| | *Voting Policy Rationale: A vote AGAINST this proposal is considered warranted because: * Concerns have been identified with the departing CEO's exit arrangements, in particular the Company's decision to pro-rate his outstanding LTIP awards until after his retirement date and following a further 12 month period during which time he will provide advisory services to the Company. Furthermore, the Company has chosen to accelerate vesting of these awards to 30 June 2024 and estimate the performance for the ensuing year in determining the amount that should vest. Lastly, he is not subject to the post-vesting holding period for the LTIP awards. * The incoming CEO received a one-off exceptional award to incentivise a strategic initiative.* | | | | |

| 3 | Approve Updated Compensation Policy for the Directors and Officers of the Company | Mgmt | For | For | |
| | *Voting Policy Rationale: A vote FOR this item is warranted because the company discloses sufficient information and rationale on its amended compensation policy. However, qualified support is warranted because: * The amended cap on equity awards is substantially increased and raises some level of concern. The proposal entails a 33 percent increase to the maximum cap of up to ca. USD 26 million in annual RSU grants. * The potential of a USD 26 million RSU grants is substantially above market. Although median value of LTI grants of company-selected peers approximates USD 20 million, we note that median LTI grant value of ISS-selected peers for the company-selected peers is ca. USD 10 million. However, these concerns are somewhat mitigated by: * The proposal entails a theoretical cap whereas actual company practice is not concerning with a ca. USD 8 million annual grant value, being aligned with common market practice; * Any RSU grant to the CEO is subject to separate shareholder approval and hence the maximum cap is symbolic and shareholders can separately assess the merits of the separate RSU grants; and * We acknowledge the company is in the market for a new CEO.* | | | | |
| 4 | Approve CEO Equity Award | Mgmt | For | Against | |
| | *Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The company failed to disclose sufficient information regarding the value of the CEO's proposed compensation, preventing shareholders to assess the level of the payout opportunity; * The proposed vesting period is shorter in duration than the recommended guidelines and the possibility to accelerate the vesting within a short period is not in line with the pay-for-performance principle and Israeli market practice; * Despite the CEO`s impending departure within the following year and the short vesting period of the equity awards, the terms provide only limited guidance on the performance criteria used to determine the PSUs, thus leaving excessive room for board discretion and preventing shareholder to assess the rigor of the plan.* | | | | |

| | *Voting Policy Rationale: A vote FOR the proposed capital increase is warranted because of the compelling strategic rationale for the combination with Sabadell, which would allow the company to pursue consolidation in the European and more specifically Spanish banking landscape. It is noted that the omission of support from Sabadell's board and the pending regulatory approvals create uncertainties about the success of the offer and the subsequent integration and value creation for the combined group.* | | | | |

| | *Voting Policy Rationale: A vote FOR the remuneration report is considered warranted, although it is not without concern because: * No material changes to the J2G arrangements have been made in response to a material level of dissent received. Questions may be raised in relation to whether this response appropriately acknowledges shareholder concerns and the level of dissent received in previous years. The main reasons for support are: * The Company's update statement provides considerable information in relation to the reasons some shareholders voted against its remuneration report resolution at the 2023 AGM; * In the aftermath of the 2023 AGM, the Company wrote to its 30 largest shareholders (81% of its register) offering to engage further; and * No other material concerns have been identified in relation to remuneration outcomes during the year under review.* | | | | |

| | *Voting Policy Rationale: A vote FOR the remuneration report is warranted although this is not concern without because: * Pay within the sector as a whole is controversial , given the focus on river pollution. In Severn Trent's case, a GBP 2 million fine was imposed this year, due to a pollution incident in 2019-2020, with reputational consequences. However, the issues besetting the Company are not unique to it. In fact, Severn Trent is the only company in the sector to consistently attain 4 star EA status. There have been no serious pollution incidents during the year, and the proportion of pay geared towards river health has increased, with the occurrence of a serious pollution incident serving as an underpin to automatically reduce outcomes, going forward. See Material Company Updates for further context.* | | | | |

| | *Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concern because: * The EPS targets linked to the LTIP awards that vested during the year were adjusted upwards, resulting in the payout of this element, which would otherwise be nil. | | *Voting Policy Rationale: A vote FOR this resolution is warranted, although it is not without concerns because: * The Company is proposing to increase the maximum bonus and LTIP opportunities, adding an additional 50% of salary to each. Taken together, an additional 1x salary to the variable package is considerable. The revised bonus award level, in particular, is quite high for a company of this size and in this sector. The main reasons for support are: * The revised total pay package remains around the median of FTSE 100 UK retailers, and the new LTIP limit is not considered out of line. There is also no immediate intention to use the headroom for the CFO. The general remuneration framework adheres to current UK market norms.* | | | | |

| 3 | Approve Remuneration Report | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the remuneration report is warranted. * Executive remuneration outcomes were lower in FY24, in line with the decrease in financial results. * The total profit share paid to current KMP executives was $80.2 million, down 46 percent from FY23 (compared to a 22 percent increase from FY22 to FY23). * The CEO's awarded profit share was $23.7 million (of which $16.6 million is retained), down 26 percent on the prior year. * Upon resignation of the former Head of CGM disclosure indicates that all unvested retained profit share and PSUs were forfeited, noting that the value of the retained profit share is approximately $123.0 million. The qualification is to highlight persisting concerns regarding the following: * Quantitative Pay for Performance analysis continues to indicate a high degree of concern for misalignment of pay, performance and shareholder outcomes. * There is continued absence of any disclosure of pre-set target and maximum incentive opportunities, metric weightings, and transparent pre-set threshold, target and maximum goals. * Individual profit share award determinations and by extension, a majority of executive remuneration outcomes, while having some regard to financial and non-financial factors, are discretionary. * Despite the decrease in the CEO's FY24 profit share allocation, her total remuneration remains excessive when compared to the top 25 Australian companies and certain selected local market industry peers, and when compared to the company's global selected peer group.* | | | | |
| 4 | Approve Participation of Shemara Wikramanayake in the Macquarie Group Employee Retained Equity Plan | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR this resolution is warranted, primarily on the basis that the structure and quantum of the PSUs are sufficiently consistent with the local market and improved shareholder interests. The deferral of the RSUs and the PSUs are consistent with local market regulatory requirements and shareholder expectations noting the significant quantum of total CEO and executive remuneration, with a five-year deferral period for RSUs and a four-year performance period for the PSUs (plus a one-year holding lock for the CEO from FY24). This is combined with two unchanged financial performance measures - relative ROE and EPS CAGR, and malus provisions. Concerns that justify the qualified nature of the vote recommendation include * The high quantum of the RSU awards, which are well in excess of similar sized companies in the ASX 1-25 and a local market industry peer group, as well as certain global financial institution peers cited by the company, and * The false choice, that if the resolution is not passed by shareholders, the company with consider an alternative form of payment.* | | | | |

| 3 | Advisory Vote on Executive Compensation Approach | Mgmt | For | For | For |
| | *Voting Policy Rationale: Vote FOR this non-binding advisory resolution at this time. The quantitative pay-for-performance screen has identified a high concern, driven by the company's relative degree of pay-and-performance alignment (RDA). The high RDA score is driven by the large option award to the now former CEO in 2022. For fiscal 2024, the reappointed founder/CEO did not receive any grants for annual long-term incentive compensation. He voluntarily assumed a base salary of $1 to help facilitate the company's long term profitable growth strategy. Given the nominal compensation, the pay-for-performance concern level is low at this stage. In addition, the founder/CEO is a significant shareholder, and his long-term interests in the company seem to be in alignment with those of long-term shareholders. As such, a vote FOR the say-on-pay resolution is warranted.* | | | | |

| | *Voting Policy Rationale: A vote FOR this item is warranted, but is not without concern for shareholders: * Certain additional NED fees are increased significantly. * The proposed fees include the potential for NEDs to receive fees for additional work committed to the Group. Large fees paid for such work may undermine NED independence. The main reasons for support are: * Similar proposals have been approved previously, and there is no evidence of the NEDs having provided consultancy work at a level which would potentially impact their independence in previous years. * The overall level and structure of NED fees do not appear excessive for a bank of this size.* | | | | |

| | *Voting Policy Rationale: A vote AGAINST is warranted because: * The quantum of total pay package remains high, particularly the vested value of LTI awards with a portion not subject to performance conditions. * The exit arrangement with former CEO Bob van Dijk is in deviation of market practice, particularly as his pay package continued for 6 months post-mandate under an advisory capacity, including STI and LTI. * The SAR plan is not sufficiently transparent and share options are not tied to separate performance conditions. * The quantum of the overall realized package for FY 2023/2024 is considered excessive (USD 19.9 million) and represents 12.8x lead executive peer median pay package. * A substantial part of the LTI awards vest before the third anniversary in deviation of best practice recommendations. * The quantum of discount linked short term incentive awarded is considered excessive. The CEO received a USD 3.4 million bonus for reducing the perceived valuation discount to NAV, but which appears to be mainly resolved by selling off Tencent shares and repurchasing company stock, without it necessarily being linked to company performance.* | | | | |

