long-term incentives are performance conditioned and based on quantifiable metrics.</i>				
4	Amend Certificate of Incorporation to Limit the Liability of Officers	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, as the exculpation provision permitted by Delaware law is considered to reasonably balance shareholders' interest in officer accountability with their interest in attracting and retaining qualified officers to serve the company. The other proposed miscellaneous amendments are either primarily clarifying or administrative in nature and do not diminish shareholder rights.</i>

4	Approve Share Plan Grant to CEO Patrick W. Smith	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. While the award is smaller than the grant originally proposed (but withdrawn) last year, concerns regarding the magnitude and design of this award again outweigh the positive aspects. The grant size is considered to be excessive and effectively locks in high pay opportunities for multiple years. This structure also restricts the board's ability to meaningfully adjust future pay levels or incentive metrics. In addition, as of the time of this report, the first stock price hurdle had already been exceeded. Lastly, despite very strong performance over the period between the 2018 award and now, investors may question the need for another sizable stock award to a CEO who owns \$900 million in the company's stock.</i>				
5	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. While pay to CEO Smith was negligible in FY23, other NEOs received sizable time-vesting stock awards in connection with their respective promotions. Further, NEOs also received contingent stock grants which may be replaced with performance awards if the stock plan is approved, but which represent a minority of their total equity grants. Lastly, grant values were considered to be excessive for the year in review, with each non-CEO NEO receiving grants near or in excess of median CEO pay at peers.</i>

3	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR the remuneration report is considered warranted, although it is not without concern for shareholders: * The salary level of the new CFO, who lacks prior executive experience in a high-profile board position at a public bank, has been set at a premium to that of his predecessor, with limited explanation provided in the meeting materials. * Non-financial elements continues to account for a significant (50%) portion of the total bonus opportunity. The main reasons for support are: * The new CFO's salary level is not at a significant premium to that of his predecessor and no buyout award was paid to him for his recruitment. * Downward discretion has been applied to the 2024 bonus in consideration of additional factors that are not captured by the scorecard such as external environment, market competitiveness and overall affordability - the Remuneration Committee also considered risk, control and conduct matters, including ongoing investigations and matters raised by regulators. The resulting bonus payouts are not considered to be out of line with the Company's FY2023 performance.</i>

	<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although the annual incentive program is primarily based on objective goals and total CEO pay declined in FY23, a review of the pay program reveals certain concerning features. Specifically, the CEO received a relatively large equity award in FY23, the majority of the award was not performance conditioned, and forward-looking were goals not disclosed. Further, a portion is based on a short performance period and there are continuing concerns regarding tax gross-ups on perquisites. Lastly, concerns are also raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels.</i></p>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. CEO pay increased amidst poor performance, contributing to a misalignment between pay and performance for the year in review. While annual incentives are primarily based on objective, financial metrics, two targets were set below last year's actual performance and then awards paid out above target. Further, long-term incentives use annual performance periods, with the ability to bank half of the target performance shares after just one year, and the CEO's target LTI opportunity was increased this year, with limited rationale. Lastly, while forward-looking goals are provided, multiple metrics targeted negative or zero percent growth.</i></p>

	<i>Voting Policy Rationale: A vote FOR this resolution is warranted because the company's remuneration report is broadly in line with, and exceeds in many respects, best practice standards in Germany. However, it is not without concerns: * An increase to pension contributions was made for one executive, which can be considered high in the context of market practice, and no rationale was provided. * Ex-post disclosure regarding the assessment of individual performance criteria under the STI remains somewhat underdeveloped. * ESG targets set for granted LTI awards may not be sufficiently challenging.</i>

	<i>Voting Policy Rationale: A vote AGAINST the proposal is warranted. Although a pay-for-performance misalignment is mitigated for the year in review, the Compensation Committee was not fully responsive to shareholder concerns following a low say-on-pay vote result. In particular, shareholders noted concerns regarding one-time grants given to the CEO and other NEO grants in FY22, yet the Compensation Committee did not provide any safeguards or assurances regarding any potential future grants going forward, though it is noted that some positive changes were made to the annual pay programs in response to shareholder feedback.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR the proposal is warranted. Some concerns are noted regarding target setting in the STI, as targets were set below actual performance levels in the prior year without a corresponding reduction in target payout opportunity. There are also concerns regarding the relative TSR metric in the LTI program, as the metric lacks a vesting cap should absolute TSR be negative over the three-year performance period; relative TSR also has a relatively high maximum vesting opportunity. However, these concerns are mitigated for the year in review, as the annual bonus program was entirely based on pre-set financial metrics, paying out below target, which was in line with recent company performance. Additionally, a majority of the annual equity grant was in performance-conditioned equity, with a significant portion of that utilizing a multi-year performance period. Finally, the award utilizes rigorous relative goals, with above-median performance required in order for the award to vest at target.</i>

<p><i>Voting Policy Rationale: CEO pay and company performance were reasonably aligned for the year in review. A qualitative review of incentive programs indicates largely performance-based pay, although certain design and disclosure issues are noted. Nevertheless, significant concerns are raised by the committee's limited degree of responsiveness following last year's failed say-on-pay vote. The committee made a commitment to limit one-time awards to extraordinary circumstances. While this is meaningful, it does not directly address shareholders' noted concerns regarding one-time award "quantum and structure." A failed say-on-pay vote warrants the highest degree of responsiveness, and the committee's actions are considered to fall short of that standard. Accordingly, a vote AGAINST this proposal is warranted.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against

