MAS Investment Funds

Global Equities Fund

Fund update for the quarter ended 30 September 2026
This fund update was first made publicly available on 29 October 2026

What is the purpose of this update?

This document tells you how the MAS Investment Funds Global Equities Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Global Equities Fund usually invests only in growth assets. The Fund aims to provide higher returns over the long term. It is suitable for investors who are prepared to accept a higher level of investment risk to potentially achieve a higher return.

Total value of the fund	$19,564,246
The date the fund started	31 January 2024

What are the risks of investing?[1]

Risk indicator for the Global Equities Fund:

Potentially lower returns — Potentially higher returns

1	2	3	4	5	6	7

Lower risk — Higher risk

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **sorted.org.nz/tools/investor-kickstarter**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

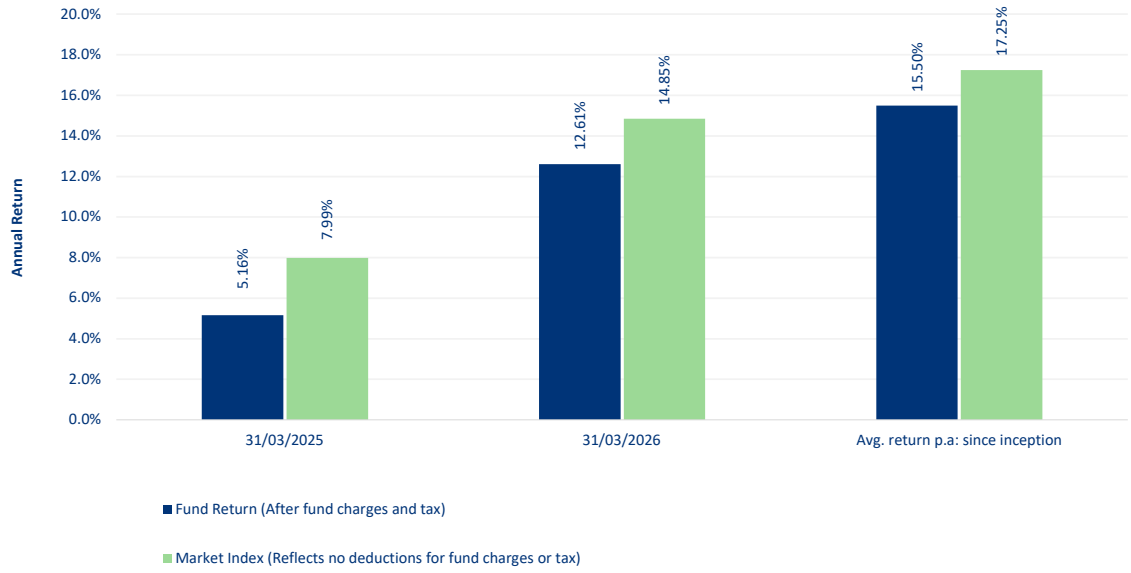

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	14.98%
Annual return (after deductions for charges but before tax)	16.06%
Market index annual return (reflects no deduction for charges and tax)	14.80%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at **disclose-register.companiesoffice.govt.nz**

Annual Return Graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2026.

Important: this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Global Equities Fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value[1]
Total fund charges	**0.97%**
Which are made up of:	
Total management and administration charges	**0.97%**
Including:	
Manager's basic fee	0.89%
Other management and administration charges	0.08%
Total performance-based fees	**0.00%**
	Dollar amount per investor
Other charges	$0

[1] The estimated annual fund charges include GST as applicable. Fees and charges may not sum to the total fund charges due to rounding.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

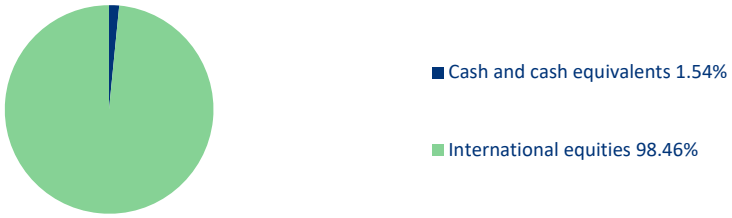

Example of how this applies to an investor

Sam had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sam received a return, after fund charges were deducted, of $1498 (that is 14.98% of his initial $10,000). Sam also paid $0 in other charges. This gives Sam a total return after tax of $1498 for the year.

What does the fund invest in?

This shows the types of assets that the fund invests in.

Actual investment mix

This shows the types of assets the fund generally intends to invest in.