USD 163 million), (ii) significant proportion of long-term incentives that are not performance-related, (iii) absence of clear award levels under the LTI, and (iv) a substantial portion of the LTI vests before the third anniversary and start vesting after the first anniversary of the grant.* | | | | |

| 2 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR this proposal is warranted as mitigating factors for the pay-for-performance misalignment have been identified for the year in review. The CEO's annual incentive was entirely determined by objective metrics with reasonably rigorous targets, and NEOs did not receive payouts as a result of below-threshold performance. In addition, half of long-term incentives were performance conditioned, PSUs are measured over a multi-year period, and forward-looking performance targets are disclosed.* | | | | |

| | *Voting Policy Rationale: A vote FOR the remuneration report is considered warranted, although it is not without concerns for shareholders: * Shareholders may reasonably question whether the significant increase in LTIP award opportunity for FY2025 has been met by a commensurate increase in the stretch of performance targets. * The bonus opportunities for both EDs are being materially increased for FY2025, primarily driven by benchmarking. * The NED fee levels have been increased at a rate above the workforce's average increase, and no explanation has been provided by the Company in the meeting materials. The main reasons for support are: * Concerns with the LTIP are reflected in the vote recommendation attributed to the remuneration policy resolution. * The increased bonus maximums continue to fall within the approved policy limit. * The resulting NED fee levels are not considered out of line with Company peers.* | | | | |

| | *Voting Policy Rationale: A vote FOR this proposal is warranted. Following last year's low say-on-pay vote, the compensation committee engaged with investors, disclosed their specific feedback, and took action to address shareholders' expressed concerns. Although some concern is noted regarding an overlapping metric in the STI and continued use of relatively short-term vesting in the LTI program, pay and performance were reasonably aligned for the year in review.* | | | | |

| | *Voting Policy Rationale: A vote FOR this transaction is warranted. Although the offer represents a discount to the stock's one-year high, the unaffected price appears to be a more appropriate anchor for value than the stock's historical trade range, and there has been no public opposition to the proposed deal terms. Further, the value of the merger consideration represents a premium to the unaffected price, the cash form of consideration provides liquidity and certainty of value, and there is potential downside risk of non-approval.* | | | | |

The potential quantum of the one-off options remains a concern. The main reasons for support are: * There have been no fresh grants or vesting of the share options; * No salary increases have been granted to Executive Directors for next year; and * With regard to pay and performance alignment, the Company's long-term RoE leads the sector.* | | | | |

In the prior three years, the company received 78 percent, 45 percent and 29.5 percent shareholder support for its say-on-pay proposals at its 2021 AGM, 2022 AGM and 2023 AGM, respectively. The CEO did not receive any special one-time awards in Fiscal 2024 and CEO's total pay decreased by 37 percent compared to Fiscal 2023 and 7 percent compared to Fiscal 2022. However, the quantitative pay-for-performance screen has continued to identify a high concern. Excluding Fiscal 2023's special bonus and one-time performance stock options, CEO total compensation increased slightly by 5 percent year over year. The company's TSR underperformed its 4-digit GICS peer group median and the S&P/TSX Composite Index on a one-year and five-year basis. The company has significantly underperformed its self-disclosed peer group on a one-, three-, and five-year timeframe, while the CEO's 2024 compensation appears to be near the peer median. The company has failed its say-on-pay vote two years in a row. While the company has engaged with its shareholders since the last AGM and made some positive changes to CEO pay to address certain shareholder concerns over CEO compensation design, the CEO pay-for-performance misalignment continues to exist compared to its self-disclosed peers as well as Social Advisory Services Canadian peers. As such, shareholders are advised to vote AGAINST the say-on-pay resolution.* | | | | |

| 3 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: The compensation committee demonstrated sufficient responsiveness to last year's low say-on-pay vote. However, a vote AGAINST this proposal is warranted due to an unmitigated pay-for-performance misalignment. Concerns are raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels. Furthermore, while the STI and LTI programs were based primarily on clearly disclosed objective goals, and the company made certain commitments and structural improvements in response to shareholder feedback, concerns are raised surrounding off-cycle awards provided to the CEO and CFO. FY24 marks the second consecutive year in which off-cycle awards were granted to these executives and neither forward-looking goals nor metric weightings are disclosed in the proxy.* | | | | |

| | *Voting Policy Rationale: A vote FOR this proposal is warranted. Compensation for the CEO is primarily paid by the external manager under a management services agreement. Although this arrangement can result in limited pay disclosure, in this case the company provides sufficient disclosure of the pay programs. While certain pay magnitude concerns are highlighted, a rigorous STI program, predominantly performance-based LTI program, and pay outcomes mitigate these concerns for the year in review.* | | | | |

| 3 | Approve Remuneration Report | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR the remuneration report is considered warranted, although it is not without concern because: * The Company has given its EDs substantial salary increases between 11.7% to 19.5%. The main reason for support is: * The salary increases and the increased headroom to the normal PSP opportunity would bring the EDs' total remuneration opportunities between the lower quartile and median versus the Company's peer group. Given the Company's positioning in the mid-FTSE 100 this is not considered egregious. * It is noted that the Company has a recent history of below workforce salary increases for its EDs, with no evidence of regular benchmarking exercises. * Variable pay opportunities, taking account of the amplified PSP opportunity, are not excessive and have not been regularly increased.* | | | | |

The recommendation is qualified to raise concerns for the substantial sign-on bonus paid to new GE PC&C Kathryn van der Merwe which is inconsistent with good governance standards in the Australian market. | 5 | Approve Increase in Non-Executive Director Fee Pool | Mgmt | None | For | For |
| | *Voting Policy Rationale: A vote FOR the increase in the non-executive director fee pool is warranted. The company disclosed that the rationale for the proposed increase is to provide the necessary flexibility to continue to facilitate board renewal and board and committee composition changes in an orderly manner. There does not appear to be sufficient headroom to appoint an additional director under the current fee pool. Some concerns are raised for the level of Chair and director fees paid in FY24, noting that they continue to be in excess of the median of similar-sized companies in the ASX 26-50 peer group. In mitigating concerns somewhat, the are no proposed changes to board fees in FY25.* | | | | |
| 6 | Approve Renewal of Proportional Takeover Provisions in the Constitution | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR this resolution is warranted on the basis that the passing of this resolution will ensure that shareholders will have an ability to vote to accept or reject a proportional takeover bid. This is superior to any potential disadvantages that may arise from such a constitutional inclusion.* | | | | |
| 7 | Approve Remuneration Report | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR the remuneration report is warranted. There is a low concern for misalignment in quantitative pay for performance analysis. There was no fixed remuneration increase to the CEO, STI bonuses appear to be aligned with performance, successive years of share price appreciation and the sale of the Bank business to ANZ, and LTI vesting was not subject to additional board discretion.* | | | | |
| 8 | Approve Grant of Performance Rights to Steven Johnston | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the FY25 LTI grant is warranted. * The company has increased the performance period to four years, being consistent with better market practice and other APRA-regulated entities; * There is a 70 percent majority weighting to relative TSR, being sufficiently aligned with shareholder outcomes and market practice; and * The remaining 30 percent of the LTI is based on non-financial measures as required by APRA Prudential Standard CPS 511, with increased deferral of vesting out to six years (equally over years four, five, and six). The qualification is to highlight concern and potential misalignment with shareholders. There is a 30 percent weighting to a "customer satisfaction" measure and "trust and reputation" measure which are not considered to be well aligned with non-financial targets which more closely related to risk and prudential matters being the subject of APRA's oversight, or in addressing the issues and risks identified in the 2018 Royal Commission.* | | | | |

