

Professional Life Plan Life Insurance

Protects the
lifestyle and
future of your
loved ones

Why you need Life Insurance.

Imagine your family after your death – what do their lives look like?

- **Your home:** Is there a mortgage, and who will pay it?
- **Your children:** What was your vision for your children's future, and what does it look like now?
- **Your income:** If you were the major income provider, where does that income come from now?
- **The future:** Because your family's future plans have now changed, are their choices limited?

The good news is that you can influence these outcomes.

Life insurance helps give your family the financial freedom to be able to make the choices you had all intended and to move on with their lives.

Key features

Your Life Insurance includes the following benefits:

Life Insurance

Provides a lump sum payment in the event of your death.

Terminal illness benefit

If you are diagnosed as terminally ill with less than 12 months to live, a maximum of \$1,000,000 of your Life Insurance can be paid early.

Advanced assistance benefit

There are many expenses immediately incurred upon death. Our Life Insurance cover can pay up to \$15,000 immediately, in advance of the sum insured, upon written notification of death.

Special events increase benefit

Major life events often mean you need to increase your Life Insurance. In the following circumstances you can purchase additional cover, irrespective of your state of health at the time:

- Marriage
- Divorce
- Having a child (by birth or adoption)
- Having a child start full-time tertiary education for the first time
- Becoming a full-time carer for the first time
- Death or terminal illness diagnosis of your spouse
- Effecting or increasing your mortgage
- Entering or increasing your shareholding in a private practise, partnership, or company
- Increase in annual valuation of your business.

Parental grieving benefit

As a parent, the death of a child is unimaginable. If the worst was to happen, we will pay \$2,000 if the child was aged under 10 years, and \$15,000 if they were aged over 10.

Children's Life Insurance conversion benefit

Once your child turns 21, you can apply to convert the Parental grieving benefit into a separate Life insurance policy for your child, up to \$100,000, without medical information.

Grief counselling benefit

If you suffer a specified serious medical condition, are diagnosed as terminally ill, or die we can pay up to \$3,000 in counselling support costs.

Repatriation benefit

If the insured person dies while traveling overseas we will pay \$10,000 to support the return of their body to New Zealand.

Future Life Insurance option

Your health can change as you age. By selecting this option, you can purchase additional Life Insurance cover every three years prior to your 55th birthday irrespective of your state of health at the time – protecting your ability to get cover in the future. (Terms and conditions apply to this optional benefit).