Target investment mix [2]

Top 10 investments

No	Asset name	% of fund net assets	Type	Country	Credit rating (If Applicable)
1	Nvidia	5.37%	International equities	US	
2	Apple	4.75%	International equities	US	
3	Microsoft	4.27%	International equities	US	
4	Alphabet Class A	2.99%	International equities	US	
5	Meta Platforms Class A	2.52%	International equities	US	
6	Micron Technology	2.31%	International equities	US	
7	Taiwan Semiconductor Manufacturing	1.96%	International equities	TW	
8	JPMorgan Chase & Co	1.80%	International equities	US	
9	Amazon.Com Inc	1.78%	International equities	US	
10	Broadcom Inc	1.68%	International equities	US	

The total value of the above investments as a percentage of the net asset value of the Global Equities Fund is 29.43%.

Currency hedging

Currency hedging can apply to some of the asset classes the fund invests in. As at 30 September 2026, the actual hedging is as follows:

Asset class	Benchmark hedging rate	Current hedging level
International Equities	Benchmark 50% hedged (Range 0-100%)	49%
Australasian Equities	Benchmark 100% hedged (Range 0-100%)	99%
International Fixed Interest	Benchmark 100% hedged	100%

Key personnel

The 5 persons who have the most impact on investment decisions for the Global Equities Fund as at 30 September 2026.

Name	Current position	Time in current position	Previous or other position	Time in previous or other position
Brendan O'Donovan	Chair Investment Committee	9 Year, 3 Months	Independent Director, MAS	3 Year, 8 Months
Daniel Mead	Head of Investment	3 Year, 2 Months	Senior Portfolio Manager, AMP	2 Year, 4 Months
Phil Borkin	Head of Investment Strategy & Research, JBWere	7 Year, 6 Months	Senior Macro Strategist, ANZ	4 Year, 0 Months
Rickey Ward	Head of Strategic Investment Office, JBWere	1 Year, 5 Months	Australasian Equity Manager, JBWere	11 Year, 0 Months
Hayden Griffiths	Head of Asset Allocation, JBWere	30 Year, 5 Months	Analyst, BZW	2 Year, 5 Months

Further information

You can also obtain this information, the PDS for the MAS Investment Funds, and some additional information from the offer register at **disclose-register.companiesoffice.govt.nz**

Notes

1- Because the fund has been operating for fewer than 5 years, the risk indicator has been calculated using market index returns for the period 1 October 2021 to 31 March 2024 and actual returns for the period 1 April 2024 – 30 September 2026. As a result, the risk indicator may provide a less reliable indication of the potential future volatility of the fund.

2- As at 1 September 2026, the target investment mix has changed to 100% International equities. Please refer to Fund updates prior to 30 September 2026 for the historical target investment mix.

MAS Investment Funds

Aggressive Fund

Fund update for the quarter ended 30 September 2026
This fund update was first made publicly available on 29 October 2026

What is the purpose of this update?

This document tells you how the MAS Investment Funds Aggressive Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Aggressive Fund invests mainly in growth assets with a small allocation to income assets. The Fund aims to provide higher returns over the long term. It is suitable for investors who are prepared to accept a higher level of investment risk to potentially achieve a higher return.

Total value of the fund	$13,064,592
The date the fund started	31 January 2024

What are the risks of investing?[1]

Risk indicator for the Aggressive Fund:

Potentially lower returns — Potentially higher returns

1	2	3	4	5	6	7

Lower risk — Higher risk

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **sorted.org.nz/tools/investor-kickstarter**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