| | *Voting Policy Rationale: A qualified vote FOR this election is warranted because: * The nominee is elected for a term not exceeding four years; * The candidate appears to possess the necessary qualifications for board membership; and * There is no known controversy concerning the candidate. However, the proposed base salary for Tom Adams is 44.93 higher than the current CTO and is granted a sign-on bonus without the company providing any compelling rationale nor how the size of the bonus has been determined and whether it is in line with the value of forfeited awards at previous employer. Furthermore, the sign-on bonus includes a RSU part which will vest as of the first anniversary of grant and for 4 years equally, which is not in line with best corporate governance practices as it vests before the third-year anniversary of grant.* | | | | |

| | *Voting Policy Rationale: A vote FOR the resolution to increase the NED fee pool is warranted: * The current level of fees paid to NEDs and the chairman are not excessive and observed to be below the average of fees in the NZX-listed market cap peer group of companies in the NZ$2.80 billion to NZ$7.15 billion range. * The proposed increase in the directors' fee pool is intended to provide sufficient flexibility for the company to appropriately remunerate directors for additional board and committee work including special projects and situations, and to better reflect the increased level of governance responsibilities. * The NED fee pool has not been increased since 2019. The proposed change in fee pool presents a modest year-on-year increase of approximately 3.1 percent since that period.* | | | | |

However, we do note that the proposed election will expire on the 2029 AGM, which is in excess of four-year term. This is mitigated by the fact that as this election is proposed during an EGM which is held between the 2024 and 2025 AGMs, it is common practice in Netherlands to start counting the term of the nominee as of the next AGM, which is the 2025 AGM.* | | | | |

| 3 | Approve Remuneration Report | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the remuneration report is warranted. * STI bonuses appear sufficiently aligned with the company's FY24 performance, and LTI vesting is in line with shareholder-approved performance targets. * The company introduced changes to the ROIC performance metric for LTI grants from FY24 onwards which are now better aligned with accepted market practice, and the company has returned to disclosing the specific and quantified targets of the financial measures in the STI. The key concerns to be highlighted include: * The quantum of the CEO's full year total remuneration is well above Australian market medians and leading to a high concern in quantitative pay for performance analysis. * The STI bonus continues to be subject to achievement of non-financial performance measures representing 40 percent of the STI scorecard, with many of these objectives appearing to be 'day job' responsibilities of executives. * The granting of excessive sign-on bonuses to new senior executives persists and erodes the value of STIs and LTIs if they are so readily replaced with sign-on payments from a new employer. * The Chairman's fees remain well above market median.* | | | | |
| 4 | Approve Grant of Performance Share Units to Paul McKenzie | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the grant of PSUs to the CEO is warranted. Apart from the introduction of a one-year holding lock, the structure of the grant is essentially the same as in the prior year with ROIC and EPS growth targets over a three year performance period. The qualification is raised to highlight the following persisting concerns: * The quantum of the CEO's FY25 LTI grant is excessive, given it is well above the median of both Australian market capitalisation (ASX1-25) and industry peers, being 3.3x and 4.4x the median, respectively. * The EPS growth and ROIC performance hurdles being set a less challenging levels compared to the prior year: * EPS growth: threshold level commences at a growth rate of 12.4 percent p.a. (FY24: 15.6 percent) and maximum vesting at a targeted growth rate of 13.8 percent p.a. or above (FY24: 17.3 percent). * ROIC: maximum vesting at 12.3 percent average ROIC (previous grant was 12.8 percent) * A three-year performance period may be considered by shareholders as inferior to similar-sized companies in the ASX 1-25 peer group.* | | | | |

| 2 | Approve Remuneration Report | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR the remuneration report is warranted. Support is in the basis of the following: * No fixed pay increases for the outgoing CEO in FY24; * STI bonuses were well below maximum reflecting the company's financial performance and external scrutiny on the company, and there was no LTI vesting; and * In response to the 'first strike', the company has made appropriate changes to how Safety performance is assessed. Concerns are raised to highlight the following: * A high level of concern for misalignment is identified in the quantitative Pay for Performance analysis – this is mitigated by the nil LTI vesting in FY24 and lower levels of LTI vesting in two prior years. * Given the significant public and political scrutiny on the company as well as the ACCC legal action, shareholders may rightly expect for further adjustments to FY24 STI bonuses to be made once the outcomes of the legal action and regulatory findings are known. * The emphasis on non-financial measures in the STI scorecard continues to be overly high. * The structure of the FY24 and FY25 LTI grants continue to be inconsistent with best market practice given the inclusion of the non-financial performance measure regarding reputation. Shareholders may see reputation metrics in incentive plans as fundamentally impacting the entire business, and more appropriately used as a "gateway" to the payment of substantial STI and LTI bonuses.* | | | | |
| 3a | Elect Maxine Brenner as Director | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST incumbent nominating committee members Maxine Brenner and Philip (Phil) Chronican is warranted for lack of diversity on the board. | 4 | Approve Grant of Performance Share Rights to Amanda Bardwell | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the grant of rights to the CEO is warranted. While the award structure is broadly consistent with prior year grants (including relative TSR, ROFE and "Reputation" performance measures over a 3-year performance period) and has been pro-rated for the periods served as CEO Elect and CEO in FY25, concerns that warrant qualification and ongoing scrutiny including: * Provision for dividends on unvested shareholders, * Performance targets for the two internal performance measures representing 60 percent of the award are not disclosed and lack transparency, * The relative TSR performance measure does not have a positive TSR gateway to ensure bonuses are aligned with a positive return to shareholders, * The non-financial Reputation performance measure may by problematic and result in misalignment with performance and shareholder returns, and * A three-year performance period is now considered inferior when compared with other large-listed companies in the ASX100.* | | | | |
| 5 | Approve Conditional Spill Resolution | Mgmt | Against | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST the spill resolution is warranted. A spill of the entire board is presently not considered to be in the best interests of investors. The company has addressed shareholder concerns and made appropriate changes to how Safety performance is assessed in FY24, with additional changes forecast for FY25. In addition, the board will consider whether any further adjustment to FY23 STI outcomes is appropriate once all relevant regulatory investigations are complete. Some shareholders may have regard for the significant public and political scrutiny on the company as well as the ACCC legal action which alleges that the company breached Australian Consumer Law, and may choose to hold directors accountable once the results of these findings are determined.* | | | | |

| 6a | Approve the Amendments to the Company's Constitution | SH | Against | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this resolution is warranted, as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals. The Board has confirmed its willingness to consult with the shareholder proponents with a view to addressing shareholder requirements, and to disclose the proxy's at the AGM and publicly discuss the resolutions at the AGM.* | | | | |
| 6b | Approve Farmed Seafood Reporting | SH | Against | For | For |
| | *Voting Policy Rationale: A vote FOR the approval of Farmed Salmon Reporting is warranted. The requested reporting on the impacts of farmed seafood the company procures for its Own Brand products on endangered species, at reasonable cost and omitting confidential information does not appear to be unreasonable, excessively onerous, and is in-line with the company's own sustainability reporting practices. There is no reference in the 2024 Sustainability Report to salmon production in Macquarie Harbour, which may indicate an additional uplift in the company's disclosure is required as contemplated by this resolution. Some shareholders may also have regard to the shareholder proponents' assertion that the company is ranked the worst of Australia's 20 largest food companies on assessing and disclosing nature risk, and that additional reporting on its farmed salmon supply chain may be reasonable at this time.* | | | | |
| 6c | Approve Farmed Salmon Sourcing | SH | Against | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST his resolution warranted. The request of the shareholder proponents for the company to cease procuring farmed salmon from Macquarie Harbour in Tasmania by no later than 30 April 2025 appears to be overly prescriptive at this time.* | | | | |