Voting Policy Rationale: A vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. Half of LTI awards vest based on clearly-disclosed multi-year goals and the relative metric targets outperformance. However, there are significant concerns surrounding the corporate scorecard used to determine incentive awards. The structure is overly complex, and the minimum hurdle required to receive a payout does not appear meaningful. Concerns are heightened in the context of a relatively large cash incentive opportunity for the CEO and a target LTI opportunity which increased amid sustained TSR underperformance. In addition, concerns are raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels. While certain FY24 pay program commitments disclosed in a supplemental filing aimed at addressing pay program complexity and rigor appear positive, the commitments do not sufficiently mitigate concerns identified for the year in review.

	<i>Voting Policy Rationale: While the majority of equity awards are based on clearly-disclosed multi-year goals that appear reasonably rigorous, there are significant concerns regarding the process used to determine annual cash incentive awards. Although annual cash incentive determinations are guided by performance assessments and consistent financial metrics were evaluated, payouts are ultimately discretionarily determined. The proxy lacks several key disclosures, including quantified target goals and individual metric weightings, which are important in assessing pay-for-performance linkage, particularly when discretionary determinations have contributed to a pay-for-performance misalignment. In light of these concerns, the quantitative pay-for-performance misalignment is not mitigated and a vote AGAINST this proposal is warranted.</i>

That yet another one-off bonus is needed raises concerns. Moreover, the fact that the company uses the derogation policy to be able to deviate from the policy and approve a share award which normally requires separate shareholder approval under Dutch Law is considered to be in deviation of the actual purpose of the derogation possibility, particularly because the company has not demonstrated that the one-off additional bonus is needed to assure the long-term viability of the company. 3	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this item is warranted, although it is not without concern: * The CFO received an annual bonus award against the backdrop of relatively poor financial performance for FY2023; * The recently appointed CEO was granted a base salary which is set at a significant premium to that of his predecessor (c.35%); and * The CEO has been granted an LTIP award at the maximum opportunity, despite a significant fall in the Company's year-on-year share price, which raises the possibility of so called 'windfall gains' potentially materialising under this award. The main reasons for support are: * The bonus granted to the CFO equates to 22% of maximum opportunity, after the Remuneration Committee applied downward discretion to the financial component of the award. Further, the CEO did not receive an annual bonus for the reporting period; * The base salary granted to Mark FitzPatrick broadly converges with his fixed pay package as his previous employer; and * The Company has reduced the CFO's FY2024 LTIP to acknowledge the fall in the share price. Further, Mark FitzPatrick was appointed as CEO on 1 December 2023 and therefore has not had executive responsibility over the Company's performance over the course of FY2023.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. Some concerns continue to be raised surrounding the discretionary nature of award determinations and the absence of certain shareholder-friendly disclosures. However, these issues have not contributed to a quantitative pay-for-performance misalignment. Additionally, financial metrics were consistently assessed, the CEO's below-target incentive is directionally aligned with highlighted scorecard results, and long-term equity awards were majority-based on clearly-disclosed multi-year goals. A quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of pay program structure, outcomes and disclosures.</i>

	<i>Voting Policy Rationale: A vote AGAINST the proposal is warranted. While the majority of long-term incentives are based on clearly disclosed multi-year goals, significant concerns are noted regarding the discretionary nature of the STI program and the lack of certain key disclosures. While certain financial target goals are disclosed, other key disclosures are lacking, including target opportunities, individual metric weightings, the impact of individual performance on pay outcomes, and quantified threshold and maximum goals. Specific concerns are further raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay. The lack of key disclosures impedes a fully-informed assessment of pay outcomes relative to company performance, which is particularly important in years in which a quantitative pay-for-performance misalignment is identified.</i>				
4	Report on Methane Emissions	SH	Against	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, as report on the company's methane emissions will permit the company and shareholders alike to appropriately assess risks related to methane emissions.</i>				
5	Report on GHG Emissions Associated with Underwriting and Insuring for High Carbon Sectors	SH	Against	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, because the requested report would help shareholders better evaluate the company's management of climate risks from its underwriting, investment, and insurance activities.</i>				
6	Report on Human Rights Risk in Underwriting	SH	Against	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, as the requested report would help investors better understand how the company is managing its reputational, financial, legal, and regulatory risks related to human rights risks in its underwriting.</i>				
7	Consider Pay Disparity Between CEO and Other Employees	SH	Against	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted for the following reasons: * Consideration of pay grades and/or salary ranges of all classification of company employees when setting target amounts for CEO compensation would serve to further eliminate excessive pay disparities; and * Excessive pay disparities could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates.</i>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted as mitigating factors for the pay-for-performance misalignment have been identified for the year in review. While some concerns are noted regarding the long-term incentive program, half of the annual-cycle long-term incentives are performance conditioned and annual incentives were entirely determined by pre-set objective metrics, with targets that appear rigorous. In addition, the relatively large increase in CEO compensation was primarily driven by make-whole awards granted to account for forfeited pay with his prior employer and the overall magnitude of his compensation should normalize in the following year.</i>