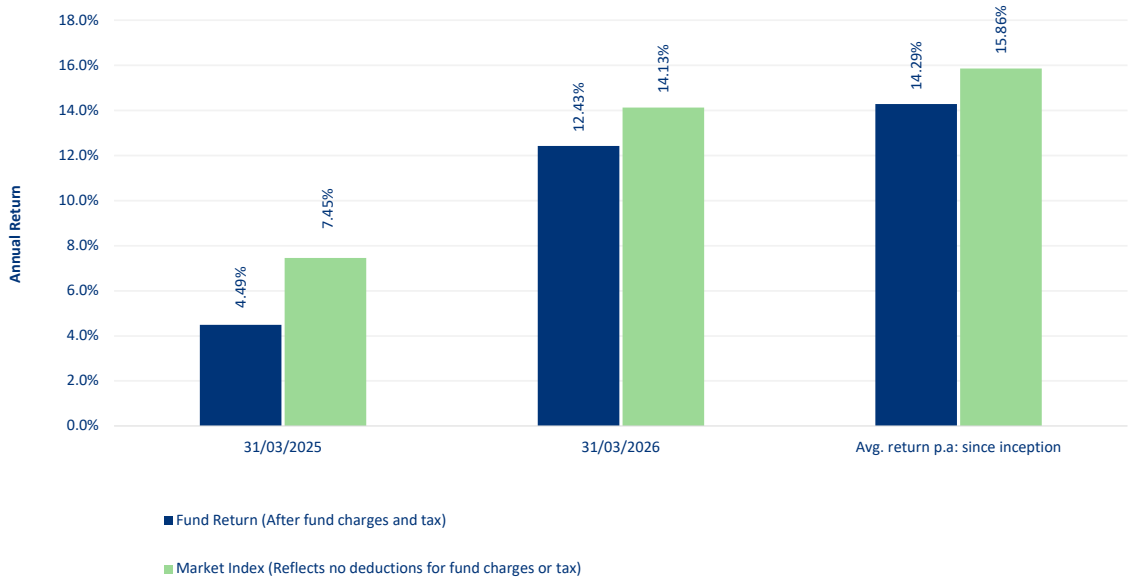

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	13.25%
Annual return (after deductions for charges but before tax)	14.28%
Market index annual return (reflects no deduction for charges and tax)	13.22%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at **disclose-register.companiesoffice.govt.nz**

Notes

1- Because the fund has been operating for fewer than 5 years, the risk indicator has been calculated using market index returns for the period 1 October 2021 to 31 March 2024 and actual returns for the period 1 April 2024 – 30 September 2026. As a result, the risk indicator may provide a less reliable indication of the potential future volatility of the fund.

MAS Investment Funds

Moderate Fund

Fund update for the quarter ended 30 September 2026
This fund update was first made publicly available on 29 October 2026

What is the purpose of this update?

This document tells you how the MAS Investment Funds Moderate Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Moderate Fund invests mainly in income assets with a moderate allocation to growth assets. The Fund aims to provide moderate returns over the short to medium term. It is suitable for investors who are prepared to accept some investment risk to potentially achieve a moderate return.

Total value of the fund	$18,991,402
The date the fund started	31 January 2024

What are the risks of investing?[1]

Risk indicator for the Moderate Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **sorted.org.nz/tools/investor-kickstarter**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