| 3 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR this proposal is warranted. A pay-for-performance misalignment exists for the year in review, though mitigating factors have been identified. The CEO's total pay decreased year-over-year. Short-term incentives were based entirely on financial metrics, and the CEO did not receive an annual incentive payout for the year in review. Further, equity awards are half-performance-conditioned and relative TSR targets above-median performance, though continued monitoring is warranted, as above-target vesting occurred for the relative TSR PSUs despite what appears to be negative absolute TSR performance over that same time period.* | | | | |

| 9 | Approve Compensation of Alexandre Ricard, Chairman and CEO | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR this remuneration report is warranted, although the following concerns are raised: * The bonus structure allows a compensation effect between criteria at max level. * As in past years, it remains difficult to ascertain that non-financial criteria are stringent enough without the disclosure of a full vesting scale. * The performance criteria attached to the granted LTI awards are not considered stringent enough. * The level of disclosure under the LTI instruments may be considered as misleading. The main reasons for support are: * The risk of compensation effect between bonus' criteria did not materialize this year. * The 2024/2025 remuneration policy will amend the vesting scale under the LTI's relative TSR criterion, deleting the possible vesting below median. * The absence of any other significant concern.* | | | | |
| 10 | Approve Remuneration Policy of Alexandre Ricard, Chairman and CEO | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this remuneration policy is warranted, despite the removal of compensation effects in the bonus structure and the strengthening of the relative TSR and CSR criteria attached to the LTI plan, because: * The company provides no disclosure as to how the LTI grant will be adjusted within the new cap during the mandate, conveying the impression that it is reviewable every year at the sole board discretion and that systematic grant at cap level could become the rule after the current FY. * The company does not specify where the executive's global remuneration package would rank compared to peers, following the approval of such increase by the AGM. * The PRO-relative condition under the LTI plan remains not stringent enough as its vesting would start below budget; and * The policy enables exceptional remunerations without specifying a cap for such payments.* | | | | |

| | *Voting Policy Rationale: A vote FOR this item is raised although it raises some concerns as: * There is no performance condition attached to this proposed restricted stock plan. The main reasons for support are: * The beneficiaries would be employees (possibly including members of the executive committee) as part of recruitment or talent retention. * The executive corporate officers would not beneficiaries of such a plan.* | | | | |

| 3 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this proposal is warranted. While total CEO pay declined for the year in review, certain structural concerns were identified in the pay program. Specifically, there are ongoing concerns surrounding high base salaries and relatively large payout opportunities. Additionally, the majority of annual equity awards granted to NEOs continue to lack performance-vesting criteria. Finally, concerns are noted surrounding the limited disclosure of quantified performance targets for a portion of the CEO's annual incentive that was at risk. In light of these concerns, the quantitative pay-for-performance misalignment is not mitigated. Finally, concerns are raised with respect to high CEO pay relative to company performance compared to the company's peers and high CEO pay in relation to company peer group CEO median pay levels.* | | | | |

| 2 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST the proposal is warranted. While CEO pay and company performance were reasonably aligned for the year in review, there are concerns noted within the pay program. Most notably, annual equity grants to certain NEOs do not utilize performance-conditioned equity, which is inconsistent with prevailing market practices as well as contrary to recent shareholder feedback. Additionally, though disclosure surrounding security fees to Chairman Ellison improved in FY24, continued monitoring is warranted, as the value of this perquisite remains outsized.* | | | | |

While the company offers an option to employees that want to invest more responsibly, it is unclear how well employees understand the retirement plans available to them. The information requested in the report would not only complement and enhance the company's existing commitments regarding climate change, but also allow shareholders to better evaluate the company's strategies and management of related risks.* | | | | |

| 2 | Approve the Increase in Maximum Aggregate Remuneration of Directors | Mgmt | For | For | For |

*Voting Policy Rationale: A qualified vote FOR the proposed increase in the maximum aggregate remuneration of non-executive directors is warranted: * Disclosure indicates that the proposed increase in the NED fee cap is primarily intended to provide the board with sufficient flexibility to remunerate directors for any additional committee fees or ad-hoc SKY Network responsibilities. * There is no proposed increase in individual director fees other than the chair fee. * The NED fee pool has not been increased since October 2015. The proposed change in fee pool presents modest year-on-year increase of approximately 2 percent since that period. * The proposed increase in directors' fee pool is reasonable and not inconsistent with the company's financial performance over the year. The qualification is to highlight that the proposed increase to the chairman and NED's fees will move them to materially exceed the average of market capitalisation peers. Some shareholders may wish to engage with the company in this regard.*

No material misalignment has been observed between pay and performance and shareholder returns for the period under review. * All components of the CEO's remuneration are in line with market capitalization peers. * FY24 STI bonuses are well aligned with improved financial outcomes. * LTI vesting at 0 percent is in line with performance targets. * Disclosure of specific financial and operational performance targets in the STI and LTI is at a high level and in line with superior market practice.* | | | | |

| | *Voting Policy Rationale: A qualified vote FOR this proposal is warranted. The increase in fee cap of $200,000 is reasonable and director fees are comparable to the median at market capitalisation peers. The qualification relates to the following: * The company did not specify whether the increase is necessary for any additional board appointments; * There appears to be sufficient headroom available for increases to board/committee fees; and * Increases to director fees were relatively large in FY22 and FY23.* | | | | |

| | *Voting Policy Rationale: A qualified vote FOR the grant of performance rights and restricted rights to the CEO is warranted. The terms and conditions of the performance rights are sufficiently consistent with the prior years' grants and shareholder interests. Concerns that warrant the qualification include: * Quantum is relatively high; * Granting half the award in restricted rights with ongoing tenure conditions is not well aligned with better market practice. The mitigating feature is that a positive TSR gateway will ensure a degree of alignment with shareholder returns, such that this is not just a completely service-based award. * Provision of dividend equalization payment for vested rights is inconsistent with good governance where there is no entitlement to dividends until the award has been achieved on vesting.* | | | | |

The qualification is raised to highlight concerns that the grant uses absolute performance targets only. There is currently no hurdle linked to outperformance relative to peers for the LTI, which raises the possibility that executives are rewarded for factors resulting from market movements.* | | | | |

| | *Voting Policy Rationale: Vote AGAINST this resolution. While the strategic rationale makes sense and shareholders will retain ownership in an economically equivalent security, the proposed articles of New Corporation contain a number of provisions offside Canadian market best practices. Importantly, the New Corporation articles have an amended quorum requirement for shareholders' meetings such that Brookfield (as a holder of both Class A and Class B shares) may constitute a quorum for shareholders' meetings with votes that do not require a separate vote by a class or series. On balance, given the foregoing governance considerations, this resolution is not supportable.* | | | | |

| 3 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although the STIP had rigorous goals based on two financial metrics, concerns remain regarding the LTIP. The majority of PSUs in the LTIP are still based on a one-year performance period and the newly introduced relative TSR metric targets only median performance. Additionally, compelling rationale was not identified regarding the CEO's outsized annual equity award, especially considering that the company's TSR was negative and significantly underperformed during the year in review.* | | | | |

| | *Voting Policy Rationale: A vote FOR this proposal is warranted, as the exculpation provision permitted by Delaware law is considered to reasonably balance shareholders' interest in officer accountability with their interest in attracting and retaining qualified officers to serve the company.* | | | | |

| 3 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR this proposal is warranted. Although pay-and-performance were misaligned for the year in review, concerns are sufficiently mitigated for the year. Annual incentives are largely based on objective financial metrics, and below-target payout was commensurate with financial performance. Further, the LTI are majority performance-based with relative TSR targeting outperformance, and prior-cycle PSUs paid out below target consistent with share price performance. Nevertheless, continued monitoring of pay outcomes and award opportunities is warranted.* | | | | |

