MAS Retirement Savings Scheme

Global Equities Fund

Fund update for the quarter ended 31 December 2022
This fund update was first made publicly available on 13 February 2023

What is the purpose of this update?

This document tells you how the MAS Retirement Savings Scheme Global Equities Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Global Equities Fund usually invests only in growth assets. The Fund aims to provide higher returns over the long term. It is suitable for investors who are prepared to accept a higher level of investment risk to potentially achieve a higher return.

Total value of the fund	\$54,103,780
Number of investors in the fund	868
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the Global Equities Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for 5 years to 31 December 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	5.86%	-16.19%
Annual return (after deductions for charges but before tax)	6.54%	-16.25%
Market index annual return (reflects no deduction for charges and tax)	1.32%	-14.48%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz

Annual Return Graph

¹ Please see the Notes section for an explanation of matters that may significantly affect the comparability of returns.

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2022.

Important: this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Global Equities Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value ¹
Total fund charges	1.10%
Which are made up of:	
Total management and administration charges	1.10%
Including:	
Manager's basic fee	1.00%
Other management and administration charges ²	0.10%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0

¹ The estimated annual fund charges include GST as applicable. Fees and charges may not sum to the total fund charges due to rounding.

² An estimate has been used to calculate certain underlying fund performance fees. Please see the Notes section for a further explanation.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Emily had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Emily incurred a loss, after fund charges were deducted, of \$1,619 (that is -16.19% of her initial \$10,000). Emily also paid \$0 in other charges. This gives Emily a total loss after tax of \$1,619 for the year.

Notes

In respect of footnote 1 on the last bar (the average return per annum for the last 10 years) on the 'How has the fund performed?' graph:

For the year ending 31 December 2013 annual return information was not available, and return for this year have been calculated based on return information for the period ending 31 March. As such, the calculation of the 10 year average return stated may be less reliable than a return calculated for the period ending 31 December for the last 10 years.

In respect of footnote 2 under the 'What fees are investors charged?' table:

The Global Equities Fund may invest in other funds (underlying funds not managed by MAS) which may charge their own performance fee. An estimate has been used to calculate the underlying fund performance fees which are included in 'Other management and administration charges'. With respect to investments in private equity we have assumed the total expense ratio (including any performance fees) charged by the relevant managers is the same as the previous year. Additional information on fees is available from the offer register under Fund Information at disclose-register.companiesoffice.govt.nz

Currency hedging

Currency hedging can apply to some of the asset classes the fund invests in. As at 31 December 2022, the actual hedging is as follows:

Asset class	Benchmark hedging rate	Current hedging level
International Equities	Benchmark 69% hedged (Range 0-138%)	73%
Australasian Equities	Benchmark 138% hedged (Range 0-138%)	76%
International Fixed Interest	Benchmark 100% hedged	100%

The 138% upper range reflects an approximate after-tax position of 100% (assuming a PIR of 28%), better aligning the hedge position with the underlying assets, which have a different tax treatment. Please refer to the Statement of Investment Policy and Objectives on the scheme register at disclose-register.companiesoffice.govt.nz for more information.

Notes

In respect of footnote 1 on the last bar (the average return per annum for the last 10 years) on the 'How has the fund performed?' graph:

For the year ending 31 December 2013 annual return information was not available, and return for this year have been calculated based on return information for the period ending 31 March. As such, the calculation of the 10 year average return stated may be less reliable than a return calculated for the period ending 31 December for the last 10 years.

MAS Retirement Savings Scheme

Moderate Fund

Fund update for the quarter ended 31 December 2022
This fund update was first made publicly available on 13 February 2023

What is the purpose of this update?

This document tells you how the MAS Retirement Savings Scheme Moderate Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Moderate Fund invests mainly in income assets with a moderate allocation to growth assets. The Fund aims to provide moderate returns over the short to medium term. It is suitable for investors who are prepared to accept some investment risk to potentially achieve a moderate return.

Total value of the fund	\$160,536,298
Number of investors in the fund	1,460
The date the fund started	1 April 1994

What are the risks of investing?

Risk indicator for the Moderate Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/Investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for 5 years to 31 December 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	2.28%	-10.61%
Annual return (after deductions for charges but before tax)	2.59%	-12.08%
Market index annual return (reflects no deduction for charges and tax)	1.32%	-11.09%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz

Annual Return Graph

¹ Please see the Notes section for an explanation of matters that may significantly affect the comparability of returns. This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2022.

Important: this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Moderate Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value ¹
Total fund charges	1.07%
Which are made up of:	
Total management and administration charges	1.07%
Including:	
Manager's basic fee ²	0.88%
Other management and administration charges	0.18%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0

¹ The annual fund charges include GST as applicable. Fees and charges may not sum to the total fund charges due to rounding.

² From 23 June 2021 the manager's basic fee was reduced from 1.00% to 0.85%. You can find more information about the fees and charges in the Product Disclosure Statement (PDS).

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Emily had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Emily incurred a loss, after fund charges were deducted, of \$1,061 (that is -10.61% of her initial \$10,000). Emily also paid \$0 in other charges. This gives Emily a total loss after tax of \$1,061 for the year.
