

Market commentary

In February 2026, the new Reserve Bank Governor, Dr Breman, oversaw her first Official Cash Rate (OCR) decision. As expected, the Committee left the OCR unchanged at 2.25%, with “policy likely to remain accommodative for some time”. While acknowledging recent improvement, it was noted that the economic recovery was at an “early stage”. Notably, the Committee was “confident” that inflation would return to the target midpoint over the next 12 months.