## D'Ieteren Group

| Proposal Number | Proposal Text | Proponent | Mgmt Rec | Voting Policy Rec | Vote Instruction |
|---|---|---|---|---|---|
| | *Voting Policy Rationale: A vote AGAINST is warranted because: * The proposed exceptional dividend is not supported by a compelling strategic rationale for the company, particularly in light of the substantial increase in debt and consequently adjusted risk profile of the company. * The dividend and related (opportunity) costs appear particularly designed to enable an intra-family shareholding transaction, whereby the D'Ieteren family holding is consolidated into one family branch, without there being clear and obvious benefits for all shareholders. * Significant concerns are raised with regard to the changing leverage profile of D'Ieteren and subsidiary Belron, without there being a clear investment case to leverage up and diminish investment opportunities on the short to medium term for D'Ieteren. * The negative market reaction (one-day minus 6.9 percent and by 12.21 percent as per Nov. 15, 2024).* | | | | |

| 3.1 | Approve Change-of-Control Clause Re: Senior Facilities Agreement | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST is warranted because a concern is raised in the absence of clear disclosure regarding the senior facilities agreement or its potential impact in case of change-in-control. Furthermore, we do note that the company is considering high debt raisings, without a compelling rationale.* | | | | |
| 3.2 | Approve Change-of-Control Clause Re: Potential Transfer of Pledged Assets | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST is warranted because the proposed resolution is to approve change-of-control provisions that includes the pledging of company's assets under financing agreement that aim to finance the extraordinary dividend of EUR 74.00 per share (see Item 1), which does not warrant shareholder support. The extraordinary dividend appears designed for the purpose of financing an intra-family transaction in D'Ieteren shares whereas shareholders are faced with the related financing costs, riskier leverage profile, and reduced investment capacity.* | | | | |
| 4 | Authorize Implementation of Approved Resolutions and Filing of Required Documents/Formalities at Trade Registry | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST is warranted since approval of this item would allow the company to file any required documents or formalities in relation to the implementation of the approved resolutions under Items 1, 3.1 and 3.2, which does not warrant shareholder support.* | | | | |

Annual incentives were primarily based on objective criteria and the CEO's long-term awards were entirely performance-conditioned. The cash incentive payout was reduced at the CEO's request this year. However, the CEO's base salary and STI payout opportunities remained relatively large and long-term incentives rely primarily on annual performance periods.* | | | | |

| | *Voting Policy Rationale: A vote for the adoption of an ANNUAL say-on-pay frequency is warranted. Annual say-on-pay votes are considered a best practice as they give shareholders a regular opportunity to opine on executive pay.* | | | | |
| 4 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: Some pay program concerns warrant continued monitoring, including the value of the CEO's annual equity grant and LTI structure, though pay and performance are reasonably aligned for the year in review. Nevertheless, a vote AGAINST the proposal is warranted due to the compensation committee's limited responsiveness to last year's failed say-on-pay vote result. The committee made certain pay program improvements in response to shareholder concerns, including a reduction in perquisites and the maximum LTI vesting opportunity, improved STI disclosure, and a firmer commitment regarding one-time awards. However, it is unclear whether the reduction in the maximum LTI vesting opportunity adequately addresses expressed concerns, as the new maximum remains a significant outlier. Further, it is unclear whether the committee adequately addressed concerns surrounding "certain components of CEO compensation" considered too high, in part due to vague disclosure regarding this point of feedback.* | | | | |

| 3 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although concerns regarding the CEO's sizeable cash retention bonus are partially mitigated due to the legacy nature of the agreement and the reasonable annualized value of the award and that pay programs are entirely performance-based, significant concerns are noted regarding the structure and disclosure of pay programs. Specifically, an NEO received an outsized bonus payment without compelling rationale and target goals and results tied to the bonus were not disclosed. In addition, the LTI program is designed such that all above-target vesting is based on one-year performance periods and there continues to be a lack of clear disclosure regarding prior equity grant payouts. Furthermore, a vote AGAINST to this proposal is further warranted as the company has not disclosed any short- and long-term E&S performance incentives and the company maintains an auto-accelerated equity vesting change-in-control provision.* | | | | |

| | *Voting Policy Rationale: A vote AGAINST this proposal is warranted. In the context of a quantitative pay-for-performance misalignment, significant concerns are raised regarding a sizable one-time retention grant to the CEO as well as ongoing structural and design concerns surrounding incentive programs. Although the CEO's retention grant is entirely performance-based, disclosure of certain goal targets is lacking. Large magnitude special awards with significant upside potential are expected to be accompanied by transparent and robust disclosure surrounding goals. In addition, although the annual incentive program is substantially tied to pre-set objective metrics, disclosure of goal targets and actual performance for the financial goals continues to be lacking. Further, two-thirds of the PRSUs under the annual LTI program may be earned based on relatively short-term TSR goals, the targets for which are not considered particularly rigorous at merely median performance, and the company does not disclose a cap on payouts if absolute TSR is negative.* | | | | |

| 2 | Approve Remuneration Report | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the remuneration report is warranted. Quantitative Pay for Performance analysis indicates a low degree of concern. * The new CEO's fixed pay is in line with the CEOs of the other 'Big Four' banks. * FY24 STI bonuses are lower year-on-year in line with financial results. * Vesting of the FY19 LTI grant at maximum is aligned with shareholder returns over the performance period. The qualification is raised to highlight the following inconsistencies with accepted market practice: * A grant of a 'one-off' equity incentive to the Group Executive, Technology & Enterprise was made in additional to substantial STI and LTI opportunities, resulting in his total LTI equity grant in FY24 being excessive and significantly above the quantum of LTI grants to 'Big Four' Bank CEOs. * STI deferral has been reduced to 40 percent, being materially inconsistent with practices and expectations for companies in the ASX20 and other large APRA-regulated entities. * The LTEA rights comprising 50 percent of the total LTI grant involve significant and sole board discretion in the determining achievement and a commensurate high probability of vesting. This appears somewhat inferior to peers such as Westpac and ANZ which provide some quantitative performance measures for equivalent awards. The company's practices are inferior in the lack of specificity.* | | | | |
| 3a | Approve Grant of Deferred Rights to Andrew Irvine | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the grant of deferred rights to the CEO is warranted. This represents deferral of the FY24 Annual VR (STI) Award. The qualification is to highlight the reduction of the deferral requirement to 40 percent. Despite the company's attestation that the changes were made to meet CPS 511, the company's STI deferral practices are inconsistent with accepted market practice and the other Big 4 banks, financial and large insurers which are also regulated by APRA. The market standard amongst these companies remains at 50 percent for STI deferral and NAB is now materially inconsistent with this level.* | | | | |
| 3b | Approve Grant of Performance Rights to Andrew Irvine | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the grant of FY25 LTI (LTVR & LTEA) performance rights is warranted. The LTVR for 50 percent of the LTI has a relative TSR performance measure over a four-year performance period with increased deferral. The following concerns are highlighted regarding the LTEA which represents the remaining 50 percent portion of the LTI: * The continued inclusion of non-financial measures, to meet the requirements of CPS 511, with a significant 50 percent weighting of the LTI may result in misalignment of remuneration with shareholder returns. * The LTEA rights involve a significant and potentially excessive board discretion in the determination of vesting based on an assessment of risk culture that lacks sufficient transparency. * The qualitative assessment by the board of 'risk expectations' and 'risk exposure' pre-vesting of the FY25 LTEA appears to be subject to board discretion given a complete absence of sufficient disclosure of any quantifiable and specific targets.* | | | | |

| 3 | Approve Remuneration Report | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the remuneration report (Item 3) is warranted. * There were no changes to the CEO's fixed remuneration. * The board responded to governance and risk matters in the Markets business and ongoing investigations by regulators through reduction of FY24 STVR bonuses to well below maximum and reduction of the number of FY25 restricted rights in the LTI grant to 90 percent in the pre-grant assessment. * Forecast changes to the FY25 STVR with a commitment to disclose specific and quantified hurdles for performance measures, and financial measures to increase to a 50 percent weighting. * There was no LTI vesting. The qualification is raised to highlight: * Quantitative Pay for Performance analysis indicates a median degree of concern. * Inconsistencies in the structure of the FY24 STVR with accepted market practice. * The FY24 STVR has a low and inferior weighting of 40 percent towards financial performance. * There continues to be poor, inferior and absent disclosure in the FY24 STVR of any specific or quantified threshold, target and stretch hurdles for any of the performance measures, which prevents any assessment of target rigor, performance and bonuses. * Despite the reduction in bonuses, given the poor level of disclosure, appropriateness of the quantum of STVR bonuses is nevertheless questioned in the context of material risk failures identified in FY24. * The terms of the FY24 LTVR restricted rights include a high probability of vesting given the non-financial performance measures appear in the nature of 'day job' responsibilities of bank executives, resulting in an increased risk of misalignment.* | | | | |