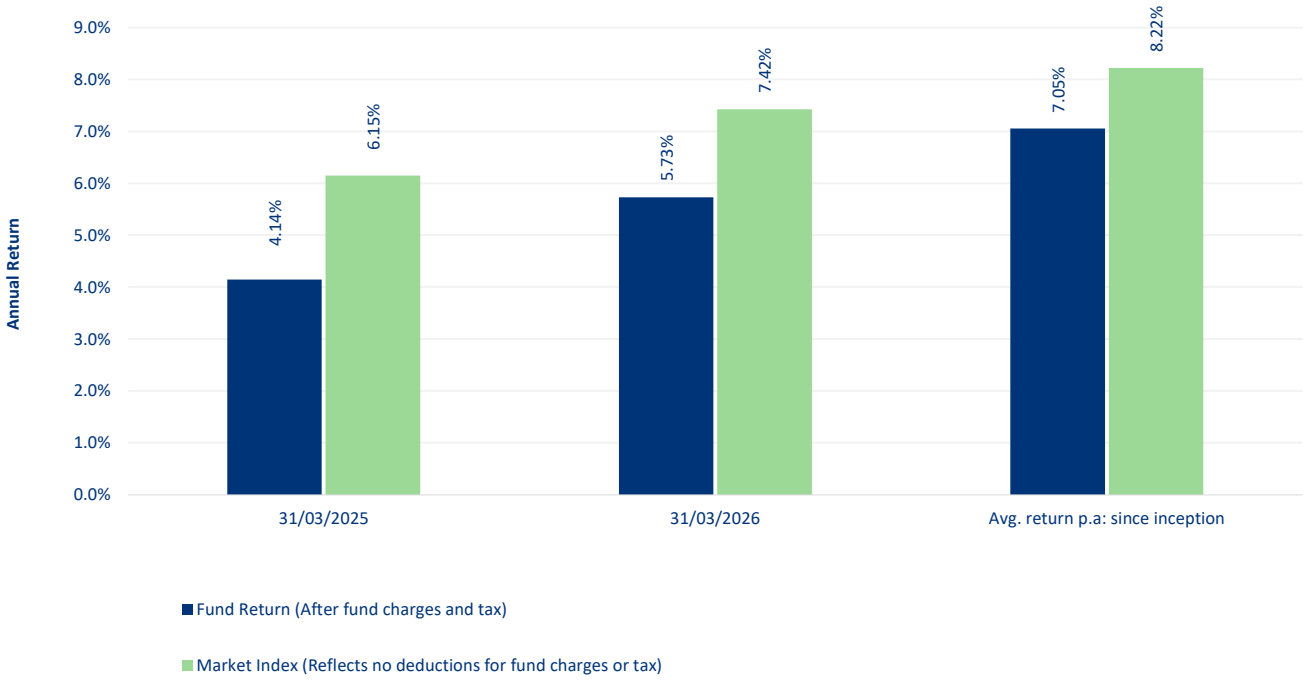

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	4.44%
Annual return (after deductions for charges but before tax)	4.49%
Market index annual return (reflects no deduction for charges and tax)	4.83%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at **disclose-register.companiesoffice.govt.nz**

Annual Return Graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2026.

Important: this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Moderate Fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value[1]
Total fund charges	**0.93%**
Which are made up of:	
Total management and administration charges	**0.93%**
Including:	
Manager's basic fee	0.78%
Other management and administration charges	0.15%
Total performance-based fees	**0.00%**
	Dollar amount per investor
Other charges	$0

[1] The estimated annual fund charges include GST as applicable. Fees and charges may not sum to the total fund charges due to rounding.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

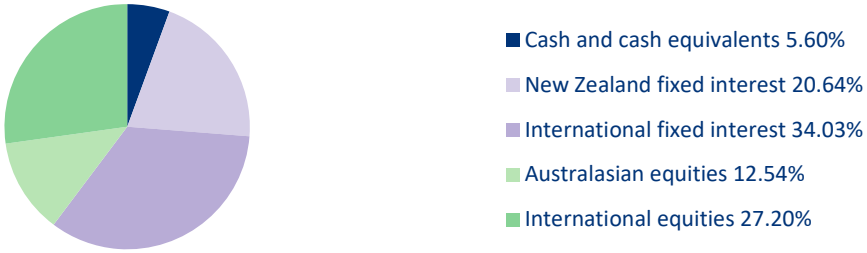

Example of how this applies to an investor

Sam had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sam received a return, after fund charges were deducted, of $444 (that is 4.44% of his initial $10,000). Sam also paid $0 in other charges. This gives Sam a total return after tax of $444 for the year.

What does the fund invest in?

Rickey Ward	Head of Strategic Investment Office, JBWere	1 Year, 5 Months	Australasian Equity Manager, JBWere	11 Year, 0 Months

Further information

You can also obtain this information, the PDS for the MAS Investment Funds, and some additional information from the offer register at **disclose-register.companiesoffice.govt.nz**

Notes

1- Because the fund has been operating for fewer than 5 years, the risk indicator has been calculated using market index returns for the period 1 October 2021 to 31 March 2024 and actual returns for the period 1 April 2024 – 30 September 2026. As a result, the risk indicator may provide a less reliable indication of the potential future volatility of the fund.

2- Key personnel not named in previous fund update for the fund.

MAS Investment Funds

Conservative Fund

Fund update for the quarter ended 30 September 2026
This fund update was first made publicly available on 29 October 2026

What is the purpose of this update?

This document tells you how the MAS Investment Funds Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Conservative Fund invests mainly in income assets with a modest allocation to growth assets. The Fund aims to preserve capital while providing a steady return over the short to medium term. It is suitable for investors who want to take a more cautious approach and accept a smaller amount of investment risk to potentially achieve a more stable return.

Total value of the fund	$16,445,113
The date the fund started	31 January 2024

What are the risks of investing?[1]

Risk indicator for the Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **sorted.org.nz/tools/investor-kickstarter**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

