MAS Retirement Savings Scheme

Global Equities Fund

Fund update for the quarter ended 30 June 2023

This fund update was first made publicly available on 31 July 2023

What is the purpose of this update?

This document tells you how the MAS Retirement Savings Scheme Global Equities Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Global Equities Fund usually invests only in growth assets. The Fund aims to provide higher returns over the long term. It is suitable for investors who are prepared to accept a higher level of investment risk to potentially achieve a higher return.

Total value of the fund	\$63,723,699
Number of investors in the fund	892
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the Global Equities Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 June 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	7.44%	13.86%
Annual return (after deductions for charges but before tax)	8.12%	14.68%
Market index annual return (reflects no deduction for charges and tax)	8.10%	15.55%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz

Annual Return Graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2023.

Important: this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Global Equities Fund are charged fund charges. In the year to 31 March 2023 these were:

	% of net asset value ¹
Total fund charges	1.07%
Which are made up of:	
Total management and administration charges	1.07%
Including:	
Manager's basic fee	1.00%
Other management and administration charges	0.07%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0

¹The estimated annual fund charges include GST as applicable. Fees and charges may not sum to the total fund charges due to rounding.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Emily had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Emily received a return, after fund charges were deducted, of \$1,386 (that is 13.86% of her initial \$10,000). Emily also paid \$0 in other charges. This gives Emily a total return after tax of \$1,386 for the year.

Annual Return Graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2023.

Important: this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Moderate Fund are charged fund charges. In the year to 31 March 2023 these were:

	% of net asset value ¹
Total fund charges	1.02%
Which are made up of:	
Total management and administration charges	1.02%
Including:	
Manager's basic fee	0.85%
Other management and administration charges	0.17%
Total performance-based fees	0.00%
	Dollar amount per Investor
Other charges	\$0

¹ The annual fund charges include GST as applicable. Fees and charges may not sum to the total fund charges due to rounding.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Emily had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Emily received a return, after fund charges were deducted, of \$581 (that is 5.81% of her initial \$10,000). Emily also paid \$0 in other charges. This gives Emily a total return after tax of \$581 for the year.

Currency hedging

Currency hedging can apply to some of the asset classes the fund invests in. As at 30 June 2023, the actual hedging is as follows:

Asset class	Benchmark hedging rate	Current hedging level
International Equities	Benchmark 69% hedged (Range 0-138%)	52%
Australasian Equities	Benchmark 138% hedged (Range 0-138%)	53%
International Fixed Interest	Benchmark 100% hedged	100%

The 138% upper range reflects an approximate after-tax position of 100% (assuming a PIR of 28%), better aligning the hedge position with the underlying assets, which have a different tax treatment. MAS Retirement Savings Scheme

Conservative Fund

Fund update for the quarter ended 30 June 2023

This fund update was first made publicly available on 31 July 2023

What is the purpose of this update?

This document tells you how the MAS Retirement Savings Scheme Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Conservative Fund invests mainly in income assets with a modest allocation to growth assets. The Fund aims to preserve capital while providing a steady return over the short to medium term. It is suitable for investors who want to take a more cautious approach and accept a smaller amount of investment risk to potentially achieve a more stable return.

Total value of the fund	\$37,482,514
Number of investors in the fund	464
The date the fund started	1 October 2007

What are the risks of investing?

Risk indicator for the Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for 5 years to 30 June 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.
