### What are the risks of investing?

Risk indicator for the Global Equities Fund:

Potentially lower  
returns

Lower risk

Potentially higher  
returns

Higher risk

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-kickstarter](https://sorted.org.nz/tools/investor-kickstarter)

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### Annual Return Graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2022.

**Important:** this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Global Equities Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value <sup>1</sup>
<b>Total fund charges</b>	<b>1.11%</b>
Which are made up of:	
<b>Total management and administration charges</b>	<b>1.11%</b>
Including:	
Manager's basic fee <sup>2</sup>	1.00%
Other management and administration charges <sup>3</sup>	0.11%
<b>Total performance-based fees</b>	<b>0.00%</b>
	Dollar amount per investor
Other charges	\$0

<sup>1</sup> The estimated annual fund charges include GST as applicable. Fees and charges may not sum to the total fund charges due to rounding.

<sup>2</sup> From 23 June 2021 the minimum manager's basic fee of \$12.50 per calendar quarter (\$50 per annum) was removed for members under the age of 25.

<sup>3</sup> An estimate has been used to calculate certain underlying fund performance fees. Please see the Notes section for a further explanation.

The annual manager's basic fee is subject to a minimum fee of \$12.50 per calendar quarter (\$50 per annum) for members over the age of 25. Therefore for members over the age of 25 with an account balance of less than \$5,000 the actual manager's basic fee charged as a percentage of the member's account balance may be higher than that stated in the PDS.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Sam had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sam received a return, after fund charges were deducted, of \$454 (that is 4.54% of his initial \$10,000). Sam also paid \$0 in other charges. This gives Sam a total return after tax of \$454 for the year.