<p><i>Voting Policy Rationale: WITHHOLD votes are warranted for Governance Committee chair Jim Anderson given the board's failure to remove, or subject to a sunset requirement, the classified board structure which adversely impacts shareholder rights. WITHHOLD votes are further warranted for Governance Committee members Jim Anderson and Mary Boyce for maintaining a dual-class structure that is not subject to a reasonable time-based sunset provision.</i></p>					
2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted due to the following concerns: * A majority of equity awards to the CEO are not tied to performance-contingent pay elements; and * Excessive differentials between CEO pay and the pay of other named executive officers at the firm. In addition, a vote AGAINST this proposal is further warranted because: * The company has not disclosed any short- and long-term E&S performance incentives; and * The company has not disclosed any risk mitigators, such as a clawback policy, CEO stock ownership guidelines, or stock holding period requirements.</i></p>

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted. The company underwent a sudden leadership change in late 2023. While the entirely time-based equity grant to the new CEO raises some concern, he will not receive an additional grant in 2024 and the aggregate size of the award is relatively modest when annualized. Outside of this one-time award, annual incentives were based largely on pre-set objective measures and regular annual equity grants to other NEOs were half performance-conditioned.</i>

While the ability to call special meetings would improve shareholder rights, this proposal is merely an advisory request to provide a special meeting right with a 25 percent ownership threshold with otherwise undefined terms. The 25 percent ownership threshold is considered relatively high for a company of this size. Moreover, the proposed 10 percent threshold in Item 6 is considered more appropriate and it is recommended that shareholders vote in favor of Item 6.</i>

As such, the discharge of management board members with Deutsche Bank during this period are highlighted. We note that none of the current shareholder-elected supervisory board members were in office during this period. We also note that the discharge of the management and supervisory boards was targeted in 2019 for similar offenses during this time period. Thus, while we highlight concerns regarding the newest fines by US authorities, we nevertheless note the remedial measures and actions that Deutsche Bank has taken since that time, and do not believe that another vote against discharge is warranted at this time. Nevertheless, continued monitoring of the bank's progress in implementing control function improvements, as ordered by regulators, is warranted.</i>

<p><i>Voting Policy Rationale: Votes FOR these proposals are warranted as there is no evidence that the boards have not fulfilled their fiduciary duties. However, concerns are highlighted in regard to new fines in 2023 by US regulators related to deficiencies in the bank's anti-money laundering systems and its KYC controls (a legal obligation for financial institutions to "Know Your Client"), particularly in the years 2015-2017. As such, the discharge of management board members with Deutsche Bank during this period are highlighted. We note that none of the current shareholder-elected supervisory board members were in office during this period. We also note that the discharge of the management and supervisory boards was targeted in 2019 for similar offenses during this time period. Thus, while we highlight concerns regarding the newest fines by US authorities, we nevertheless note the remedial measures and actions that Deutsche Bank has taken since that time, and do not believe that another vote against discharge is warranted at this time. 6	Approve Remuneration Report	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A vote FOR this resolution is warranted because: * The remuneration report is broadly in line with market practice. Moreover, we note that the retrospective disclosure on the LTI scheme is comprehensive and contributes to an understanding of how payouts relate to performance, including the rigor of future target setting. However, support is qualified because this is not without concern: * 2023 pay does not seem fully aligned with the company's relative TSR performance, driven by the LTI design that allows for substantial payout for below median performance. We highlight the company's three-year average TSR performance (11 percent) relative to ISS-selected peers (median 20 percent) ranked 14 out of 15, whereas 25 percent of LTI pays out at-target under the relative TSR metric. * The continued relatively high-level of pension contributions (particularly if compared against average contributions made for employees) are not in line with market best practice. * The multitude of KPIs used under the STI. Although we note the improvement in disclosure compared to last year, the assessment remains descriptive without full disclosure on target setting and according achievement. * We also note the short-term nature of the LTI plan, as performance is measured based on three one-year periods with the most recent year outweighing other years.</i></p>					
7	Approve Remuneration Policy	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A vote FOR this resolution is warranted because: * The proposed remuneration policy is broadly in line with market practice and SRD II * The board appears to have addressed a number of previously raised concerns by shareholders, including reducing the number of KPIs and less complexity under the STI, a forward-looking three-year LTI plan, peer median threshold for rTSR, and stepping away from a defined benefit pension plan. However, this is not without some level of concern for: * The disclosure of applicable STI metrics is not sufficiently concrete and leaves substantial flexibility with the board to select KPIs. This concern is mitigated by the company's established practice of providing detailed ex-post disclosure, albeit descriptive; and * Although the company is stepping away from a defined benefit plan, the proposed EUR 650,000 fixed pension contribution for a potential new CEO remains generous and substantially above market practice and the contributions paid for employees.</i></p>

In addition, the new CEO's one-time awards were relatively modest in FY23, consisting mostly of make-whole awards, with equity grants predominantly tied to performance conditions. Further, although some concern exists regarding goal rigor under the annual and long-term incentive programs, bonuses were entirely based on objective financial measures, annual LTI awards were half performance-based, and the committee made improvements to the LTI program for FY24.</i>