| 4 | Approve Grant of Restricted Rights and Performance Rights to Shayne Elliott | Mgmt | For | For | For |
| | *Voting Policy Rationale: A qualified vote FOR the grant of FY25 LTVR performance rights and restricted rights to the CEO is warranted. * The structure of the grant remains broadly unchanged from the grant made in FY24 and is similar to the structure that has now been adopted by all the big four banking peers. * The quantum of the restricted rights has been reduced by 10 percent due to the application of the pre-grant assessment in response to the risk matters identified in FY24, with specific reference to the ongoing ASIC investigation into the Markets business. The qualification is to highlight the following inconsistencies with better market practice and shareholder interests: * Shareholders may question the appropriateness of a five percent reduction to the CEO's LTVR opportunity given the significant risk failures in FY24. * The terms of the restricted rights include a high probability of vesting being subject to four, five and six-year ongoing service conditions and additional board assessment pre-grant and pre-vesting. These board assessments appear to involve significant board discretion and primarily included to meet the requirement of APRA's Prudential Standard CPS511. * There is increased risk of misalignment with company performance and shareholder outcomes through the use of a substantial portion of non-financial performance measures in the LTI. The risk of misalignment is in the use of board discretion, especially if it does not exercise sufficient downward discretion as required under CPS511. * Some shareholders may consider CEO performance to mitigate risk in the business and ensure operational resilience as essential or mandatory in fulfilling his core "day job" duties. * The extent to which the board has overriding discretion in relation to amending the TSR growth hurdles. * The absence of a positive TSR gateway for the relative TSR tranche of the award given the curated and small number of companies in the relative TSR peer group. * Provision for dividends on unvested shares is inconsistent with good governance given the shares are not owned and there is no present entitlement to dividends paid on them during the performance period.* | | | | |
| 5 | Approve the Amendments to the Company's Constitution | SH | Against | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this resolution is warranted, as the request to amend the company's constitution is potentially broad with no regulatory framework to oversee shareholder proposals. The Board has confirmed its willingness to consult with the shareholder proponents with a view to addressing shareholder requirements, and to disclose the proxies at the AGM and publicly discuss the resolutions at the AGM.* | | | | |
| 6 | Approve Transition Plan Assessments | SH | Against | For | For |
| | *Voting Policy Rationale: A vote FOR this resolution is warranted as enhanced disclosure would give shareholders better understanding on how the company is managing climate change related risks regarding its lending activities. Shareholders would also benefit from a stronger alignment between the company's stated goals and its actions regarding corporate responsibility.* | | | | |

| 3 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |

*Voting Policy Rationale: A vote AGAINST this proposal is warranted. The compensation committee failed to demonstrate sufficient responsiveness to last year's low say-on-pay vote for the second successive year. In addition, there is an unmitigated pay-for-performance misalignment for the year in review. While LTI awards introduced performance equity for FY23, the performance periods were merely one year, or less, in some cases. Additional concerns regarding the rigor and appropriateness of selected metrics were underscored by the above-target vesting of FY23 LTI awards during a period in which shareholder returns continued to decline. Finally, the proxy provided insufficient justification for the payment of an excessive cash severance to former CEO Robbiati upon a resignation that does not appear to have been involuntary.*

We raise some concerns as the company did not provide any compelling rationale for a EUR 600,000 one-off payment for the incoming CEO. Furthermore, we raise concerns regarding the proposed severance terms in case of termination of the relationship without cause by the company, or by mutual agreement, within one year from the effective appointment date, for a gross amount of EUR 4,670,000. This appears to be a deviation of the company's remuneration policy, and we raise concerns as the company did not provide any compelling rationale for this excessive severance package. We will further raise these concerns in the upcoming AGM and vote on the remuneration report.* | | | | |

The main reasons for support are: * The increase is accompanied by a detailed rationale stating the significant growth and strong financial results delivered by the Company; * The majority of the annual bonus awards are based on financial metrics which have historically been set at progressively more stretching targets; and * The increased bonus opportunity is in line with the market median for a company of this size.* | | | | |

However, annual incentives are primarily based on a rigorous pre-set financial metric, long-term incentives remain majority performance-conditioned, and the company will raise the relative TSR target for performance shares and include a vesting cap in the event TSR is negative beginning with FY25 equity grants. Additionally, pay and performance are reasonably aligned at this time. A vote FOR this proposal is warranted.* | | | | |

| | *Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although there are performance-based programs and reasonable outcomes in the annual and long-term incentives, concerns are raised surrounding the introduction of a supplemental executive retirement plan. The use of SERPs, as well as crediting for prior years of service, are inconsistent with market practice, as many companies have frozen or eliminated this type of benefit, given that it can substantially increase the cost of benefits to shareholders. The company has also not provided a compelling rationale to justify the need for supplemental retirement benefits.* | | | | |

| | *Voting Policy Rationale: A vote FOR this item is warranted, although it is not without concern: * CEO Dominic Blakemore received a significant salary increase of c.21% for FY2025 which, when coupled with the changes to the variable pay schemes, will result in a significant increase in total pay opportunity. The main reason for support is: * The Company has provided a compelling rationale for the increases to salary and variable pay opportunities, citing the sustained strong performance of the Company resulting in a materially larger and a more complex organisation since Blakemore's appointment. The resulting salary level broadly aligns with peers in the FTSE 30.* | | | | |

| | *Voting Policy Rationale: A vote FOR this resolution is considered warranted, although it is not without concern for shareholders: * EDs' salaries are scheduled to be increased by c.30% over the next two years and follow a significant increase made in FY2023/24. Alongside the increases in the LTIP opportunity, this contributes towards material increases in both fixed and total pay opportunity, which may not receive universal support. The main reasons for support are: * The Company's rationale for the increases is acknowledged; * Pay arrangements are not out of line with market peers; * No other material concerns regarding remuneration arrangements have been identified for the year under review.* | | | | |

| 3 | Approve Remuneration Policy | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this item is considered warranted as material concerns are identified with the quantum and nature of the recruitment award. Under the proposed policy, new joiners may be granted an enhanced LTI award capped at 650% of base salary which may be made as a combination of performance and restricted shares. Separately, the maximum LTIP award opportunity will increase from 300% to 400% of salary under the proposed policy. The increase to total pay opportunity achieved though the increase in salary and LTIP opportunities are considerable and may not receive universal support. However, the Company's rationale is acknowledged and these have not contributed to the negative vote recommendation on this occasion.* | | | | |

| | *Voting Policy Rationale: A vote FOR this proposal is warranted. Annual incentives were based on a financial metric with a pre-set target, equity awards were half performance-conditioned with disclosed pre-set targets, and half of the performance shares are subject to a multi-year performance period.* | | | | |
| 3 | Ratify PricewaterhouseCoopers LLP as Auditors | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST the ratification of the company's auditor is warranted given that non-audit fees represent 32.53 percent of the total fees received by the auditor during the fiscal year, raising substantial doubts over the independence of the auditor.* | | | | |

| 6 | Approve Remuneration Report | Mgmt | For | For | For |
| | *Voting Policy Rationale: A vote FOR this resolution is warranted because the company's remuneration practices exceed in many respects best practice standards in Germany, and pay and performance appear reasonably aligned at this time. However, it is not not without some concern: * Pension contributions remain at a relatively high level in the context of market practice. * Total target compensation was increased for all management board members for the third consecutive year. This is mitigated by relatively modest increase levels as well as the fact that the company has consistently been performing well against peers over the period in question.* | | | | |

| 9 | Approve Virtual-Only Shareholder Meetings Until 2027 | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST the proposed article amendments in regard to virtual-only shareholder meetings is warranted because: * The new proposal appears to be a blanket authorization to continue holding AGMs in the virtual format only. * The rationale regarding why it was considered necessary to hold a virtual-only meeting in the past three years, or why the company chose the virtual-only format again for the 2025 AGM, is not considered compelling. * The company has not given shareholders the option to attend the AGM in-person since prior to the pandemic, and there is no commitment by the boards to giving shareholders an in-person attendance option in the near future. In this vein, the company only vaguely addresses the circumstances under which in-person meetings might be held in the future.* | | | | |

| | *Voting Policy Rationale: A vote AGAINST this resolution is warranted because: * The company proposes to substantially increase maximum annual compensation caps without providing a compelling rationale. * The derogation clause continues being broadly formulated and without specific limits. * The relative TSR vesting schedule under the LTI is not considered challenging, considering the possibility for below peer-median payouts. * Implied pension contributions appear high in the context of broader European practices.* | | | | |