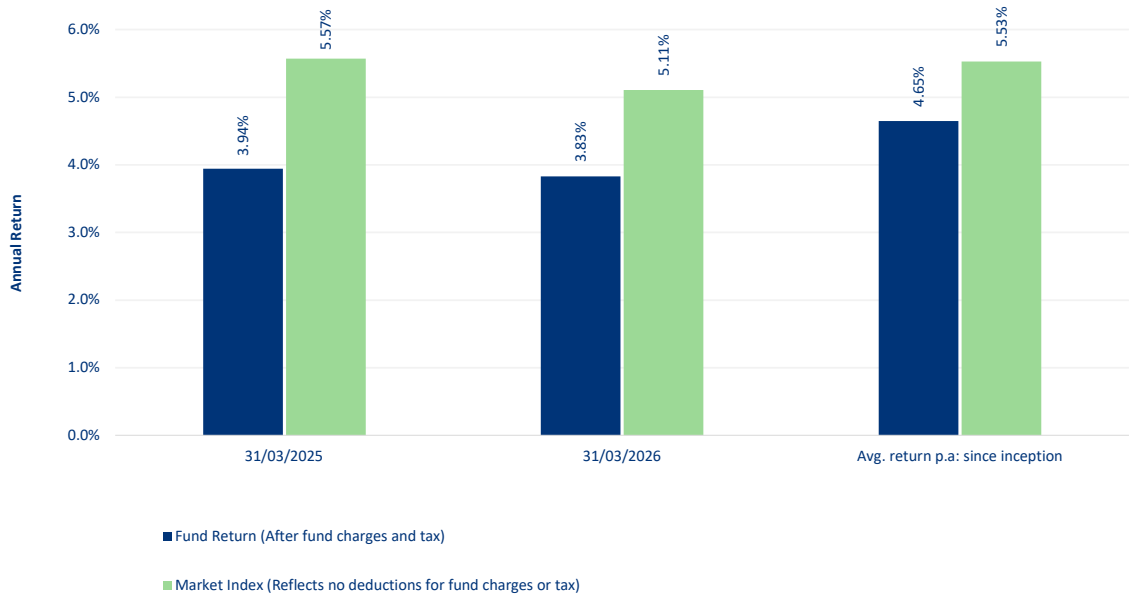

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	1.65%
Annual return (after deductions for charges but before tax)	1.39%
Market index annual return (reflects no deduction for charges and tax)	2.07%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at **disclose-register.companiesoffice.govt.nz**

MAS Investment Funds

Cash Fund

Fund update for the quarter ended 30 September 2026
This fund update was first made publicly available on 29 October 2026

What is the purpose of this update?

This document tells you how the MAS Investment Funds Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

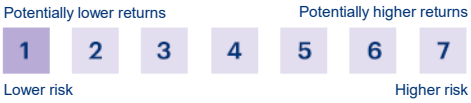

Description of this fund

The Cash Fund invests in a range of cash and cash equivalent investments. The Fund aims to achieve stable returns over the short term. It is suitable for investors who require an investment with very low volatility.

Total value of the fund	$45,216,095
The date the fund started	31 January 2024

What are the risks of investing?[1]

Risk indicator for the Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **sorted.org.nz/tools/investor-kickstarter**

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

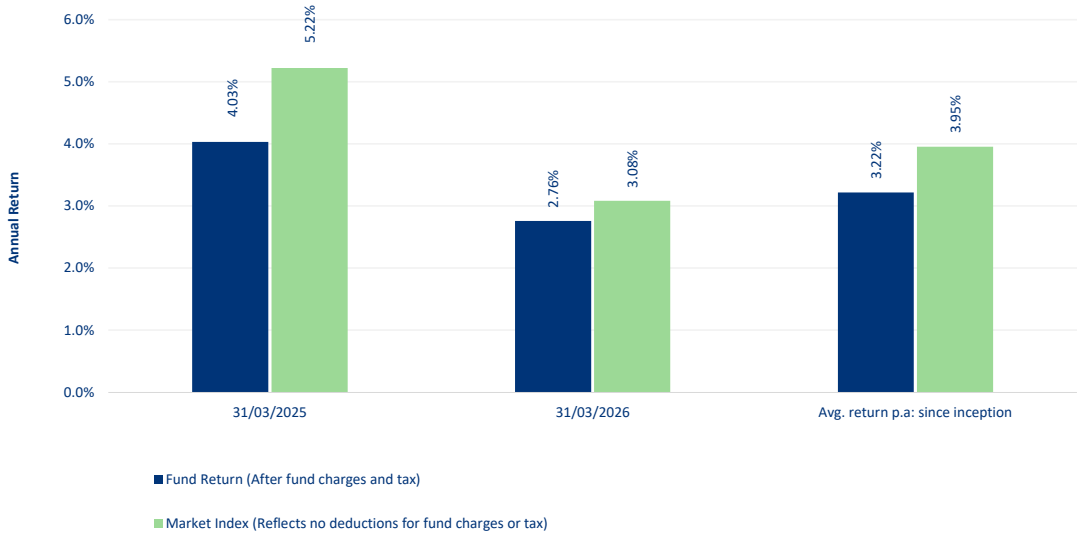

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	2.40%
Annual return (after deductions for charges but before tax)	3.36%
Market index annual return (reflects no deduction for charges and tax)	2.60%

The market index comprises the S&P/NZX Bank Bills 90-Day Index. Additional information about the market index is available on the offer register at **disclose-register.companiesoffice.govt.nz**

Annual Return Graph