<i>Voting Policy Rationale: A vote FOR this resolution is warranted because the company's remuneration practices are broadly in line with best practice standards in Germany, and pay and performance appear reasonably aligned at this time. 	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, as pay and performance are reasonably aligned at this time. A majority of short- and long-term incentives are based on objective performance criteria. However, certain concerns are raised regarding goal rigor, as annual incentive targets were set below prior year performance, and relative TSR-based PSUs target performance at merely the index median. One-time equity awards granted in connection with the Black Knight acquisition are entirely performance-based, with targets clearly disclosed and performance measured over a multi-year period.</i>

<i>Voting Policy Rationale: A vote AGAINST the proposal is warranted because: * High CEO pay relative to company performance compared to the company's peers; * High CEO pay in relation to company peer group CEO median pay levels; * Though annual bonus appears strongly performance based, there are a number of concerns regarding equity grants in FY23. * Though a majority of the LTI grant was in performance equity, a portion of the grant measured performance over a single year and merely targets median performance. * Though longer-term equity targets appear rigorous, the award will vest if any number of metrics meet target instead of each metric comprising a certain portion of the award. There also exist magnitude concerns, as the new CEO received a relatively large sign-on RSU grant and equity grant for the year in review.</i>

	<i>Voting Policy Rationale: A vote FOR this item is considered warranted, but is not without concern: * The one-off increase to the CEO's PSP award, which utilised the 'exceptional' award limit and raises significant concerns, was made during the year under review. * An element of the FY2021 awards, which vested in the year, features amended targets. This is generally not in line with market standards. * Total benefits paid to the CEO represents a 47% increase from the previous year's aggregate figure. The remuneration report does not provide any context for the substantial increase. The main reasons for support are: * Concerns on the CEO's FY2023 award have been highlighted in the vote recommendation of the 2023 Social Advisory Services report. * The amendment of the targets was prompted by methodology changes, after notification from a third-party source on material emissions factor change. * No overriding concerns on remuneration are raised.</i>

4	Approve Amended Remuneration Policy	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A vote FOR is warranted because the proposed remuneration policy is broadly in line with market practice, regarding both actual content and disclosure. Several improvements have been made in the proposed remuneration policy. Support is however qualified because we note that one-off bonuses are still included, but with a set limit capped at the amount of the short-term bonus for the given financial year. Furthermore, the disclosure regarding the vesting of the LTIP and the derogation clause is not fully transparent.</i></p>

4	Approve Authorization to Increase Share Capital up to 70 percent of Authorized Capital by Various Means and Amend Article 7 of the Articles of Association	Mgmt	For	For	For

*Voting Policy Rationale: A vote FOR is warranted because: * The proposed capital authorization is specifically purposed to finance the company's updated Capex programme for the next five years (2024-2028); * The company has provided compelling background and planning on investments as part of its strategy update as explained on the capital markets day on Dec. 8, 2023; * The planned Capex expenditure is largely part of regulated development plans and as such subject to further regulatory approvals; * The company has also provided further details on expected returns (ROE of 7-8 percent) in the coming years, and market reaction to the updated capex programme was positive. However, this is not without some level of concern for the extensive time horizon on this specific capital authorization and that it might be done with exclusion of preemptive rights for up to 20 percent of current issued capital.*

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. There are ongoing concerns regarding the degree of discretion in incentive award determinations and the absence of certain shareholder-friendly disclosures, including preset target goals for annual cash incentive awards. However, financial metrics evaluated were consistent with the prior year, and LTI awards were majority performance-conditioned and based on clearly-disclosed multi-year goals. Importantly, noted concerns have not contributed to a quantitative pay-for-performance misalignment. A quantitative pay-for-performance misalignment going forward may be met with increased scrutiny of pay program structure and disclosures.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
	<p><i>Voting Policy Rationale: While a pay-for-performance misalignment was identified for the year in review and certain concerns remain surrounding the company's pay program structure, as no portion of NEO compensation is directly tied to the achievement of pre-set performance criteria, certain mitigating factors have been identified. Specifically, it is recognized that FY23 pay for all NEOs was relatively low, consisting only of a base salary and certain perquisites. In addition, no equity awards were provided to NEOs in FY23, following relatively large grants made to certain NEOs during the prior fiscal year. However, following consecutive years of relatively low support for this proposal, the compensation committee demonstrated limited responsiveness to certain shareholders' concerns. The compensation committee engaged with shareholders, disclosed specific feedback, and provided enhanced disclosure surrounding the current pay program design and philosophy. While this greater transparency into the committee's rationale for its pay practices is recognized, the company did not make material changes to the pay program to address certain shareholder concerns. Although the company has demonstrated a degree of responsiveness by addressing certain shareholders questions, the lack of actions taken in respect to certain areas of concern falls short of adequate responsiveness. In light of the committee's limited responsiveness to the relatively low say-on-pay vote last year, a vote AGAINST this proposal is warranted.</i></p>

<i>Voting Policy Rationale: A vote FOR this proposal is warranted. Concerns are raised regarding recent work-place related violations and resulting negative media attention. Some concern is noted regarding the utilization of annual measurement periods for the majority of performance-based equity awards, and the sharing of a metric in both the STI and LTI programs. Nevertheless, annual incentives are largely based on pre-set financial measures and half the equity grant is targeted to be performance-conditioned primarily earned based on objective financial metrics.</i>