Cash and equity incentive award values are ultimately discretionarily determined; many investors prefer an annual incentive program structure that emphasizes objective and transparent determinations. | | *Voting Policy Rationale: A vote FOR this proposal is warranted, as pay and performance are reasonably aligned at this time. Although the target annual equity award for CEO Cook increased relatively significantly, the overall structure of CEO pay did not fundamentally change in FY24. Annual cash incentives continued to be based entirely on pre-set financial metrics with clearly disclosed targets and performance-based equity utilizes a multi-year performance period with relatively rigorous, forward-looking target goals clearly disclosed. | 1 | Authorizations Related to the Voluntary Tender Offer Launched by Banco BPM Vita | Mgmt | For | For | For |

*Voting Policy Rationale: This item warrants a vote FOR because the underlying transaction is supported by a valid rationale. This is not without highlighting that: * This EGM has been called with a notice period of only 15 days. Furthermore, full information on the tender offer has yet to be published at this stage. * Part of the expected benefits hinges on confirmation of the applicability of the so-called Danish Compromise. * This happens against the backdrop of UniCredit's hostile approach. However, UniCredit's nil premium bid does not raise concerns at this point that facilitating the Anima deal would potentially block an attractive offer for Banco BPM. Moreover, the overall additional disbursement of approx. EUR 200 million is unlikely to prevent future adjustments to UniCredit's offer.*

The compensation program lacks disclosure of any pre-set performance metrics, with the CEO and executive chairman receiving excessive bonus payouts that appear to be entirely discretionary in nature. | | *Voting Policy Rationale: Significant risks to shareholders stemming from severe ESG controversies have been identified at the company, which reflects a failure by the board to proficiently guard against and manage material environmental, social and governance risks. Votes AGAINST Beth Ford, the incumbent chair of the most responsible committee for managing ESG-related risks, are warranted for the following reasons: - The board chair, Brian Niccol, who normally shoulders the greatest responsibility amongst the board members for failing to effectively supervise the management of risks to the company and its shareholders, has served as the board chair and CEO for less than a year. - Additionally, the lead director, Jorgen Knudstorp, who has been appointed lead independent director of the board (effective upon the completion of this annual meeting), has not served in that role for the duration of the severe controversies. - Therefore, the incumbent chair of the committee most responsible for managing ESG-related risks should be held accountable for poor board and management oversight of ESG risk exposures at the firm. *Voting Policy Rationale: A vote AGAINST this proposal is warranted. Although cash severance and equity acceleration are double trigger for the non-CEO NEOs, and no excise tax gross-ups are payable, the CEO's employment arrangement with the acquirer will result in a large payout equivalent to all change-in-control severance entitlements due to him despite the fact that he will remain employed following the merger. As an inducement payment, the large magnitude and lack of any vesting or performance conditions raises significant concern.*

A vote AGAINST this proposal is further warranted due to the following concerns: - The majority of equity awards to the CEO are not tied to performance-contingent pay elements; and - Excessive differentials between CEO pay and the pay of other named executive officers at the firm.* | | | | |

| 2.1 | Approve Remuneration Report | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: - There is insufficient ex-post disclosure to explain the evolution of variable payouts versus company performance. - The remuneration committee uses discretion when setting the weightings of performance criteria and in the allocation of bonus payouts under STI. - LTI awards are allocated on a discretionary basis and the awards are not subject to any performance conditions. - The CEO compensation package has not been well explained, and the base salary appears to significantly exceed the Social Advisory Services' selected peer median level. Moreover, there are concerns related to the pay for performance alignment with respect to realized CEO pay versus TSR performance relative to peers. - The board chair continues to receive pension benefits in the year under review.* | | | | |

| | *Voting Policy Rationale: Fixed compensation (Item 5.3) A vote FOR this resolution is warranted because the proposal is broadly in line with market practice. However, it is not without concern: - Two members of the board of directors continue receiving additional fees for consulting services. Variable compensation (Item 5.1) A vote AGAINST this proposal is warranted because there are concerns regarding the company's variable compensation practices and the company failed to put the compensation report up for a separate vote.* | | | | |

Votes AGAINST non-independent nominees Josef Ming, Marion Bonnard, Cyrill Bucher, Monika Buetler, Guenter Schaeuble, Alfred Schindler, Tobias Staehelin, Carole Vischer, and Petra Winkler are warranted because of the failure to establish a majority-independent board. Additionally, excessive pay disparities between executives and rank-and-file employees could pose risks to long-term shareholder value, and impact employee morale as well as a company's standing in the communities in which it operates.* | | | | |

Additionally, increased transparency on related policies and due diligence could provide assurance to the shareholders of the company's efforts to mitigate said risks.* | | | | |
| 8 | SP 3: Adopt Advanced Generative AI Systems Voluntary Code of Conduct | SH | Against | For | For |
| | *Voting Policy Rationale: Votes FOR this proposal are warranted at this time, as shareholders would benefit from the company adopting a voluntary code of conduct around responsible AI. | 10 | SP 5: Advisory Vote on Environmental Policies | SH | Against | For | For |
| | *Voting Policy Rationale: Vote FOR this shareholder proposal. Additional information on the company's plan to reduce its GHG emissions would allow investors to better understand how the company is managing its climate change-related risks. Such information would also allow shareholders to express their opinions on the climate risk management practices of the company. The bank, along with Canada's other major banks, departed from the Net-Zero banking alliance (NZBA) in January 2025. It is also noted that the company has not set targets approved by the Science-based Targets Initiative (SBTI) and its existing reduction targets only partially cover the short, medium, and long term.* | | | | |
| 11 | SP 6: Disclose Non-Confidential Information Relating to the Bank's Country-by-Country Reporting | SH | Against | For | For |

| 12 | SP 7: Report on Loans Made by the Bank in Support of the Circular Economy | SH | Against | For | For |
| | *Voting Policy Rationale: A vote FOR this proposal is warranted as shareholders would benefit from additional information regarding the company's sustainability commitments and management of related risks.* | | | | |
| 13 | SP 8: Hold Annual Meetings of the Company in Person with Virtual Meetings as Complements | SH | Against | For | For |
| | *Voting Policy Rationale: Vote FOR this shareholder proposal. Similar to last year, the bank plans to hold its 2025 AGM in a hybrid format. However, the board has indicated that, despite currently offering a hybrid option, virtual meetings may align better with the bank's environmental goals, reduce meeting-related costs, maintain equal shareholder rights and opportunities, and offer greater flexibility. While many investors recognize the advantages of virtual participation as an enhancement to shareholder engagement, particularly when combined with a physical meeting, they express concern regarding the potential shift towards virtual-only meetings. Investors argue that virtual-only meetings could limit meaningful interaction between management and shareholders, potentially allowing management to evade challenging questions, marginalize certain shareholders, and erode shareholder rights. Additionally, investor feedback shows that most shareholders prefer retaining the option of attending meetings in person, even if they often opt for virtual participation. Moreover, should unforeseen circumstances occur, companies governed by the Bank Act can seek a court order to hold a virtual-only meeting as a temporary alternative. Therefore, given the absence of compelling circumstances preventing an in-person meeting, support for retaining physical shareholder meetings is warranted at this time.* | | | | |