7	Approve Remuneration of Supervisory Board Members	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this resolution is warranted because there is no evidence of excessiveness on the part of Erste Group Bank's board in the past. However, support is qualified because: * The proposed fees are increased to levels further diverging from market practice. * The proposed fees follow increases already made in 2022 without the company providing further explanation other than 'increased responsibilities'. * However, the increased complexity and time commitment for board duties of international banks is also recognized. Nevertheless, subsequent proposals for increasing board fees are expected to be accompanied by more compelling background and context.</i>				
8	Approve Remuneration Report	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this resolution is warranted because: * The company's remuneration report is broadly in line with best practice standards in Austria. 10	Approve Virtual-Only or Hybrid Shareholder Meetings Until 2028; Amend Articles Re: Company Announcements	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR the proposed article amendments is warranted because: * The authorization is limited until the end of fiscal year 2028. * This year's AGM is being held in-person. * A shareholder minority of 5 percent can demand that the next ordinary shareholders' meeting be held in presence or hybrid if the previous meeting was virtual (in line with Austrian law). * Shareholders' participation rights in the virtual format would be protected (in line with Austrian law). * The additional amendment is non-contentious in nature. However, support is qualified because: * The company has not explained under which circumstances it would hold meetings in the virtual and/or in-person format, thus essentially giving management blanket approval to hold virtual meetings moving forward.</i>

Annual incentives were largely based on objective financial metrics and regular annual equity grants to NEOs were predominantly performance based and now based on goals over a full three-year period. Nevertheless, some concern is raised given the sizable incentive award opportunities for CEO Plant, including his return to regular annual equity grants in FY24, and the lack of forwardly disclosed performance goals for PSUs. Cautious votes FOR the non-independent nominees: Steffen Meister, Marcel Erni, Alfred Gantner, and Urs Wietlisbach are warranted at this time. Although the board would be majority non-independent following the proposed elections, this is due to the sudden resignation of one of the independent board members. Specifically, we note that independent director Martin Strobel announced after the publication of the 2023 annual report (March 19, 2024) that he would step down from the board. In response to the sudden resignation, the board has commenced a search process and expects to propose a further independent director for election at the 2025 AGM. However, at this time, the board will be composed of one less member, which also impacts overall board independence until a replacement for Strobel is found. We further note that the company has maintained a majority-independent board across the past five years. 2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted. Large equity grants to the company's new CEO are driving a pay-for-performance misalignment for the year under review. However, concerns are mitigated given that such sizable grants are not uncommon for a new CEO and half of his initial grants are tied to performance conditions. Onboarding grants to two additional NEOs were also half performance-based, and all three of the new executives will not receive additional equity awards in 2024 given their sizable sign-on grants. In addition, concerns are mitigated regarding one-time grants to former NEOs. The company's annual LTI program as well as the annual bonus program are overall sufficiently performance-based.</i>

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. CEO pay and company performance are reasonably aligned at this time, and annual incentives and the majority of long-term incentives are sufficiently tied to objective performance goals, with payouts consistent with recent performance. However, some concerns are raised surrounding Michael Balmuth's transition from a highly paid non-executive senior advisor to executive chairman in FY23, as he will receive a sizable retention bonus. While it is recognized that his pay levels normalized in his role as executive chairman, continued monitoring of CEO Rentler's planned transition to senior advisor in 2026 is warranted.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: Some concerns are raised regarding the discretionary process used to determine cash incentives, and the lack of key disclosures related to the performance assessment, though these issues have not contributed to a quantitative pay-for-performance misalignment. However, a vote AGAINST this proposal is warranted in light of significant concerns surrounding one-time awards granted to three NEOs in connection with the CEO transition. Proxy disclosure surrounding the committee's decision-making process and shareholder feedback related to the awards is robust. However, the rationale for the extraordinary total magnitude is less compelling, particularly in light of somewhat limited disclosure related to the magnitude determination. Structurally, the awards largely track the annual LTI awards for most non-CEO NEOs, including the weighting of performance equity, the performance metrics, goals, and vesting periods. This overlapping approach results in a sizable supplemental pay opportunity for the same performance outcomes. Additionally, a significant portion of the award lacks performance criteria. In this case, maintaining a structure for one-time awards that is consistent with the annual LTI grants does not meet the heightened pay-for-performance considerations that arise with off-cycle awards of this magnitude.</i></p>					
4	Approve Nonqualified Employee Stock Purchase Plan	Mgmt	For	For	For

However, continued monitoring is warranted of pay levels, to ensure equity values normalize, and also with regard to the long-term incentive awards, for which the PSU relative TSR metric targets merely the median with no disclosed cap on awards in the event of negative TSR, or on revenue goals, for which only retroactive goal disclosure is provided.</i>

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, as pay and performance are reasonably aligned for the year in review. Although the TSR PRSU metric merely targets median performance with no disclosed cap on payouts in the event of negative absolute TSR, the CEO's long-term incentives are chiefly performance conditioned, with performance measured over a multi-year period. Moreover, annual incentives are primarily linked to pre-set financial metrics and, in 2024, the committee reduced the proportion of the STIP that is based on non-financial metrics.</i>

3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted. The compensation committee demonstrated adequate responsiveness to last year's low say-on-pay vote result in light of meaningful changes effective for FY24, including a reduction in the maximum equity vesting opportunity and commitments related to the use of off-cycle awards. In addition, pay and performance were reasonably aligned for the year in review. The annual incentive was largely based on pre-set objective measures, and over half of equity awards were based on multi-year goals.</i>

	<i>Voting Policy Rationale: A vote FOR these resolutions is warranted, although this is not without concern for shareholders: * If the Company were to issue Contingent Convertible Securities and a trigger event were to occur, causing them to convert into ordinary shares, this would result in significant dilution to non-participating shareholders. The main reasons for support are: * Such authorities for issuing convertible debt are common proposals at Dutch insurance companies and conversion into equity is only intended to apply in extreme circumstances only; and * The conversion into ordinary shares would require the Tier 1 capital ratio to fall to a level which would denote significant capital weakness well beyond the Company's current position and minimum regulatory requirements.</i>

<i>Voting Policy Rationale: This is a non-voting item.</i>					
2.c	Approve Remuneration Report	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST is warranted because the CEO John Elkann also receives remuneration for his executive roles on EXOR investee companies Stellantis and Ferrari, raising further questions on the adequateness of a remuneration package at EXOR that is in line with fully operating companies. Furthermore, we raise serious concerns regarding the excessive one-off awards to non-executive directors.</i>					
2.d	Adopt Financial Statements and Statutory Reports	Mgmt	For	For	For

2.e	Receive Explanation on Company's Dividend Policy	Mgmt			
<i>Voting Policy Rationale: This is a non-voting item.</i>					
2.f	Approve Dividends	Mgmt	For	For	For

<i>Voting Policy Rationale: A vote FOR is warranted because there are no concerns regarding this proposal.</i>					
3.b	Amend Remuneration Policy	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST is warranted because the proposed remuneration policy is below par in relation to market standards, particularly with regard to the board chair fee, the exceptional awards for the chair of the board, and the structure of the LTIP. Furthermore, the exceptional award has no cap and associated conditions to the grant of the award, which may lead to a concerning grant of discretionary awards.</i>					
3.c	Approve Amended LTI Plan	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this item is warranted because in line with the recommendation under Item 3b and 2c concerns are raised with regard to the potential quantum of the annual award and lacking disclosure of performance targets for the PSU awards. Furthermore, the plan allows for accelerated vesting in case of change-in-control.</i>					
4.a	Approve Discharge of Executive Director	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR is warranted because of the absence of any information about significant and compelling controversies that the board is not fulfilling its fiduciary duties.</i>					
4.b	Approve Discharge of Non-Executive Directors	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST the discharge of the board is warranted because Tiberto Brandolini d'Adda, Ginevra Elkann, and Alessandro Nasi are designated shareholder representatives of Giovanni Agnelli B.V. (Agnelli Family), the beneficiary of the company's unequal voting structure. Since the discharge resolution is currently bundled, it does not allow shareholders to target individuals primarily responsible for, or benefiting from, the unequal vote structure.</i>

	<p><i>Voting Policy Rationale: A vote AGAINST the proposal is warranted. Although the company was adequately responsive to a low say-on-pay vote result, concerns remain in the annual program as well as the granting of new-hire awards. Though the annual bonus was largely based on pre-set objective metrics and payouts were generally in line with recent company performance, a concern is noted regarding the lack of disclosure of a few metric targets and actual performance. Though a majority of the annual LTI grant was in performance equity, a portion of this grant now utilizes a one-year performance period, while the three-year relative portion of the award merely targets median performance. Lastly, two new NEOs received sizeable inducement grants which were entirely in time-vested equity, undermining a pay-for-performance philosophy.</i></p>

6	Approve Remuneration Report	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * One former executive received a payout for the 2021-2023 LTI tranche at 100 percent target achievement while actual achievement level equated to 14.7 percent (which was applied to all other executives). We further note that for several former executives, the LTI appears to have been only measured over a 1.5-year period. * There is some ambiguity regarding agreed termination provisions.</i>

2	Re-elect Alison Baker as Director	Mgmt	For	For	For
<p><i>Voting Policy Rationale: Items 2 and 5 A vote FOR these directors is considered warranted. In considering the election of directors, shareholders will wish to evaluate the circumstances surrounding the CEO's dismissal for serious misconduct, and his misdirection of funds to an unidentified third party. Details are provided in the Material Company Updates section and elsewhere in this report. The conclusion of the investigations has been that internal controls were deliberately overridden by the former CEO. It is recognised that even a rigorous internal control system can potentially be circumvented by an individual with the will to so. Social Advisory Services has also heard from the Company, and accepts it to be the case, that cash considerations for acquisitions in this industry are often delayed, and that the sum itself was not of the magnitude to raise concern. All of this context is important, as is the fact that internal controls have been strengthened in the wake of the investigation. Nonetheless, questions around the oversight of internal controls (which falls within the remit of the Audit Committee) are legitimate and may have resonance when considering the re-election of the Audit Committee members (Alison Baker, the Committee Chair, and Livia Mahler). Items 3-4 and 6-10 A vote FOR these Directors is warranted. It is noted that much of the Board, including the Chair, is new. In addition, there are two representatives of the major shareholder (it is important to note that it was the major shareholder that initiated the investigation).</i></p>

1	Change Jurisdiction of Incorporation from Jersey to Delaware	Mgmt	For	For	For
<i>Voting Policy Rationale: A vote FOR this proposal is warranted. On balance, the reincorporation would be neutral in terms of its impact on shareholder rights. Specifically, the board's rationale for the reincorporation appears sound, as the U.S. is where most of the company's management and operations are based. Moreover, the company is already a U.S. domestic issuer, where it is subject to greater reporting and disclosure obligations.</i>