| | *Voting Policy Rationale: A vote AGAINST is warranted because: * Concerns are raised with regard to the generous severance payout package for Matteo Fantacchiotti (CEO during only 5 months of 2024) of EUR 3.5 million which exceeds 24 months' pay, awarded with limited disclosure and no compelling rationale. Additionally, we raise concerns regarding the lack of disclosure on the level and rationale of the initial sign-on award encompassed in this payout; * The company provides no feedback on last year's vote on the report which approximately received 10.2 percent against votes, and 62 percent of free-float votes indicating substantial minority shareholder dissent; * The company did not provide disclosure on STI performance targets not enabling further understanding of the pay for performance alignment; * Continued concern for the existence of a 'last mile' award possibility of up to EUR 60 million to the CFOO; and * The design of the long-term incentive plan, with a substantial part (67% RSUs) is non-performance based.* | | | | |

| | *Voting Policy Rationale: A vote AGAINST is warranted because: * The inclusion of a last mile incentive plan could lead to excessive pay (i.e. up to EUR 60 million for the CEO); * The clear and concrete disclosure on applicable performance metrics on both the STI and LTI is lacking; * A substantial part of the LTI (67 percent) is not subject to performance conditions; * The derogation clause is broad in scope and allows for the allocation of one-off payments in deviation from the remuneration policy; * The proposed increase in fixed remuneration for the chairman and vice-chairman (+400% percent) with limited rationale is excessive and not in line with best corporate governance market practices.* | | | | |

| 2 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this proposal is warranted. There are significant concerns regarding the structure and lack of key disclosures under the short-term incentive determination process. Although long-term equity awards vest based on clearly disclosed multi-year goals with no upside potential, concerns are raised that equity awards are 50% (or not majority) performance-conditioned. While the process is guided by performance scorecards and various other performance considerations, award determinations are ultimately discretionary, and the committee's discretionary determinations contributed to a quantitative pay-for-performance misalignment for the year in review. Further, the proxy lacks related key disclosures, such as target and maximum pay opportunities, metric/category weightings, and quantified, preset threshold, target, and maximum goals.* | | | | |
| 3 | Ratify PricewaterhouseCoopers LLP as Auditors | Mgmt | For | For | For |
| 4 | Amend Omnibus Stock Plan | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factor(s): * The plan cost is excessive * The three-year average burn rate is excessive * The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary) * The plan permits liberal recycling of shares * The plan allows broad discretion to accelerate vesting* | | | | |

*Voting Policy Rationale: Vote AGAINST this slate because: * Shareholders can support only one slate. * Slate 2 is better positioned to represent the long-term interests of minority shareholders and carry out an independent oversight of the management's action. * The proponent of this slate significantly benefits from a stock structure with unequal voting rights. * This slate includes one overboarded candidate.*

| 2.2.2 | Slate 2 Submitted by Institutional Investors (Assogestioni) | SH | None | For | For |
| | *Voting Policy Rationale: This resolution warrants a vote FOR because: * Shareholders can support only one slate. * This slate has been put forth by minority shareholders, and these nominees could therefore be the best positioned to represent the interests of minority shareholders and carry out an effective oversight on the management's behavior. * Candidates on this list have agreed to adhere to the chart of corporate governance principles adopted by Assogestioni.* | | | | |
| 3 | Approve Remuneration of Directors | Mgmt | For | For | For |
| 4.1 | Approve Remuneration Policy | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: This item warrants a vote AGAINST because: * The increase in the CEO pay will exacerbate the already high level of pay compared to peers and the existing misalignment between pay and performance. * Termination payments can be in excess of 24 months' pay. * Regarding the ongoing long-term incentive plan, the company does not disclose the performance targets attached to the 2025-2027 cycle and retrospective information on the variable incentive plans is limited.* | | | | |
| 4.2 | Approve Second Section of the Remuneration Report | Mgmt | For | Against | Against |

| | *Voting Policy Rationale: A vote AGAINST the proposal is warranted. While a number of positive features are noted, including a clearly disclosed annual bonus program based on rigorous targets, an unmitigated pay-for-performance misalignment exists for the year in review. The CEO's target LTI grant value was relatively large and has continuously increased year-over-year. Furthermore, over two-thirds of the award's target grant value did not utilize pre-set performance criteria, and the portions that do merely target 50th percentile performance. While the FY26 grant will be half performance-based, this does not mitigate rigor and magnitude concerns for the year in review.* | | | | |

| | *Voting Policy Rationale: A vote AGAINST the remuneration report is warranted because: * The ex-post disclosures provided to explain STI outcomes are very limited and lack specific targets and results. * Under the LTI, one-third of awards are granted as RSUs, which also partially vest in less than three years. Although this feature will be removed for the CEO and CFO from 2025, it will not be removed until 2026 for other executives. * The company has announced that opportunity levels under both the STI and LTI will increase from 2025, and particularly the increased LTI grant levels raise concern in the absence of a more compelling explanation. * Significant discretionary awards were granted to executives in the context of performance achievements in the past year, and particularly the granted LTI awards appear excessive. * The quantum of the CEO pay appears to far exceed market practice and the report does not detail how the compensation levels were determined.* | | | | |

| 2 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST this proposal is warranted in light of significant concerns surrounding one-time grants made to the CEO and COO in early FY25. The $80 million value of each award is over two times the CEO's FY24 performance year pay, which itself increased significantly year-over-year. Additionally, the awards lack rigorous, pre-set performance-vesting criteria and were granted while previously-granted off-cycle awards to the recipients remain outstanding and eligible to vest. There are also ongoing concerns regarding the discretionary process used to determine annual incentives, particularly when paired with certain lacking disclosures. A new carried interest program may result in further pay complexity going forward.* | | | | |
| 3 | Amend Omnibus Stock Plan | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: Based on an evaluation of the estimated cost, plan features, and grant practices using the Equity Plan Scorecard (EPSC), a vote AGAINST this proposal is warranted due to the following key factors: - The equity program is estimated to be excessively dilutive (overriding factor) - The plan cost is excessive - The three-year average burn rate is excessive - The disclosure of change-in-control ("CIC") vesting treatment is incomplete (or is otherwise considered discretionary) - The plan permits liberal recycling of shares; and - The plan allows broad discretion to accelerate vesting.* | | | | |

| 2 | Advisory Vote to Ratify Named Executive Officers' Compensation | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: The committee demonstrated sufficient responsiveness to last year's low say-on-pay vote result by disclosing shareholder engagement efforts, specific feedback received, and positive changes in response to shareholder's expressed concerns. There are some ongoing concerns regarding the annual incentive determination process, which is ultimately discretionary, and the lack of certain key disclosures in the proxy. However, consideration is given to the meaningful structural and disclosure improvements made in response to shareholder feedback, including disclosed target incentive opportunities and threshold and maximum LTI goals. Further, CEO pay and company performance are reasonably aligned at this time. However, a vote AGAINST this proposal is warranted in light of significant concerns surrounding one-time equity awards to certain non-CEO NEOs. The magnitude of the largest award is over two and a half times the NEO's annual total performance year pay, the weighting of performance equity is merely the same as the regular LTI, and target goals are not disclosed. These pay-for-performance considerations are heightened in the context of relatively large off-cycle awards.* | | | | |

| | *Voting Policy Rationale: A vote AGAINST the discharge of directors is warranted because Gilles Martin and Yves-Loic Martin are founding family members of the company and the beneficiary of the unequal vote structure via the beneficiary units owned by Martin family holding. Since the discharge resolution is currently bundled, it does not allow shareholders to target individuals primarily responsible for, or benefiting from, the unequal vote structure.* | | | | |

| 10 | Approve Remuneration Report | Mgmt | For | Against | Against |
| | *Voting Policy Rationale: A vote AGAINST is warranted because - The proposed remuneration is below par in relation to market standards, particularly with regard to disclosure of the performance achievement of non-financial metrics for the STI award, which does not allow shareholders to assess the stringency of the total STI payout. - 50 percent of the LTI award is not performance based (stock options); - However, achievement information and actually number of vested awards to individual executives is not provided and does not allow to fully understand the 2024 realized pay package. - Despite improvements in the reporting, the lack of responsiveness remains a cause for concern.* | | | | |