<i>Voting Policy Rationale: A vote FOR this proposal is warranted because no corporate governance concerns have been identified. 	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, as the exculpation amendment aligns with Delaware law and is considered to reasonably balance shareholders' interest in officer accountability with their interest in recruiting and retaining qualified officers to manage the company.</i>				
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. Some concerns continue with the exceedingly high maximum payout opportunities and annual measurement period for the revenue goal under the LTI program. However, the CEO's LTI awards were primarily performance-conditioned, annual incentives were based primarily on pre-set objective metrics, and total CEO pay did not increase substantially for the year in review. Further, the company's three-year granted vs. realizable CEO pay aligns with the company's strong TSR performance over the performance period.</i>

<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. While annual incentive awards are primarily based on pre-set quantitative metrics, LTI awards remain half performance-based, and closing-cycle PSUs vested below target in line with performance, annual incentive awards paid out above target on metrics with undisclosed or non-rigorous goals, and CEO Gary received additional discretionary cash bonuses. Moreover, the proportion of performance equity in LTI awards was reduced without rationale and the underlying share count of the CEO's equity award increased significantly. Half of PSU awards utilize just a two-year performance period, and vesting levels are subject to a strategic objectives modifier which appears to be discretionary in nature with no disclosed cap on payouts in the event of negative absolute TSR.</i></p>

2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. The STIP lacks disclosure for its metrics' targets, weightings, and results and, though no bonuses were awarded for FY23, concerns are raised with the structure of the program which allows for discretionary bonuses to half of the NEOs. Further, while LTIP equity grants are entirely performance-conditioned and have unusually long vesting periods, awards are made in Class B shares which have preferential voting rights. The CEO has also earned the maximum grant in each of the last three years. In addition, concerns are raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels.</i>

<i>Voting Policy Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned at this time. The annual incentive bonus pool is funded based on pre-set financial goals, although the plan allows for a significant degree of committee discretion. However, an STIP payout cap is expected to be implemented in FY24. Further, equity awards are majority performance-conditioned, the LTIP is measured over a multi-year period, and the relative TSR metric is capped at target in the event absolute company TSR is negative. Nonetheless, continued monitoring of the pay program is warranted as the company continues to undergo pay program changes, particularly given the relatively high payout opportunities.</i>

Voting Policy Rationale: A vote AGAINST this proposal is warranted. Concerns are raised as FY23 compensation for NEOs consisted primarily of large time-vesting restricted shares, with FY23 incentive programs lacking objective performance metrics and quantified goals. In addition, the concerns surrounding the grants are magnified, particularly for two NEOs, as it comes only one year after receiving large performance stock option awards.

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted, with caution. Although certain disclosure is lacking with respect to the annual incentive program, the program remains predominantly based on objective measures and below-target payouts were aligned with performance in FY23. In addition, although FY23 LTI awards were entirely time-based, the committee introduced performance-based equity into the program beginning in FY24. Given these factors, a pay-for-performance misalignment is mitigated for the year under review. However, continued monitoring of the pay program is warranted in light of increasing levels of CEO pay and the company's use of outsized peers.</i>

5	Advisory Vote on Executive Compensation Approach	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: Vote AGAINST this non-binding advisory resolution. The initial quantitative pay-for-performance screen has identified a high concern due to RDA. After applying the financial performance assessment (FPA) test, the overall quantitative pay-for-performance screen exhibited a medium concern. The company's one- and five-year TSR outperformed its 4-digit GICS group, Composite Index and its own peers while the three-year TSR underperformed or performed roughly in line with those benchmarks. The 2023 CEO pay remained the same year over year. Although the company's TSR performance improved in the last year, some significant problematic pay practices have been identified: * The CEO's compensation continues to consist of only large stock option grant (US\$20M annually over the last three years); * In 2023, the COO received a total of US\$75M in equity grants in lieu of his 2024 annual equity award in form of stock options and RSUs, both without any performance-vesting conditions; and * Compensation for other NEOs also does not include any performance-based compensation. In addition, the company's response to the low say on pay support from last year's AGM appears to be insufficient.</i></p>

<p><i>Voting Policy Rationale: A vote FOR this proposal is warranted, as pay and performance are reasonably aligned for the year in review. The CEO received nominal pay in 2023, consistent with the CEO's PRSU award in 2020 that is meant to cover 10 years of compensation. Nevertheless, for the remaining NEOs, there are concerns regarding the primarily subjective nature of the annual incentive plan and the lack of performance criteria in the long-term incentive plan. These aspects warrant further monitoring.</i></p>

	<i>Voting Policy Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned and no significant concerns were identified at this time. In addition, the compensation committee demonstrated sufficient responsiveness to shareholder concerns following last year's low say-on-pay support.</i>				
4	Approve Omnibus Stock Plan	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors: * The equity program is estimated to be excessively dilutive (overriding factor); * The plan cost is excessive; * The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary); * The plan permits liberal recycling of shares; and * The plan allows broad discretion to accelerate vesting.</i>				
5	Advisory Vote on Say on Pay Frequency	Mgmt	One Year	One Year	One Year
	<i>Voting Policy Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.</i>

	<i>Voting Policy Rationale: WITHHOLD votes are warranted for incumbent nominating committee members Alexander Moore and Alexandra Schiff for lack of diversity on the board. WITHHOLD votes are warranted for Governance Committee members Alexander Moore and Alexandra Schiff given the board's failure to remove, or subject to a reasonable sunset requirement, the problematic capital structure and the pop-up classified board structure, each of which adversely impacts shareholder rights. WITHHOLD votes are warranted for Alexander Karp, Stephen Cohen, and Peter Thiel as their ownership of the supervoting shares (through shares held in the Founder Voting Trust) provide them with voting power control of the company. In the absence of a say-on-pay proposal on ballot, WITHHOLD votes are warranted for compensation committee members Alexander Moore and Alexandra Schiff due to a problematic pay practice. The CEO's pay consisted primarily of \$3.2 million in various large perks and other benefits such as a travel stipend, personal security services, personal use of chartered aircraft, and personal tax services. Although the company explains the nature of the perquisites, it did not provide a specific rationale for the size of the perks, which were significant. 	<i>Voting Policy Rationale: A vote FOR this proposal is warranted as pay and performance are reasonably aligned for the year in review. Annual incentives were determined by pre-set financial metrics, with performance targets that were set above the prior year's targets and achieved results. In addition, half of target long-term incentives are performance conditioned and measured over a multi-year period.</i>				
3	Ratify PricewaterhouseCoopers as Auditors and Authorise Their Remuneration	Mgmt	For	Against	Against
	<i>Voting Policy Rationale: A vote AGAINST the ratification of the company's auditor is warranted given that non-audit fees represent 26.62 percent of the total fees received by the auditor during the fiscal year, raising substantial doubts over the independence of the auditor.</i>

<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although overall pay magnitude was reasonable, a significant portion of annual incentives were discretionary and the lack of disclosure of performance targets and results impairs shareholders' ability to evaluate the pay-for-performance alignment of the program. Transparency into retention bonuses to the NEOs was also lacking. In addition, equity awards to the NEOs other than the CEO lacked any performance criteria, and a significant portion of RSUs to two NEOs vested immediately.</i></p>

Proposal Number	Proposal Text	Proponent	Mgmt Rec	Voting Policy Rec	Vote Instruction
3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	For	For
<p><i>Voting Policy Rationale: A vote FOR the proposal is warranted, with caution. After two consecutive failed say-on-pay vote results, the compensation committee made a number of positive changes to the pay program in response to shareholders and was therefore adequately responsive to shareholder concerns. In connection with the introduction of an annual bonus structure, FY23 target bonus opportunities were relatively large, however, the bonus was based on pre-set financial metrics, and the FY24 bonus will cover all NEOs with significantly lower target values. The LTI grant remained based entirely in time-vested stock options for FY23, and half of the total grant vested immediately upon grant. While the FY23 LTI structure remained an outlier, this structure will be replaced in FY24 by a program split evenly between PSUs with a multi-year performance period and time-vested RSUs. The FY24 improvements are meaningful and intended to address many perennial concerns with the program, though the pay program changes and certain other issues warrant continued monitoring, including relatively large base salaries and pay magnitude in the context of a co-CEO structure.</i></p>					
4	Report on Use of Artificial Intelligence	SH	Against	For	For
<p><i>Voting Policy Rationale: A vote FOR this proposal is warranted, as improved transparency and the disclosure of ethical guidelines would provide shareholders the ability to evaluate the benefits and risks associated with the company's use of AI as well as the actions the company is potentially taking to mitigate those risks.</i></p>					
5	Establish Committee on Corporate Sustainability	SH	Against	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this resolution is warranted, as the company's existing board oversight appears adequate to address issues related to corporate sustainability and the board should generally be given latitude to determine its committee structure.</i></p>					
6	Amend Director Election Resignation Bylaw	SH	Against	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted, as there are no recurring issues or specific concerns at the company that suggest the proponent's more-stringent director resignation policy is necessary at this time.</i></p>					
7	Amend Code of Ethics and Report on Board Compliance with the Amended Code	SH	Against	For	For
<p><i>Voting Policy Rationale: A vote FOR this proposal is warranted, as more comprehensive information on how the board checks and verifies board member compliance with the Code of Ethics would provide assurance to shareholders that the company is adhering to its policies with respect to diversity, equity, and inclusion (DEI). Furthermore, the adoption of this proposal would enhance the company's current measures for ethical conduct and oversight and allow better insight into the effectiveness of the company's DEI efforts.</i></p>					
8	Reduce Ownership Threshold for Shareholders to Call Special Meeting	SH	Against	For	For
<p><i>Voting Policy Rationale: A vote FOR this proposal is warranted as a lower ownership threshold would provide for a more useful special meeting right for shareholders.</i></p>

A pay-for-performance misalignment is sufficiently mitigated at this time. Former CEO Lawson's total FY23 compensation was limited to just his base salary. 3	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against	Against
<p><i>Voting Policy Rationale: A vote AGAINST this proposal is warranted as a pay-for-performance misalignment has been identified. Although the annual incentives are based on pre-set objective measures, the equity awards were entirely time-vesting. Concerns are also raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels. Furthermore, the company has not disclosed any environmental or social performance measures as a part of both its short- and long-term incentive plans for executives and the company has not adopted compensation risk mitigators, such as a clawback policy, CEO stock ownership guidelines, or stock holding period requirements.</i></p>
